Communication and Interpersonal Skills in Nursing Alec Grant, Benny Goodman, 2018-12-03 The new edition of this well regarded book introduces the underpinning theory and concepts required for the development of first class communication and interpersonal skills in nursing By providing a simple to read overview of the central topics students are able to quickly gain a solid evidence based grounding in the subject Topics covered include empathy building therapeutic relationships using a variety of communication methods compassion and dignity communicating in different environments and culture and diversity issues Three new chapters have been added that point readers towards further ways of approaching their communication skills that are less model and technique driven and focusing more on therapeutic considerations as well as looking at the politics of communication

Sociology as a Population Science John H. Goldthorpe, 2015-12-01 John Goldthorpe is one of Britain's most eminent sociologists and a strong advocate of quantitative

sociology In this concise and accessible book he provides a new rationale for recent developments in sociology which focus on establishing and explaining probabilistic regularities in human populations Through these developments Goldthorpe shows how sociology has become more securely placed within the probabilistic revolution that has occurred over the last century in the natural and social sciences alike The central arguments of the book are illustrated with examples from different areas of sociology ranging from social stratification and the sociology of the family to the sociology of revolutions He concludes by considering the implications of these arguments for the proper boundaries of sociology for its relations with other disciplines and for its public role *Quantitative Longitudinal Data Analysis* Vernon Gayle, Paul Lambert, 2020-12-10

First published Open Access under a Creative Commons license as What is Quantitative Longitudinal Data Analysis this title is now also available as part of the Bloomsbury Research Methods series Across the social sciences there is widespread agreement that quantitative longitudinal research designs offer analysts powerful scientific data resources But to date many texts on analysing longitudinal social analysis surveys have been written from a statistical rather than a social science data analysis perspective and they lack adequate coverage of common practical challenges associated with social science data analyses This book provides a practical and up to date introduction to influential approaches to quantitative longitudinal data analysis in the social sciences The book introduces definitions and terms explains the relative attractions of such a longitudinal design and offers an introduction to the main techniques of analysis explaining their requirements statistical properties and their substantive contribution *Work, Labour and Cleaning* Singha, Lotika, 2019-07-24

The outsourcing of domestic work in the UK has been steadily rising since the 1970s but there has been little research into White British women who work as independent providers of cleaning services Work Labour and Cleaning is a cross cultural analysis based on new research into two particular social contexts one in the UK and one in India It argues that outsourced domestic cleaning can be undertaken either as work using mental and manual skills or as labour usually defined as unskilled natural women s work depending on the social context and working conditions in which it occurs The book challenges feminist dogma and popular myths about housework **The Middle Classes and the City** M. Bacqué, G. Bridge, M. Benson, T. Butler, E. Charmes, Y. Fijalkow, E. Jackson, Lydie Launay, Stéphanie Vermeersch, 2015-12-27

What does it mean to be middle class in contemporary global cities What do the middle classes do to these cities and what do these cities do to the middle classes Do the middle classes engage in social mix or are they focused on people like us Based on comparative study this book explores middle class identities across Paris and London **The Routledge Handbook of Census Resources, Methods and Applications** John

Stillwell, 2017-08-24 The collection of reliable and comprehensive data on the magnitude composition and distribution of a country s population is essential in order for governments to provide services administer effectively and guide a country s development The primary source of basic demographic statistics is frequently a population census which provides hugely important data sets for policy makers practitioners and researchers working in a wide range of different socio demographic

contexts The Routledge Handbook of Census Resources Methods and Applications provides a comprehensive and authoritative guide to the collection processing quality assessment and delivery of the different data products that constitute the results of the population censuses conducted across the United Kingdom in 2011 It provides those interested in using census data with an introduction to the collection processing and quality assessment of the 2011 Census together with guidance on the various types of data resources that are available and how they can be accessed It demonstrates how new methods and technologies such as interactive infographics and web based mapping are now being used to visualise census data in new and exciting ways Perhaps most importantly it presents a collection of applications of census data in different social and health science research contexts that reveal key messages about the characteristics of the UK population and the ways in which society is changing The operation of the 2011 Census and the use of its results are set in the context of census taking around the world and its historical development in the UK over the last 200 years The results of the UK 2011 Census are a unique and reliable source of detailed information that are immensely important for users from a wide range of public and private sector organisations as well as those working in Population Studies Human Geography Migration Studies and the Social Sciences more generally
