We Are All Americans, Pure and Simple Leroy G. Dorsey, 2013-08-28 The turn of the 20th century represented one of the most chaotic periods in the nation's history as immigrants Native Americans and African Americans struggled with their roles as Americans while white America feared their encroachments on national identity This book examines Theodore Roosevelt's public rhetoric speeches essays and narrative histories as he attempted to craft one people out of many Leroy G Dorsey observes that Roosevelt's solution to the problem appeared straightforward everyone could become Americans pure and simple if they embraced his notion of Americanism Roosevelt grounded his idea of Americanism in myth particularly the frontier myth a heroic combination of individual strength and character When nonwhites and immigrants demonstrated these traits they would become true Americans earning an exalted status that they had heretofore been denied Dorsey's analysis illuminates how Roosevelt's rhetoric achieved a number of delicate if problematic balancing acts Roosevelt gave his audiences the opportunity to accept a national identity that allowed some room for immigrants and nonwhites while reinforcing their status as others thereby reassuring white Americans of their superior place in the nation Roosevelt's belief in an ordered and unified nation did not overwhelm his private racist attitudes Dorsey argues but certainly competed with them Despite his private sentiments he recognized that racist beliefs and rhetoric were divisive and bad for the nation's

progress The resulting message he chose to propagate was thus one of a rhetorical if not literal melting pot By focusing on Roosevelt s rhetorical constructions of national identity as opposed to his personal exploits or his role as a policy maker We Are All Americans offers new insights into Roosevelt s use of public discourse to bind the nation together during one of the most polarized periods in its history

McClennen, Earl E. Fitz, 2004 The genesis of Comparative Cultural Studies and Latin America stems from the contributors conviction that given its vitality and excellence Latin American literature deserves a more prominent place in comparative literature publications curricula and disciplinary discussions The editors introduce the volume by first arguing that there still exists in some quarters a lingering bias against literature written in Spanish and Portuguese Secondly the authors assert that by embracing Latin American literature and culture more enthusiastically comparative literature would find itself reinvigorated placed into productive discourse with a host of issues languages literatures and cultures that have too long been paid scant academic attention Following an introduction by the editors the volume contains papers by Gene H Bell Villada on the question of canon by Gordon Brotherston and L cia de S on the First Peoples of the Americas and their literature by Elizabeth Coonrod Mart nez on the Latin American novel of the 1920s by Rom n de la Campa on Latin American Studies by Earl E Fitz on Spanish American and Brazilian literature by Roberto Gonz lez Echevarra on Latin American and comparative literature by Sophia A McClennen on comparative literature and Latin American Studies by Alberto Moreiras on Borges by Julio Ortega on the critical debate about Latin American cultural studies by Christina Marie Tourino on Cuban Americas in New York City by Mario J Vald s on the comparative history of literary cultures in Latin America and by Lois Parkinson Zamora on comparative literature and globalization The volume also contains a bibliography of scholarship in comparative Latin American culture and literature and biographical abstracts of the contributors to the volume

Teaching Religion and Film Gregory J Watkins, 2008-08-22 In a culture increasingly focused on visual media students have learned not only to embrace multimedia presentations in the classroom but to expect them Such expectations are perhaps more prevalent in a field as dynamic and cross disciplinary as religious studies but the practice nevertheless poses some difficult educational issues the use of movies in academic coursework has far outpaced the scholarship on teaching religion and film What does it mean to utilize film in religious studies and what are the best ways to do it In Teaching Religion and Film an interdisciplinary team of scholars thinks about the theoretical and pedagogical concerns involved with the intersection of film and religion in the classroom They examine the use of film to teach specific religious traditions religious theories and perspectives on fundamental human values Some instructors already teach some version of a film and religion course and many have integrated film as an ancillary to achieving central course goals This collection of essays helps them understand the field better and draws the sharp distinction between merely watching movies in the classroom and comprehending film in an informed and critical way
