**Nationalism in Late and Post-communist Europe** ,2008 **Really Existing Nationalisms** Erica Benner,1995-12-28 This is an impressive re examination of the theories of Marx and Engels on nationalism The author challenges the conventional view that Marx and Engels lacked the theoretical resources needed to understand nationalism It argues that the two men had a much better explanatory grasp of national phenomena than is usually supposed and that the reasoning behind their policy towards specific national movements was often subtle and sensitive to the ethical issues at stake Instead of offering an insular Marxian account of nationalism the book identifies arguments in Marx and Engels writings that can help us to think more clearly about national identity and conflict today These arguments are located in a distinctive theory of politics which enabled the authors to analyse the relations between nationalism and other social movements and to discriminate between democratic outward looking national programmes and authoritarian ethnocentric nationalism The book suggest that this approach improves on accounts which stress the independent force of nationality over other concerns and on thos that fail to analyse the complex motives of nationalist actors It concludes by criticizing these methodological nationalist assumptions and post nationalist views about the future role of nationalism showing how some of marx and Engles arguments can yield a better understanding of the national movements that have emerged in the wake of really existing socialism National Questions: Theoretical Reflections on Nations and Nationalism in Eastern Europe Alexander

Motyl,2022 Combining social science with the multi disciplinarity of area studies Alexander Motyl discusses in fifteen essays the malleability and modernity of national identity the attractions and limits of social constructivist imaginings of nations the impact of national discourses binary morality and historical narratives on interpretations of the Holocaust and the Holodomor the relationship between liberalism nationalism and fascism and the role of national identity and nationalism in Eastern Europe in general and the Soviet Union Ukraine and Russia in particular Throughout the chapters Motyl questions conventional wisdom exposes its inconsistencies and weaknesses and encourages readers to rethink their views in light of conceptual clarity theoretical rigor elementary logic and empirical evidence **Nationalism in Late and Post-Communist Europe** ,2008 **Nationalism in Late and Post-Communist Europe** ,2008 **Nationalism**

**reframed** Rogers Brubaker, 1999      **Fantasies of Salvation** Vladimir Tismaneanu, 1998-01-01 Despite Democratic successes in places such as the Czech Republic and Poland Tismaneanu argues that it would be a mistake for the West to assume that liberalism will always triumph in post Communist Europe *Fantasies of Salvation* is a thought provoking book for both academic and nonacademic readers who wish to understand the forces shaping one of the world's most important and unpredictable regions      **Nation-building After World War Two** Christian Joppke, 1996      *Nationalism and After* E.H. Carr, 2021-04-01 Published in 1945 *Nationalism and After* was a best selling classic in its own time which sparked intense debate when it first appeared and has continued to do so ever since Authored in a moment of hope E H Carr's uncompromising critique of nationalism and plea for a more rational international order remains as relevant today as it did when it was first written As the world is once again confronted by a rising tide of nationalism *Nationalism and After* remains a beacon of hope in an era where reasoned critical analysis has never been more urgently required It is here reissued in full with a new definitive introduction by leading Carr scholar Michael Cox
