Mehta, Dr. Rajesh Bheda, Rakhi Handa, Paul F. Bowes, G. Jayapal Nair and Late Dr. Rams,2020-06-11 Retaining customers in any industry is one of the biggest challenges today and more so in the fashion industry where competition is very high and customer loyalty very fickle which has to be earned not just by the look of the garment but also through quality Therefore it is imperative that apparel brands world over follow strict quality guidelines right from product designing to quality of inputs to sewing and packaging the product This critical journey even involves managing the quality of the machines on which the product is made to the way the after sales services are carried out Effectively managing quality of all the above materials and processes is a major challenge mainly for the reason that the complete cycle requires human intervention and humans make mistakes This book is an honest endeavour to comprehensively cover implementation of all the possible tools techniques and methodologies which encompass the concept of quality for the apparel industry such as quality control quality assurance and total quality management system All the concepts have been fortified by case studies on the implementation process with detailed discussion and final outcome These would not only enable the industry to move forth on the path of consistent improvement but would also support it to remain in sync with the rapidly evolving technological world of today *Records of the Department of State Relating to Internal Affairs of Japan* ,1987 **Preliminary Inventory of the Records of the Accounting Department of the Office of Price Administration** National Archives (U.S.),United States.
