Landrum,2013-08-11 Essentially a phenomenon of the twentieth century America s pioneering state park movement has grown rapidly and innovatively to become one of the most important forces in the preservation of open spaces and the provision of public outdoor recreation in the country During this time the movement has been influenced and shaped by many factors social cultural and economic resulting in a wide variety of expressions While everyone agrees that the state park movement has been a positive and beneficial force on the whole there seems to be an increasing divergence of thought as to exactly what direction the movement should take in the future In The State Park Movement in America Ney Landrum recipient of almost
