Choctaw perspective a method of discourse which Howe terms Choctalking Drawing on interdisciplinary methodologies and theories Squint complicates prevailing models of the Native South by proposing the concept of the Interstate South a space in which Native Americans travel physically and metaphorically between tribal national and U S boundaries Squint considers Howe s engagement with these interconnected spaces and cultures as well as how indigeneity can circulate throughout them This important critical work which includes an appendix with a previously unpublished interview with Howe contributes to ongoing conversations about the Native South positioning Howe as a pivotal creative force operating at under examined points of contact between Native American and southern literature
