can prepare and what is at stake if we fail to act When heat comes it s invisible It doesn t bend tree branches or blow hair across your face to let you know it s arrived The sun feels like the barrel of a gun pointed at you The world is waking up to a new reality wildfires are now seasonal in California the Northeast is getting less and less snow each winter and the ice sheets in the Arctic and Antarctica are melting fast Heat is the first order threat that drives all other impacts of the climate crisis And as the temperature rises it is revealing fault lines in our governments our politics our economy and our values The basic science is not complicated Stop burning fossil fuels tomorrow and the global temperature will stop rising tomorrow Stop burning fossil fuels in 50 years and the temperature will keep rising for 50 years making parts of our planet virtually uninhabitable It s up to us The hotter it gets the deeper and wider our fault lines will open The Heat Will Kill You First is about the extreme ways in which our planet is already changing It is about why spring is coming a few weeks earlier and fall is coming a few weeks later and the impact that will have on everything from our food supply to disease outbreaks It is about what will happen to our lives and our communities when typical summer days in Chicago or Boston go from 90 F to 110 F A heatwave Goodell explains is a predatory event one that culls out the most vulnerable people But that is changing As heatwaves become more intense and more common they will become more democratic As an award winning journalist who has been at the forefront of environmental journalism for decades Goodell s new book may be his most provocative yet explaining how extreme heat will dramatically change the world as we know it Masterfully reported mixing the latest scientific insight with on the ground storytelling Jeff Goodell tackles the big questions and uncovers how extreme heat is a force beyond anything we have reckoned with before [Wading Through Many Voices](#) Harold Recinos,2011-04-16 [Wading through Many Voices](#) brings together the voices of Latino a African American Asian American Native American and Euro American scholars to produce a dialogue of public theology how faith communities divided by race class ethnicity and gender can find a common ground for life together The authors articulate a multiethnic perspective on public theology that counters the divisive identity politics of U S public life with systematic thinking that strengthens the commitment to critically transform social relations in light of a shared vision of public good The contributors develop a shared public theology that addresses social divisions while offering readers a broad vision to collaborate and struggle for an improved understanding of the common good for our pluralistic society In light of emerging social issues the contributors suggest that a fundamental respect for difference is a required first value for living together in a common social and political space [The Untold History of Healing](#) Wolf D. Storl,2017-03-21 This captivating history of medicine traces healing practices from the Stone Age to modern times highlighting ancient knowledge and plant based treatments This absorbing history of medicine takes the reader on a sweeping journey revealing that Western medicine has its origins not only in the academic tradition of doctors and pharmacists but in the healing lore of Paleolithic hunters and gatherers herding nomads and the early sedentary farmers Anthropologist and ethnobotanist Wolf D Storl vividly describes the many ways that ancient peoples have used the plants in

their immediate environment along with handed down knowledge and traditions to treat the variety of ailments they encountered in daily life *Voices from the Ancestors* Lara Medina, Martha R. Gonzales, 2019-10-08 *Voices from the Ancestors* brings together the reflective writings and spiritual practices of Xicanx Latinx and Afro Latinx womxn and male allies in the United States who seek to heal from the historical traumas of colonization by returning to ancestral traditions and knowledge This wisdom is based on the authors oral traditions research intuitions and lived experiences wisdom inspired by and created from personal trajectories on the path to spiritual conocimiento or inner spiritual inquiry This conocimiento has reemerged over the last fifty years as efforts to decolonize lives minds spirits and bodies have advanced Yet this knowledge goes back many generations to the time when the ancestors understood their interconnectedness with each other with nature and with the sacred cosmic forces a time when the human body was a microcosm of the universe Reclaiming and reconstructing spirituality based on non Western epistemologies is central to the process of decolonization particularly in these fraught times The wisdom offered here appears in a variety of forms in reflective essays poetry prayers specific guidelines for healing practices communal rituals and visual art all meant to address life transitions and how to live holistically and with a spiritual consciousness for the challenges of the twenty first century **Our Hidden Landscapes** Lucianne Lavin, Elaine Thomas, 2023-10-31 Challenging traditional and long standing understandings this volume provides an important new lens for interpreting stone structures that had previously been attributed to settler colonialism Instead the contributors to this volume argue that these locations are sacred Indigenous sites This volume introduces readers to eastern North America s Indigenous ceremonial stone landscapes CSLs sacred sites whose principal identifying characteristics are built stone structures that cluster within specific physical landscapes *Our Hidden Landscapes* presents these often unrecognized sites as significant cultural landscapes in need of protection and preservation In this book Native American authors provide perspectives on the cultural meaning and significance of CSLs and their characteristics while professional archaeologists and anthropologists provide a variety of approaches for better understanding protecting and preserving them The chapters present overwhelming evidence in the form of oral tradition historic documentation ethnographies and archaeological research that these important sites created and used by Indigenous peoples are deserving of protection This work enables archaeologists historians conservationists foresters and members of the general public to recognize these important ritual sites Contributors Nohham Rolf Cachat Schilling Robert DeFosses James Gage Mary Gage Doug Harris Julia A King Lucianne Lavin Johannes Jannie H N Loubser Frederick W Martin Norman Muller Charity Moore Norton Paul A Robinson Laurie W Rush Scott M Strickland Elaine Thomas Kathleen Patricia Thrane Matthew Victor Weiss **First Nations, Identity, and Reserve Life** Simone Poliandri, 2011-11-01 Issues of identity figure prominently in Native North American communities mediating their histories traditions culture and status This is certainly true of the Mi kmaw people of Nova Scotia whose lives on reserves create highly complex economic social political and spiritual realities This ethnography

investigates identity construction and negotiations among the Mi kmaq as well as the role of identity dynamics in Mi kmaw social relationships on and off the reserve Featuring direct testimonies from over sixty individuals this work offers a vivid firsthand perspective on contemporary Mi kmaw reserve life Simone Poliandri begins *First Nations Identity and Reserve Life* with a search for the criteria used by the Mi kmaq to construct their identities which are traced within the context of their different perceptions of community tradition spirituality relationship with the Catholic Church and the recent reevaluation of the iconic figure of late activist Annie Mae Aquash Building on the notions of self identification and ascribed identity as the primary components of identity Poliandri argues that placing others at specific locations within the social landscape of their communities allows the Mi kmaq to define and reinforce their own spaces by way of association contrast or both This identification of others highlights Mi kmaw people s agency in shaping and monitoring the representations of their identities With its theoretical insights this richly textured ethnography will enhance understanding of identity dynamics among Indigenous communities even as it illuminates the unique nature of the Mi kmaw people

Water and Urbanism in Roman Britain Jay Ingate,2019-03-28 The establishment of large scale water infrastructure is a defining aspect of the process of urbanisation In places like Britain the Roman period represents the first introduction of features that can be recognised and paralleled to our modern water networks Writers have regularly cast these innovations as markers of a uniform Roman identity spreading throughout the Empire and bringing with it a familiar modern sense of

what constitutes civilised urban living However this is a view that has often neglected to explain how such developments were connected to the important symbolic and ritual traditions of waterscapes in Iron Age Britain Water and Urbanism in Roman Britain argues that the creation of Roman water infrastructure forged a meaningful entanglement between the process of urbanisation and significant local landscape contexts As a result it suggests that archetypal Roman urban water features were often more related to an active expression of local hybrid identities rather than alignment to an incoming continental ideal By questioning the familiarity of these aspects of the ancient urban form we can move away from the unhelpful idea that Roman precedent is a central tenet of the current unsustainable relationship between water and our modern cities This monograph will be of interest to academics and students studying aspects of Roman water management urbanisation in Roman Britain and theoretical approaches to landscape It will also appeal to those working more generally on past human interactions with the natural world
