*The State, Removal and Indigenous Peoples in the United States and Mexico, 1620-2000* Claudia Haake, 2007-11-21 This book investigates the forced migration of the Delawares in the United States and the Yaquis in Mexico focusing primarily on the impact removal from tribal lands had on the ethnic identity of these two indigenous societies It analyzes Native responses to colonial and state policies to determine the practical options that each group had in dealing with the states in which they lived Haake convincingly argues that both nation states aimed at the destruction of the Native American societies within their borders This exemplary comparative transnational study clearly demonstrates that the legacy of these attitudes and policies are readily apparent in both countries today This book should appeal to a wide variety

of academic disciplines in which diversity and minority political representation assume significance **Native Heritage**

Arlene B. Hirschfelder, 1995 Arguably the most eloquent powerful portrayal of Native Americans are written or narrated by Natives themselves In Native Hermitage authentic accounts of Natives voices are brought together some for the first time for readers who want an informed authentic perspective about Native Americans This work is significant because until recent times the literature has been largely devoid of firsthand perspectives The need for accurate authentic materials on native Americans has never been greater *The Comanche Code Talkers of World War II* William C. implementation and provides a historical background of social policy and social work practice plus a wealth of descriptive and analytic information concerning policymaking processes specific social policies and the effect of social policy on social programs

**Deaf World** Lois Bragg, 2001-02 Bragg English Gallaudet U has collected a selection of sources including political writings and personal memoirs covering topics such as eugenics speech and lip reading the right to work and the controversy over separation or integration This book offers a glimpse into an often overlooked but significant minority in American culture and one which many of the articles asserts is more like an internal colony than simply a minority group Annotation copyrighted by Book News Inc Portland OR

**Indigenous Memory, Urban Reality** Michelle R. Jacobs, 2023-01-10 Contemporary accounts of urban Native identity in two pan Indian communities In the last half century changing racial and cultural dynamics in the United States have caused an explosion in the number of people claiming to be American Indian from just over half a million in 1960 to over three million in 2013 Additionally seven out of ten American Indians live in or near cities rather than in tribal communities and that number is growing In Indigenous Memory Urban Reality Michelle Jacobs examines the new reality of the American Indian urban experience Drawing on ethnographic research conducted over two and a half years Jacobs focuses on how some individuals are invested in reclaiming Indigenous identities whereas others are more invested in relocating their sense of self to the urban environment These groups not only apply different meanings to indigeneity but they also develop different strategies for asserting and maintaining Native identities in an urban space inundated with false memories and fake icons of Indian ness Jacobs shows that Indianness is a highly contested phenomenon among these two groups some are accused of being wannabes who merely play Indian while others are accused of being exclusionary and policing the boundaries of Indianness Taken together the interconnected stories of relocators and reclaimers expose the struggles of Indigenous and Indigenous identified participants in urban pan Indian communities Indigenous Memory Urban Reality offers a complicated portrait of who can rightfully claim and enact American Indian identities and what that tells us about how race is made today

**Sequoyah** Roberta Basel, 2007 The United States was growing at a rapid pace For the settlers who were pushing west to the frontier and the Native Americans who were protecting their lands life was filled with danger and difficulties People who wove their way into history overcame their challenges with a courage that defined an era and shaped a nation Sequoyah a Cherokee Indian is best known for inventing a system of writing for the Cherokee language In 1821 after more than a decade of work he succeeded in creating a set of symbols to represent the sounds of spoken Cherokee The new written language was easy to learn and helped boost ethnic pride Sequoyah won the respect of his people and was soon operating as a delegate in Cherokee dealings with the United States He died in 1843 on a mission to unify the Cherokee people

**Screening Culture** Heather Norris Nicholson, 2003-01-01 The lives of Indigenous peoples have long been framed for the outside world by others cinematic gaze But during the past thirty years North America s Indigenous image makers particularly in Canada have used the changing

technologies of film video television and computer to present their peoples histories identities and perspectives This edited collection of essays conversations and interviews combines Indigenous and non Indigenous voices as it sets changing representations of Indigenous people on screen against broader socio cultural ideological and economic considerations

Nation to Nation Suzan Shown Harjo, 2014-09-30 Nation to Nation Treaties Between the United States and American Indians explores the promises diplomacy and betrayals involved in treaties and treaty making between the United States government and Native Nations One side sought to own the riches of North America and the other struggled to hold on to traditional homelands and ways of life The book reveals how the ideas of honor fair dealings good faith rule of law and peaceful relations between nations have been tested and challenged in historical and modern times The book consistently demonstrates how and why centuries old treaties remain living relevant documents for both Natives and non Natives in the 21st century

**Education, Dominance and Identity** Diane B. Napier, Suzanne Majhanovich, 2013-02-11 This volume is a collection of research cases illustrating the interrelationships among education dominance and identity in historical and contemporary contexts The cases reflect particular ways in which local group and indigenous identities have been affected by a dominant discourse how education can support or undermine identity and how languages including dominant and sub dominant languages and the language of instruction in schools are at the centre of challenges to hegemony and domination in many situations Examining the issues in their research the contributors reveal how members of minority disadvantaged or dominated groups and the teachers and parents of children in their schools struggle for recognition for education in their own language for acceptance within larger society or for recognition of the validity of their responses to reform initiatives and policies that address a wider agenda but that fail to take into account key factors such as perceptions and subaltern status Collectively the chapters document research employing a variety of methodological approaches and theoretical perspectives illustrating an array of universal and global issues in the field of comparative and international education However each of the cases its own unique character as research findings and as personal reflections based on the authors experiential knowledge in particular social cultural and political contexts The contexts and regional settings include Chile Canada the United States Hungary and elsewhere in East Central Europe France Germany Spain Malaysia Tanzania South Africa Cyprus Tunisia Egypt Iran and elsewhere in the Middle East
