Shadow of Liberation Vishnu Padayachee, Robert Van Niekerk, 2019-10-01 *Shadow of Liberation* explores the intricate twists turns contestations and compromises of ANC economic and social policymaking with a focus on the transition era of the 1990 s and the early years of democracy With the damning revelations by the Zondo Commission of Inquiry into State Capture on the massive corruption of the South African body politic the timing of this book could not be more relevant South Africans need to confront the economic and social policy choices that the liberation movement made and to see how these decisions may have facilitated the conditions for corruption to emerge and flourish Answers are needed Padayachee and van Niekerk focus their attention on the primary question of how and why the ANC given its historical anti inequality re distributive stance come in the 1990s to such a dramatic turn around and move towards an essentially market dominated approach Were they pushed or did they go willingly What role if any did Western governments and international financial institutions play And what of the role of the late apartheid state and South African business Did leaders and comrades sell out the ANC s emancipatory policy vision *Shadow of Liberation* tries to provide answers to these questions drawing on the best available primary archival evidence as well as extensive interviews with key protagonists across the political non government and business spectrum The authors argue that the ANC s emancipatory policy agenda was broadly to establish a social democratic welfare state upholding rights of social citizenship However its economic policy framework to realise this emancipatory mission was either non existent or egregiously misguided Slater's *National Commercial Directory of Ireland; Including in Addition to the Trades' Lists, Alphabetical Directories of Dublin, Belfast, Cork and Limerick. The State of the People Bert Klandermans,Marlene Roefs,Johan L. Olivier,2001 The period 1994 to 2000 saw the implementation of fundamental social and political change in South Africa Social science literature suggests that such fundamental change increases the probability of civil conflict and strife as some sectors of the population expect significant improvements in their position following the removal of economic and political barriers that previously inhibited their upward mobility Other sectors are concerned about a possible decrease in their living standards as a result of the erosion of their privileged position Still others experience increased uncertainty which in itself is associated with significant social change

The Banker's Almanac ,1874 The Constitution of South Africa Heinz Klug,2010-07-15 South Africa s 1996 Final Constitution is widely recognised as the

crowning achievement of the country's dramatic transition to democracy. This transition began with the unbanning of the liberation movements and release of Nelson Mandela from prison in February 1990. This book presents the South African Constitution in its historical and social context, providing students and teachers of constitutional law and politics an invaluable resource through which to understand the emergence, development and continuing application of the supreme law of South Africa. The chapters present a detailed analysis of the different provisions of the Constitution, providing a clear, accessible and informed view of the constitution's structure and role in the new South Africa. The main themes include a description of the historical context and emergence of the constitution through the democratic transition; the implementation of the constitution and its role in building a new democratic society; the interaction of the constitution with the existing law and legal institutions, including the common law, indigenous law and traditional authorities; as well as a focus on the strains placed on the new constitutional order by both the historical legacies of apartheid and new problems facing South Africa. Specific chapters address the historical context, the legal, political and philosophical sources of the constitution, its principles and structure, the bill of rights, parliament and executive, as well as the constitution's provisions for cooperative government and regionalism. The final chapter discusses the challenges facing the Constitution and its aspirations in a democratic South Africa. The book is written in an accessible style with an emphasis on clarity and concision. It includes a list of references for further reading at the end of each chapter.

Grassroots Liberals Royce Koop, 2011-05-01. The Liberal Party has fallen on hard times since 2006. Once Canada's governing party but now confined to the sidelines, it struggles to renew itself. Drawing on interviews and personal observations in cross-country ridings, Royce Koop reveals that although the federal Liberal Party disassociated itself from its provincial cousins to rebuild itself in the mid-twentieth century, grassroots Liberals in the constituencies are building bridges between the national party and the provinces. This insider's view of party politics challenges the idea that Canada has two distinct political spheres: the provincial and the national, and suggests that national parties can overcome the challenges of multi-level politics by deepening ties with constituencies.
