National Minorities And Citizenship Rights In Lithuania 1988 1993:

National Minorities and Citizenship Rights in Lithuania, 1988-93 V. Popovski, 2000-11-08 This book examines the emergence of nationalism in Lithuania specifically the Lithuanian national movement known as Sajudis and its approach towards the citizenship rights of national minorities The study concentrates on the period between 1988 and 1993 when the national majority and minorities began forming and debating citizenship rights The question of citizenship rights of national minorities is not ordinarily viewed as a problem with regard to Lithuania and there has consequently been minimal attention devoted to this topic This book addresses this neglect and brings the underlying assumptions into critical perspective by analysing the Lithuanian situation not just according to the letter of the law but also in terms of how these laws were implemented and how the minorities responded to them In doing so the book explores the conflict which emerged between the growing national movement and the ideals of citizenship such as multicultural pluralism diversity and heterogeneity The book therefore has relevance to all those who are interested in postcommunist societies and in particular the tensions that frequently develop between nationalism and citizenship *Encyclopedia of the World's Minorities* Carl Skutsch, 2013-11-07 This study of minorities involves the difficult issues of rights justice equality dignity identity autonomy political liberties and cultural freedoms The A Z Encyclopedia presents the facts arguments and areas of contention in over 560 entries in a clear objective manner For a full list of entries contributors and more visit the Encyclopedia of the World's Minorities website

Minority Rights and Minority Protection in Europe Timofey Agarin, Karl Cordell, 2016-03-24 In order to gain access to the EU nations must be seen to implement formal instruments that protect the rights of minorities This book examines the ways in which these tools have worked in a number of post communist states and explores the interaction of domestic and international structures that determine the application of these policies Using empirical examples and comparative cases the text explores three levels of policy making within sub state and national politics and within international agreements laws and policy blueprints This enables the authors to establish how domestic policymakers negotiate various structural factors in order to interpret rights norms and implement them long enough to gain EU accession Showing that it is necessary to focus upon the states of post communist Europe as autonomous actors and not as mere recipients of directives and initiatives from the West the book shows how underlying structural conditions allow domestic policy actors to talk the talk of rights protection without walking the walk of implementing minority rights legislation on their territories **Historical**

Dictionary of Lithuania Saulius A. Suziedelis, 2011-02-07 The Lithuanian people have undergone historic changes quite different from those of other European nations In earlier centuries geography provided strategic advantage and opportunities for expansion but in recent times the country has more often experienced location as a geopolitical curse After constantly losing territory and shrinking in size the country disappeared in 1795 However after World War I a popular national movement led to the restoration of Lithuania as an independent state World War II and its bloody aftermath brought foreign

occupation as well as genocide mass murder and destruction unparalleled in the country's modern history. The restoration of independence in 1990 has fundamentally altered Lithuania's geopolitical reality. Integration into the European Union and the North Atlantic Treaty Organization promise a new level of security for the Lithuanian state in the 21st century even as the social and economic transformations present both promising opportunities and difficult challenges. The second edition of the Historical Dictionary of Lithuania will serve as a useful introduction to virtually all aspects of Lithuania's historical experience including the country's relations with its neighbors. This is done through a chronology an introductory essay an extensive bibliography and over 300 cross referenced dictionary entries on significant persons places and events institutions and organizations and political economic social cultural and religious facets.

Minority Rules David Lublin, 2014. When we think of minorities linguistic ethnic religious regional or racial in world politics conflict is often the first thing that comes to mind. Indeed discord and tension are the depressing norms in many states across the globe. Iraq the former Yugoslavia Sudan Israel Sri Lanka Burma Rwanda and many more. But as David Lublin points out in this magisterial survey of minority based political groups across the globe such parties typically function fairly well within larger polities. In *Minority Rules* he eschews the usual approach of shining attention on conflict and instead looks at the representation of minority groups in largely peaceful and democratic countries throughout the world from the tiniest nations in Polynesia to great powers like Russia. Specifically he examines factors behind the electoral success of ethnic and regional parties and alternatively their failure to ever coalesce to explain how peaceful democracies manage relations between different groups. Contrary to theories that emphasize sources of minority discontent that exacerbate ethnic cleavages for instance disputes over control of natural resource wealth *Minority Rules* demonstrates that electoral rules play a dominant role in explaining not just why ethnic and regional parties perform poorly or well but why one potential ethnic cleavage emerges instead of another. This is important because the emergence of ethnic regional parties along with the failure to incorporate them meaningfully into political systems has long been associated with ethnic conflict. Therefore Lublin's findings which derive from an unprecedentedly rich empirical foundation have important implications not only for reaching successful settlements to such conflicts but also for preventing violent majority minority conflicts from ever occurring in the first place.

Taming Nationalism? Political Community Building in the Post-Soviet Baltic States Dovile Budryte, 2017-05-15. Revisiting the process of political community building in Estonia Latvia and Lithuania this book analyzes the roles that international actors have played in these processes and assesses the unintended consequences of this involvement. The study differs from other works on ethnic minorities and nationalism in the former Soviet Union by exploring the use of minority rights discourse and the salience of historical memory. Case studies examine the transformation of nationalism in Estonia Latvia and Lithuania all former Soviet republics which have experienced Soviet nationalities policy first hand. Primarily intended for an academic audience and practitioners interested in promoting tolerance in multi ethnic societies the book's historical narrative will also appeal to

readers with a general interest in the former Soviet Union and post Communism *Nobility, Land and Service in Medieval Hungary* M. Rady, 2000-10-27 The absence in medieval Hungary of fief holding and vassalage has often been cited by historians as evidence of Hungary's early deviation from European norms This new book argues that medieval Hungary was nevertheless familiar with many institutions characteristic of noble society in Europe Contents include the origins of the Hungarian nobility and baronage lordship and clientage the role of the noble kindred conditional landholding the organization of the frontier the administration of the counties and the establishment of representative institutions

Security Intelligence Services in New Democracies K. Williams, D. Deletant, 2000-12-18 The first account of the secret police in Eastern Europe and after 1989 this book uses a wide range of sources including archives to identify what has and has not changed since the end of communism After explaining the structure and workings of two of the area's most feared services Czechoslovakia's StB and Romania's Securitate the authors details the creation of new security intelligence institutions the development of contacts with the West and forms of democratic control **Romanian Policy Towards**

Germany, 1936-40 R. Haynes, 2016-01-20 This new book based on archival research contests the assumptions that Romania remained pro Western in the late 1930s and only joined the Axis as a result of Western negligence and German pressure Instead Germany was drawn by Romanian politicians into political and economic cooperation with Bucharest In the event this proved Romania's undoing Let down by her German protector she was forced to cede territory to the Soviet Union Hungary and Bulgaria Subsequently Romania was allowed into the alliance she sought with Germany *A History of Central*

European Women's Writing C. Hawkesworth, 2001-04-10 A History of Central European Women's Writing offers a unique survey of literature from the Czech Republic Poland Hungary Croatia Slovakia and Slovenia It introduces a little known area of European literature from a unique point of view illustrating the development of women's writing in the region from the middle ages to the present day It offers a broad historical survey placing individual writers in their social and political context and showing how processes shaping their lives are reflected in their works *Russian Nationalism and the Politics*

of Soviet Literature S. Cosgrove, 2004-01-29 Russian nationalism increasingly important as the Russian Federation finds its place in the world is not a new phenomenon Who were the Russian nationalists before the creation of today's Russia What were their views What was their political influence This book seeks answers to these questions by looking in detail at the last decade of the USSR through the eyes of a group of Russian nationalist intellectuals gathered around the literary journal Nash sovremennik The author suggests that in the Twenty first century a specifically Russian type of nationalism ethnic and statist could provide the ideological underpinning for a new authoritarianism **Civil War in Poland 1942-1948** A.

Prazmowska, 2004-07-29 This challenging new work uses archival research to examine Poland's government in exile during the Second World War as it sought both to fight against the advances of Germany and the Soviet Union and to prepare for the moment when it would once more be possible to establish a national Polish government The author suggests that the Poles

were as much at war with themselves throughout the war and in the years immediately following the end of hostilities as they were with the German and Soviet forces Civil War in Poland 1942 1948 contributes to the debate on the fate of Poland in this complex period the origins of Communist regimes in Eastern Europe and the process of transformation in Europe during and since the Second World War **Education and Civic Culture in Post-Communist Countries** S. Webber,I.

Liikanen,2016-01-20 The vivid discussion on civil society in Eastern Europe that flourished during the late 1980s and early 1990s has faded somewhat and been partly replaced by new attempts to conceptualise the nature of social change taking place in these countries This book strives to continue and go beyond the civil society discourse by analysing the interrelationship between education and civic culture in post communist countries The volume offers detailed case studies written by specialists from the region and from Western Europe and North America examining everyday patterns of civic culture the linkage between education and national identity ethnicity gender and religion the experience and attitudes of youth and attempts to render education systems better suited to the demands of post communist society *A History of the Baltic States* Andres Kasekamp,2017-10-26 In this key textbook Andres Kasekamp masterfully traces the development of Estonia Latvia and Lithuania from the northern crusades against Europe s last pagans and Lithuania s rise to become one of medieval Europe s largest states to their incorporation into the Russian Empire and the creation of their modern national identities Employing a comparative approach a particular emphasis is placed upon the last one hundred years during which the Baltic states achieved independence endured occupation by the Soviet Union and Nazi Germany and transformed themselves into members of the European Union This is an essential textbook for undergraduate students taking modules on Eastern or Central European History Communism and Post Communism the Soviet Union or Baltic Culture and Politics Engaging and accessible this is also an ideal introduction to the Baltic States for general readers **Ethnic Politics after**

Communism Zoltan Barany,Robert G. Moser,2018-07-05 The Soviet Union encompassed dozens of nationalities and ethnicities and in the wake of its collapse the politics of ethnicity within its former borders and throughout Eastern Europe have undergone tremendous changes In this book Zoltan Barany and Robert G Moser bring together eminent scholars whose theoretically diverse and empirically rich research examines various facets of ethnicity in postcommunist Europe and Eurasia ethnic identity and culture mobilization parties and voting conflict and ethnic migration The contributors consider how ethnic forces have influenced political outcomes that range from voting to violence and protest mobilization to language acquisition Conversely each chapter demonstrates that political behavior itself has an impact on the forms and strength of ethnic identity Thus ethnicity is deemed to be a contested malleable and constructed force rather than a static characteristic inherent in the attributes of groups and individuals with a common religion race or national origin *Europeanization and Minority Political Agency* Zsuzsa Csörgő,Ada-Charlotte Regelman,2018-09-11 Zsuzsa Csörg is Associate Professor and Head of the Political Studies Department at Queen s University in Canada She is also the President of the Association for the Study of

Nationalities ASN Her research addresses questions of nationalism democratization and the influence of EU integration on state minority relations in post Cold War Europe Ada Charlotte Regelmann is a Project Manager at Rosa Luxemburg Stiftung focusing on the social inclusion of marginalised groups in European societies Previously she was a lecturer at Queen s University Belfast UK and Maynooth University Ireland Her research explores the impact of Europeanisation on nation state building and social integration in post communist Europe

The Oxford Handbook of Citizenship Ayelet Shachar, Rainer Bauboeck, Irene Bloemraad, Maarten Vink, 2017-08-03 Contrary to predictions that it would become increasingly redundant in a globalizing world citizenship is back with a vengeance The Oxford Handbook of Citizenship brings together leading experts in law philosophy political science economics sociology and geography to provide a multidisciplinary comparative discussion of different dimensions of citizenship as legal status and political membership as rights and obligations as identity and belonging as civic virtues and practices of engagement and as a discourse of political and social equality or responsibility for a common good The contributors engage with some of the oldest normative and substantive quandaries in the literature dilemmas that have renewed salience in today s political climate As well as setting an agenda for future theoretical and empirical explorations this Handbook explores the state of citizenship today in an accessible and engaging manner that will appeal to a wide academic and non academic audience Chapters highlight variations in citizenship regimes practiced in different countries from immigrant states to non western contexts from settler societies to newly independent states attentive to both migrants and those who never cross an international border Topics include the selling of citizenship multilevel citizenship in between statuses citizenship laws post colonial citizenship the impact of technological change on citizenship and other cutting edge issues This Handbook is the major reference work for those engaged with citizenship from a legal political and cultural perspective Written by the most knowledgeable senior and emerging scholars in their fields this comprehensive volume offers state of the art analyses of the main challenges and prospects of citizenship in today s world of increased migration and globalization Special emphasis is put on the question of whether inclusive and egalitarian citizenship can provide political legitimacy in a turbulent world of exploding social inequality and resurgent populism
