the works on paper in Black and White provide insight into her environments exterior and interior In them she positions universal themes motherhood death longing within the sphere of her private existence and her social unconscious While a handful of the drawings are urban cityscapes and others are domestic settings the majority are portraits And when Neel the self named Collector of Souls composed a portrait she never posed her sitters Instead she studied and spoke intimately with her subjects as they unconsciously assumed their most natural attitude which she believed exhorted all their character and life experience The images she created full of distinctly innate gestures stemmed from her succinct understanding and assembled memory and coalesced into a unique impression of a person **SRDS Consumer Magazine Advertising**
