## **National Geographic Behind Americas Lens On The World:**

**Presenting America's World** Tamar Y. Rothenberg, 2016-12-05 National Geographic magazine is probably the most visible and popular expression of geography in the USA. *Presenting America's World* presents a critical analysis of the world portrayed by National Geographic from its formative years in the nineteenth century through to 1945. It situates the National Geographic Society's development within the context of a new American overseas expansionism, interrogates the magazine as America's ubiquitous source of wholesome exotica and erotica, examines the ways in which it framed the world for its millions of readers, and questions its participation in the cultural work of US global hegemony. The book argues that National Geographic successfully employed strategies of innocence, a contradictory stance of representation which simultaneously asserts innocence either the innocence of just watching or the innocence of altruistic behaviour while naturalizing Western hegemony. *Presenting America's World* not only considers the world that National Geographic presented to its readers but also examines the magazine's own institutional world of writers, photographers and editors. Particular attention is paid to Gilbert H. Grosvenor, the magazine's editor for over 50 years; Maynard Owen Williams, a writer and photographer who worked on nearly 100 articles from 1919 to 1960; and Harriet Chalmers Adams, a freelancer, explorer, and Pan American activist who contributed 21 articles. *The Geographical Imagination in America, 1880-1950* Susan Schulten, 2001 Schulten examines four enduring institutions of learning that produced some of the most influential sources of geographic knowledge in modern history: maps and atlases, the National Geographic Society, the American university, and public schools. **BOOK JACKET**

**American Iconographic** Stephanie L. Hawkins, 2010-06-03 In an era before affordable travel, National Geographic not only served as the first glimpse of countless other worlds for its readers but it helped them confront sweeping historical change. There was a time when its cover with the unmistakable yellow frame seemed to be on every coffee table in every waiting room. In *American Iconographic*, Stephanie L. Hawkins traces National Geographic's rise to cultural prominence from its first publication of nude photographs in 1896 to the 1950s when the magazine's trademark visual and textual motifs found their way into cartoon, caricature, popular novels, and film, trading on the romance of the magazine's distinctive visual fare. National Geographic transformed local color into global culture through its production and circulation of readily identifiable cultural icons. The adventurer, photographer, the exotic woman of color, and the intrepid explorer were part of the magazine's institutional aesthetic, a visual and textual repertoire that drew upon popular nineteenth-century literary and cultural traditions. This aesthetic encouraged readers to identify themselves as members not only in an elite society but paradoxically as both Americans and global citizens. More than a window on the world, National Geographic presented a window on American cultural attitudes and drew forth a variety of complex responses to social and historical changes brought about by immigration, the Great Depression, and world war. Drawing on the National Geographic Society's archive of readers' letters and its founders' correspondence, Hawkins reveals how the magazine's participation in the culture industry was not so

straightforward as scholars have assumed Letters from the magazine's earliest readers offer an important intervention in this narrative of passive spectatorship revealing how readers resisted and revised National Geographic's authority Its photographs and articles celebrated American self reliance and imperialist expansion abroad but its readers were highly aware of these representational strategies and alert to inconsistencies between the magazine's editorial vision and its photographs and text Hawkins also illustrates how the magazine actually encouraged readers to question Western values and identify with those beyond the nation's borders Chapters devoted to the magazine's practice of photographing its photographers on assignment and to its genre of husband wife adventurers reveal a more enlightened National Geographic invested in a cosmopolitan vision of a global human family A fascinating narrative of how a cultural institution can influence and embody public attitudes this book is the definitive account of an iconic magazine's unique place in the American imagination

**American Photojournalism** Claude Hubert Cookman, 2009 The traditional approach to studying American photojournalism explains the what and who of photojournalism what events and developments occurred what notable images were taken and who took them Without neglecting those concerns American Photojournalism emphasizes the why

Geomodernisms Laura Doyle, Laura Anne Doyle, Laura A. Winkiel, 2005 Modernism as a global phenomenon is the focus of the essays gathered in this book The term geomodernisms indicates their subjects continuity with and divergence from commonly understood notions of modernism The contributors consider modernism as it was expressed in the non Western world the contradictions at the heart of modernization in revolutionary and nationalist settings and with respect to race and nativism and modernism's imagined geographies psychogeographies of distance and desire as viewed by the subaltern the caste bound the racially mixed the gender determined

[Selected Readings in the Anthropology of Religion](#) Stephen D. Glazier, Charles A. Flowerday, 2003-12-30 Brings together in one volume a number of key theoretical and methodological advances in the anthropological study of religion Chapters cover important topics not ordinarily included in books dealing with the anthropology of religion e g bipedalism the study of alcohol film and video images notions of religious agency In addition this collection is intended to build bridges between anthropologists of religion and religious studies scholars Over the last four decades anthropologists have grappled with the dialectical relationship between the examination of cultures from the emic or insider perspective and the etic or outsider perspective Nowhere is this creative tension more evident than in the anthropological study of religion In this volume anthropologists and religious studies scholars come to terms not only with a landscape that has shifted fundamentally but a landscape that is still shifting Essays in this collection raise new and important issues for the anthropological study of religion in new and important ways In intensely personal essays a number of contributors address two fundamental concerns in the study of religion 1 how should anthropologists deal with the beliefs and practices of others and 2 how should anthropologists deal with their own religious backgrounds and beliefs as these may affect their understanding of the beliefs and practices of others A partial resolution to both questions is necessary before the anthropological study of religion can advance to a higher level [American Studies](#) , 2000

**History of Science in United States** Marc Rothenberg, 2012-10-12 This Encyclopedia examines all aspects of the history of science in the United States with a special emphasis placed on the historiography of science in America It can be used by students

general readers scientists or anyone interested in the facts relating to the development of science in the United States  
Special emphasis is placed in the history of medicine and technology and on the relationship between science and technology and science and medicine      **The Earth Encompassed** Peter J. Bowler, 2000 An accessible and comprehensive history of discoveries and outlooks that culminated in the modern discipline of environmental studies      **The Oddest Place on Earth** Christopher Pala, 2002 When Christopher Pala first landed at the North Pole he fell so much in love with it that he took his girlfriend to ride the polar treadmill on what he mischievously called the First Expedition to Nowhere For a week the couple skied every day to the pole pitched their tent and drifted away from it as they slept Between his five trips to the pole Pala used his journalistic skills to peel away the layers of myth surrounding its discovery and capture the untold story of the first men who indisputably stood there Pala is the first to chronicle the transformation of one of the most remote places on earth into a new Mecca for adventure travelers Flying in every April on Russian jets he joined risk lovers to parachute over it balloon across it attain it on skis and scuba dive under it But as he discovers man's presence at the pole is still ephemeral and there is plenty of opportunity to enjoy the escape from ordinary constraints of time and space provided by this breathtakingly gorgeous place that is not a place Excerpts of the book have appeared in Cond Nast Traveler Blue Adventure Polar Record and other publications      **Weaponizing Maps** Joe Bryan, Denis Wood, 2015-03-11 Maps play an indispensable role in indigenous peoples efforts to secure land rights in the Americas and beyond Yet indigenous peoples did not invent participatory mapping techniques on their own they appropriated them from techniques developed for colonial rule and counterinsurgency campaigns and refined by anthropologists and geographers Through a series of historical and contemporary examples from Nicaragua Canada and Mexico this book explores the tension between military applications of participatory mapping and its use for political mobilization and advocacy The authors analyze the emergence of indigenous territories as spaces defined by a collective way of life and as a particular kind of battleground      Apollo's Eye Denis Cosgrove, 2003-10-17 Cosgrove's analysis traces a pattern of associations between global images and the formation of Western identities paying tribute to the richly complex cosmographic tradition out of which today's geographical imagination has emerged **BOOK JACKET**      *Mapping Men and Empire* Richard Phillips, 1997 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company      **Geography and Geographers** Ron Johnston, James Sidaway, 2015-12-22 Explores the relationship between human and physical geography All chapters updated in the new edition to reflect new literature and changes in the discipline Chapter One systematically considers representations of geographical thought The closing chapter develops an explicit argument about what has made human geography distinctive Draws on a wide reading of the geographical literature produced during a fifty year period characterised by both growth in the number of academic geographers and substantial shifts in conceptions of the discipline's scientific rationale
