**Erik Gunnar Asplund** Malcolm Woollen,2018-07-16 Taking an interdisciplinary approach weaving together art philosophy history and literature this book investigates the landscapes and buildings of Swedish architect Erik Gunnar Asplund Through critical essays and beautiful illustrations focusing on four projects the Woodland Cemetery the Stockholm Public Library the Stockholm Exhibition and Asplund s own house at Stenn s it addresses the topic of buildings accompanied by landscapes It proposes that themes related to landscape are central to Asplund s distinctive work with these particular sites forming a collection that documents an evolution in his design thinking from 1915 to 1940 The architect himself wrote comparatively little about his design intentions However through close reading and analysis of the selected projects as landscapes with architecture author Malcolm Woollen argues that reflections of the history of Swedish landscape

architecture and the intellectual climate in the late nineteenth and early twentieth centuries are evident in his work and help to explain the architect's intentions. This book is a must have for academics, advanced students and researchers in landscape architecture and design who are interested in Nordic Classicism and the works of Erik Gunnar Asplund. **Green Oslo** Per Gunnar Røe, 2016-04-22 As urban regions face the demand to decrease fossil fuel dependency many cities in the developing world are undertaking initiatives designed to create a greener city by aiming for a more sustainable form of urban development and to do so they need to evaluate existing modes of transportation and patterns of land use. Focusing on Oslo, an early leader in urban environmental policy making and a European green city award winner, it argues that this evaluation must adopt and integrate two approaches: firstly as a process of ecological modernization based on a combination of transit densification and mixed use development, and secondly as an opportunity to reconsider the character and substance of the built environment as a reflection of natural values, landscapes and natural resources of the wider region. Environmental debate and concern is widespread in Oslo and this is reflected in its earlier planning decisions to leave intact large forest reserves, its successful ecological restoration of the Oslo fjord, the importance of outdoor culture among its residents, the relatively progressive political agenda of Norway. This book provides an opportunity for a critical assessment of the limitations and opportunities inherent in green Oslo and suggests the need for much broader integrative approaches. It concludes by highlighting lessons which other cities might learn from Oslo. **"Foreign Artists and Communities in Modern Paris, 1870-1914"** Susan Waller, 2017-07-05 *Foreign Artists and Communities in Modern Paris 1870-1914* examines Paris as a center of international culture that attracted artists from Western and Eastern Europe, Asia and the Americas during a period of burgeoning global immigration. Sixteen essays by a group of emerging and established international scholars, including several whose work has not been previously published in English, address the experiences of foreign exiles, immigrants, students and expatriates. They explore the formal and informal structures that permitted foreign artists to forge connections within and across national communities and in some cases fashion new transnational identities in the City of Light. Considering Paris from an innovative global perspective, the book situates both important modern artists such as Edvard Munch, Sonia Delaunay, Marc Chagall and Gino Severini, and lesser known American, Czech, Italian, Polish, Welsh, Russian, Japanese, Catalan and Hungarian painters, sculptors, writers, dancers and illustrators within the larger trends of international mobility and cultural exchange. Broadly appealing to historians of modern art and history, the essays in this volume characterize Paris as a thriving transnational arts community in which the interactions between diverse cultures, peoples and traditions contributed to the development of a hybrid and multivalent modern art. **Antimodernism and Artistic Experience** Lynda Jessup, 2001-01-01 Scholars in art history, anthropology, history and feminist media studies explore Western antimodernism of the turn of the 20th century as an artistic response to a perceived loss of authentic experience.

**Fin-de-Siecle Scottish Revival** Michael Shaw, 2019-09-27 This volume reveals a distinct but comparable concern with

Hilma Af Klint Julia Voss, 2022-10-19 A highly anticipated biography of the enigmatic and popular Swedish painter The Swedish painter Hilma af Klint 1862 1944 was forty four years old when she broke with the academic tradition in which she had been trained to produce a body of radical abstract works the likes of which had never been seen before Today it is widely accepted that af Klint was one of the earliest abstract academic painters in Europe But this is only part of her story Not only was she a working female artist she was also an avowed clairvoyant and mystic Like many of the artists at the turn of the twentieth century who developed some version of abstract painting af Klint studied Theosophy which holds that science art and religion are all reflections of an underlying life form that can be harnessed through meditation study and experimentation Well before Kandinsky Mondrian and Malevich declared themselves the inventors of abstraction af Klint was working in a nonrepresentational mode producing a powerful visual language that continues to speak to audiences today The exhibition of her work in 2018 at the Guggenheim Museum in New York City attracted more than 600 000 visitors making it the most attended show in the history of the institution Despite her enormous popularity there has not yet been a biography of af Klint until now Inspired by her first encounter with the artist s work in 2008 Julia Voss set out to learn Swedish and research af Klint s life not only who the artist was but what drove and inspired her The result is a fascinating biography of an artist who is as great as she is enigmatic
