Vietnamese State Industry and the Political Economy of Commercial Renaissance Adam Fforde, 2007-02-28 This book is based upon extensive and repeated fieldwork close observation and familiarity with institutional detail It traces Vietnam's early attempts to create in State Owned Enterprises SOEs a basis for a military industrial complex and the ways in which these attempts failed which explains the nature of state commercialism through the 1980s and into recent years Since the 1990 breakout to a market economy Vietnam has shown outstanding development

success with rapid GDP growth macroeconomic stability swift poverty reduction maintenance of social spending and extensive globalisation Her SOEs have played a major role not only in showing that performance gains in 1989 91 could compensate for loss of the large Soviet bloc aid program but also as major players in the rapid economic change of the 1990s during which the officially reported state share of GDP remained high By the middle of the 2000s however a rising private sector was in harness with a large presence of foreign companies sharply increasing pressures upon SOEs Against this background the book concludes with an assessment of the extent to which Vietnam s commercialised SOEs are now no longer seen as an effective compromise but acting as a major hindrance to Vietnam s development Historical analysis of the process by which Vietnam s SOEs shifted from central planning to operation in an increasingly globalised market economy Draws upon regular and repeated fieldwork going back to the late 1970s Uses a wide range of Vietnamese language and other sources

Duiker,2010-04-14 Vietnam became part of French Indochina in 1887 and did not regain its independence again until after the Vietnam War However despite a relatively peaceful two decades the country experienced little economic growth because of conservative leadership policies In an effort to change this stagnation Vietnamese authorities have committed to economic liberalization and enacted structural reforms needed to modernize the economy and to produce more competitive export driven industries The A to Z of Vietnam focuses on the recent changes and leadership of Vietnam while giving due attention to the earlier kingdoms the period of French Indochina the wars for liberation the Vietnam War and much more Hundreds of cross referenced A to Z dictionary entries are included on political economic social and cultural aspects as well as the major cities and geographic features This book also contains a chronology and introduction that traces Vietnam s history as well as a bibliography

Vietnam Thaveeporn Vasavakul,2019-02-07 This is a study of Vietnam s socialist transition and state transformation generally known as i m i It examines the drivers of socialist regime change the nature of the i m i state and the basis of regime legitimacy in Vietnam The Element argues that despite its one party rule label the party state apparatus that channels said rule has become fragmented State building during the i m i period involved negotiations and bargaining that redefine authority and power relations within the state apparatus The party state s accountability projects are designed to target the specific self aggrandizing tendencies of the state apparatus its policies and abuse of state power At the leadership level patterns of resource allocation underlying the i m i growth model as well as the VCP s cadre rotation approach have accommodated central and sub national state elites across sectors and levels helping shore up the legitimacy of the i m i state in the eyes of the state elite The combination of sustained economic growth expansion of political space accountability and tolerance of small scale public protests have been factors in strengthening regime society legitimization The Statesman's Year-Book 1993-94 B. Hunter,2016-12-23 The classic reference work that provides annually updated information on the countries of the world Comecon J. J. Brine,1992 Comecon or the Council for Mutual Economic Assistance was founded by Joseph Stalin in 1949 to counteract the Marshall Plan and reinforce the bonds between the Soviet Union and the people s democracies of Eastern Europe Other Soviet Bloc nations later joined Comecon and for forty years it dominated the trade policies of the Soviet Bloc and profoundly influenced their domestic economic development and relations with the West Comecon collapsed in 1991 after the countries of Eastern Europe rejected communism It was often compared with the West European Common Market but differed vastly in its aims structure powers and activities Its influence is a critical factor in assessing both the economic failures of the Soviet Bloc and the problems facing former member states as they make the transition to free market economies This detailed annotated bibliography is an essential guide to the extensive English language literature about Comecon from its founding until its demise Chapters cover Comecon s history structure and law socialist economic integration the organization s arrangements for international trade and finance environment natural resources and energy labor industry and agriculture science and technology Comecon like the rest of the Soviet Bloc collapsed suddenly but its legacy will color international relations and worldwide economic issues for years to come An understanding of its institutions mechanisms and policies remains vital hi appreciating the economic organization of the former Soviet empire This bibliography will therefore be indispensable to policymakers economists historians and political scientists *The Power of Everyday Politics* Benedict J. Tria Kerkvliet,2018-07-05 Ordinary people s everyday political

behavior can have a huge impact on national policy that is the central conclusion of this book on Vietnam In telling the story of collectivized agriculture in that country Benedict J Tria Kerkvliet uncovers a history of local resistance to national policy and gives a voice to the villagers who effected change Not through open opposition but through their everyday political behavior villagers individually and in small unorganized groups undermined collective farming and frustrated authorities efforts to correct the problems The Power of Everyday Politics is an authoritative account based on extensive research in Vietnam s National Archives and in the Red River Delta countryside of the formation of collective farms in northern Vietnam in the late 1950s their enlargement during wartime in the 1960s and 1970s and their collapse in the 1980s As Kerkvliet shows the Vietnamese government eventually terminated the system but not for ideological reasons Rather collectivization had become hopelessly compromised and was ultimately destroyed largely by the activities of villagers Decollectivization began locally among villagers themselves national policy merely followed The power of everyday politics is not unique to Vietnam Kerkvliet asserts He advances a theory explaining how everyday activities that do not conform to the behavior required by authorities may carry considerable political weight *Vietnam* Martin Gainsborough,2013-07-04
