Littlefield, 2013-09-01 At the heart of the biblical myth of chosenness is the idea that God has blessed a people to be a blessing to others It is a mission of solemn responsibility The six British and American thinkers examined in this study embraced the myth of chosenness for their countries believed that the liberties they enjoyed were inherently tied to their Protestant faith and that it was their mission to protect and spread that faith and its democratic fruit at home and abroad

Richard Rohr, Shephali Patel, Lyla June Johnston, 2016-09-01 The Zen Master Thich Nhat Hanh was asked what we need to do to save our world What we most need to do he replied is to hear within us the sound of the earth crying Our present ecological crisis is the greatest man made disaster this planet has ever faced its accelerating climate change species depletion pollution and acidification of the oceans A central but rarely addressed aspect of this crisis is our forgetfulness of the sacred nature of creation and how this affects our relationship to the environment There is a pressing need to articulate a spiritual response to this ecological crisis This is vital and necessary if we are to help bring the world as a living whole back into balance The first edition of this book published in 2013 fostered the emergence of the Spiritual Ecology Movement which recognizes the need for a spiritual response to our present ecological crisis It drew an overwhelmingly positive response from readers many of whom are asking the simple question What can I do The 2016 expanded edition offers new chapters including two from younger authors who are putting the principles of spiritual ecology into action working with their hands as well as their hearts It also includes a new preface and revised chapter by Llewellyn Vaughan Lee that reference two major recent events the publication of Pope Francis's encyclical *On Care for Our Common Home* which brought into the mainstream the idea that the ecological crisis is essentially a spiritual problem and the 2015 Paris Climate Change Conference which saw representatives from nearly 200 countries come together to address global warming including faith leaders from many traditions And in Autumn 2021 we have issued a new edition with a new updated preface from editor Llewellyn Vaughan Lee who has also rewritten his chapter *The Call of the Earth Bringing together voices from Buddhism Sufism Christianity and Native American traditions as well as from physics deep psychology and other environmental disciplines this book calls on us to reassess our underlying attitudes and beliefs about the Earth and wake up*

**Wordsworth and the Writing of the Nation** James M. Garrett, 2016-02-17 Shedding fresh light on Wordsworth's contested relationship with an England that changed dramatically over the course of his career James Garrett places the poet's lifelong attempt to control his literary representation within the context of national ideas of self determination represented by the national census national survey and national museum Garrett provides historical background on the origins of these three institutions which were initiated in Britain near the turn of the nineteenth century and shows how their development converged with Wordsworth's own as a writer The result is a new narrative for Wordsworth studies that re integrates the early middle and late periods of the poet's career Detailed critical discussions of Wordsworth's poetry including works that are not typically accorded significant attention force us to reconsider the usual view of Wordsworth as a fading middle aged poet withdrawing into the hills Rather

Wordsworth's ceaseless reworking of earlier poems and the flurry of new publications between 1814 and 1820 reveal Wordsworth as an engaged public figure attempting to write the nation and position himself as the nation's poet
