**Nationalism and Irony** Yoon Sun Lee, 2004-08-26 Nationalism and irony are two of the most significant developments of the Romantic period yet they have not been linked in depth before now This study shows how Romantic nationalism in Britain explored irony's potential as a powerful source of civic cohesion The period's leading conservative voices self consciously non English figures such as Edmund Burke Walter Scott and Thomas Carlyle accentuated rather than disguised the anomalous character of Britain's identity structure and history Their irony publicly fractured while upholding sentimental fictions of national wholeness Britain's politics of deference its reverence for tradition and its celebration of productivity all became not only targets of irony but occasions for its development as a patriotic institution This study offers a different view of both Romantic irony and Romantic nationalism irony is examined as an outgrowth of commercial society and as a force that holds together center and periphery superiors and subordinates in the culture of nationalism

**Scott's Shadow** Ian Duncan, 2016-08-02 Scott's Shadow is the first comprehensive account of the flowering of Scottish fiction between 1802 and 1832 when post Enlightenment Edinburgh rivaled London as a center for literary and cultural innovation Ian Duncan shows how Walter Scott became the central figure in these developments and how he helped redefine the novel as the principal modern genre for the representation of national historical life Duncan traces the rise of a cultural nationalist ideology and the ascendancy of Scott's Waverley novels in the years after Waterloo He argues that the key to Scott's achievement and its unprecedented impact was the actualization of a realist aesthetic of fiction one that offered a socializing model of the imagination as first theorized by Scottish philosopher and historian David Hume This aesthetic Duncan contends provides a powerful novelistic alternative to the Kantian Coleridgean account of the imagination that has been taken as normative for British Romanticism since the early twentieth century Duncan goes on to examine in detail how other Scottish writers inspired by Scott's innovations James Hogg and John Galt in particular produced in their own novels and tales rival accounts of regional national and imperial history Scott's Shadow illuminates a major but neglected episode of British Romanticism as well as a pivotal moment in the history and development of the novel

*Celebrating Shakespeare* Clara Calvo, Coppélia Kahn, 2015-11-19 On the 400th anniversary of Shakespeare's death this collection opens up the social practices of commemoration to new research and analysis An international team of leading scholars explores a broad spectrum of celebrations showing how key events such as the Easter Rising in Ireland the Second Vatican Council of 1964 and the Great Exhibition of 1851 drew on Shakespeare to express political agendas In the USA commemoration in 1864 counted on him to symbolise unity transcending the Civil War while the First World War pulled the 1916 anniversary celebration into the war effort enlisting Shakespeare as patriotic poet The essays also consider how the dream of Shakespeare as a rural poet took shape in gardens how cartoons challenged the poet's elite status and how statues of him mutated into advertisements for gin and Disney cartoons Richly varied illustrations supplement these case studies of the diverse complex and contradictory aims of memorialising Shakespeare

Imperial Characters Tara Ghoshal Wallace, 2010 In a searching but sympathetic series of textual analyses Wallace argues that the canon of eighteenth century English Literature was born out of the interplay between literary nationalism and an imperial internationalism *Imperial Characters* will add considerably to the globalization of the discipline that has been underway for some years now

*The Cambridge Companion to Fiction in the Romantic Period* Richard Maxwell, Katie Trumpener, 2008-02-21 While poetry has been the genre most closely associated with the Romantic period the novel of the late eighteenth and early nineteenth centuries has attracted many more readers and students in recent years Its canon has been widened to include less well known authors alongside Jane Austen Walter Scott Maria Edgeworth and Thomas Love Peacock Over the last generation especially a remarkable range of popular works from the period have been re-discovered and reread intensively This Companion offers an overview of British fiction written between roughly the mid 1760s and the early 1830s and is an ideal guide to the major authors historical and cultural contexts and later critical reception The contributors to this volume represent the most up to date directions in scholarship charting the

ways in which the period's social, political and intellectual redefinitions created new fictional subjects, forms and audiences.

**Conrad and History** Richard Niland, 2010-02-25 This book examines the philosophy of history and the subject of the nation in the literature of Joseph Conrad. It explores the importance of nineteenth-century Polish Romantic philosophy in Conrad's literary development, arguing that the Polish response to Hegelian traditions of historiography in nineteenth-century Europe influenced Conrad's interpretation of history. After investigating Conrad's early career in the context of the philosophy of history, the book analyses *Nostromo* (1904), *The Secret Agent* (1907) and *Under Western Eyes* (1911) in light of Conrad's writing about Poland and his sustained interest in the subject of national identity. Conrad juxtaposes his belief in an inherited Polish national identity derived from Herder and Rousseau with a sceptical questioning of modern nationalism in European and Latin American contexts. *Nostromo* presents the creation of the modern nation-state of Sulaco. *The Secret Agent* explores the subject of foreigners and nationality in England, while *Under Western Eyes* constitutes a systematic attempt to undermine Russian national identity. Conrad emerges as an author who examines critically the forces of nationalism and national identity that troubled Europe throughout the nineteenth century and in the period before the First World War. This leads to a consideration of Conrad's work during the Great War. In his fiction and newspaper articles during the war, Conrad found a way of dealing with a conflict that made him acutely aware of being sidelined at a turning point in both modern Polish and modern European history. Finally, this book re-evaluates Conrad's late novels *The Rover* (1923) and *Suspense* (1925), a long-neglected part of his career, investigating Conrad's sustained treatment of French history in his last years alongside his life-long fascination with the cult of Napoleon Bonaparte. *The French Revolution Debate and the British Novel, 1790-1814* Morgan Rooney, 2013 This study examines how debates about history during the French Revolution informed and changed the nature of the British novel between 1790 and 1814. During these years, intersections between history, political ideology and fiction, as well as the various meanings of the term history itself, were multiple and far-reaching. Morgan Rooney elucidates these subtleties clearly and convincingly. While political writers of the 1790s (Burke, Price, Mackintosh, Paine, Godwin, Wollstonecraft and others) debate the historical meaning of the Glorious Revolution as a prelude to broader ideological arguments about the significance of the past for the present, and future novelists engage with this discourse by representing moments of the past or otherwise vying to enlist the authority of history to further a reformist or loyalist agenda. Anti-Jacobin novelists such as Charles Walker, Robert Bisset and Jane West draw on Burkean historical discourse to characterize the reform movement as ignorant of the complex operations of historical accretion. For their part, reform-minded novelists such as Charlotte Smith, William Godwin and Maria Edgeworth travesty Burke's tropes and arguments so as to undermine and then redefine the category of history. As the Revolution crisis recedes, new novel forms such as Edgeworth's regional novel, Lady Morgan's national tale and Jane Porter's early historical fiction emerge, but historical representation largely the legacy of the 1790s novel remains an increasingly pronounced feature of the genre.

Whereas the representation of history in the novel Rooney argues is initially used strategically by novelists involved in the Revolution debate it is appropriated in the early nineteenth century by authors such as Edgeworth Morgan and Porter for other often related ideological purposes before ultimately developing into a stable nonpartisan aestheticized feature of the form as practiced by Walter Scott The French Revolution Debate and the British Novel 1790 1814 demonstrates that the transformation of the novel at this fascinating juncture of British political and literary history contributes to the emergence of the historical novel as it was first realized in Scott's Waverley 1814 **Global Romanticism** Evan Gottlieb, 2014-12-18 For several decades interest in the British Romantics theorizations and representations of the world beyond their national borders has been guided by postcolonial and more recently transatlantic paradigms Global Romanticism Origins Orientations and Engagements 1760 1820 charts a new intellectual course by exploring the literature and culture of the Romantic era through the lens of long durational globalization In a series of wide ranging but complementary chapters this provocative collection of essays by established scholars makes the case that many British Romantics were committed to conceptualizing their world as an increasingly interconnected whole In doing so moreover they were both responding to and shaping early modern versions of the transnational economic political sociocultural and ecological forces known today as globalization

**Disputed Titles** Natasha Tessone, 2015-10-30 Disputed Titles Ireland Scotland and the Novel of Inheritance 1798 1832 argues for the centrality of inheritance often impeded disrupted inheritance to the novel's rise to preeminence in Britain during the Romantic period Novels by Maria Edgeworth Sydney Owenson Charles Maturin Walter Scott and John Galt are densely populated by orphans changelings and lost and kidnapped heirs and privilege a romance plot of dispossession that undermines the illusion of continuity implicit in the very concept of legacy Through narratives of illegitimate ownership and other similar genealogical aberrations authors from Britain's peripheries interrogate their equivocal places in the uneasy compound of The United Kingdom of Great Britain and Ireland Moving between the local and global manifestations of inheritance their novels imagine history as contested property in order to explore vital issues of historic transition and political legitimacy issues of immense consequence in the revolutionary climate of the late eighteenth and early nineteenth centuries
