National Service Donald J. Eberly, 1988 What the establishment can't grasp is that you can get a better education from two years with VISTA or the Peace Corps than from four years in your major universities Donald Eberly The spirit of the above statement by Donald Eberly is also the guiding spirit of his proposals for national service as set forth in his recent book **National Service A Promise to Keep** Eberly would like to bring a VISTA or Peace Corps sort of service experience to every young person who desires it not only to those with specialized training or college experience The notion that experience especially service experience can be highly educational an impetus for personal growth is a root of the national service idea Along with Eberly's interesting informative narrative history of national service the book contains a number of articles by Eberly others as well as an extensive bibliography on the subject The sum is a fine resource for study discussion of an important topic one which may prove to hold solutions to many of the problems we face today in the years to come

Managing Diversity In Singapore: Policies And Prospects Mathews Mathew, Wai Fong Chiang, 2016-05-11 Singapore society is increasingly becoming diverse During the first few decades of nation building policies were designed to homogenise aspects of Singaporean society while enshrining principles to allow restricted amounts of diversity Fast forward to the present and fifty years after independence the number of areas where diversity is profoundly apparent remains

copious and its manifestations more varied This book provides an updated account on the tensions posed by diversity in Singapore and how this is being managed primarily by the state through policies and programmes but also by communities who attempt to negotiate these tensions Such an enquiry is crucial especially at this juncture when the nation is finding ways to embrace the different forms of diversity brought about through external impetuses as well as manage internal reactions from the various communities The book chapters highlight important considerations if Singapore s diversity management strategies will hold promise for the future
