## **Nato And Caspian Security A Mission Too Far:**

**The Security of the Caspian Sea Region** Gennadii Illarionovich Chufrin, Stockholm International Peace Research Institute, 2001 Over the past decade the Caspian Sea region has risen from relative obscurity to considerable prominence in global affairs Located at the crossroads of traditional trade routes between Europe and Asia and possessing vast natural resources oil and natural gas among them it attracts widespread international interest The emergence of new sovereign states in the region has fundamentally transformed its political landscape The future of the Caspian region is far from certain however as it is challenged by a wide variety of political socio economic and military threats which include the declining living standards of vast segments of local populations inter ethnic and inter confessional tensions and conflicts militant separatism international terrorism and illegal trade in arms and drugs The security of the region is also affected by the intensifying strategic competition among major outside powers over establishing their political and economic influence in regional affairs The book offers a competent analysis of the major political economic and security developments in the region by a diverse group of highly qualified experts from the Caspian littoral states the USA and the European Union

**NATO's Eastern Agenda in a New Strategic Era** F. Stephen Larrabee, 2004-01-05 NATO's Eastern agenda faces several challenges including consolidating the democratic transitions in Central and Eastern Europe ensuring the security of the Baltic states developing a post NATO enlargement strategy for Ukraine deepening the Russia NATO partnership and engaging the Caucasus and Central Asia The author also considers NATO's broader transformation

**The Stryker Brigade Combat Team** Alan J. Vick, David T. Orletsky, Bruce R. Pirnie, Seth G. Jones, 2002-12-24 Examines alternative means to decrease the deployment time for the new Army medium weight brigade comparing air and sealift from the United States with air and fast but short range sealift from forward bases or preposition sites Historical experience and an assessment of U S regional interests are used to determine how much warning time the United States typically has before major force deployments and where it is most likely to deploy such forces

**The Future Security Environment in the Middle East** Nora Bensahel, Daniel Byman, 2004-03-12 This report identifies several important trends that are shaping regional security It examines traditional security concerns such as energy security and the proliferation of weapons of mass destruction as well as newer challenges posed by political reform economic reform civil military relations leadership change and the information revolution The report concludes by identifying the implications of these trends for U S foreign policy

*Central Asia: Views from Washington, Moscow, and Beijing* Eugene B. Rumer, Dmitri Trenin, Huasheng Zhao, 2016-09-16 The disintegration of the Soviet Union in 1991 rapidly and irrevocably transformed Central Asia's political landscape This region of five sovereign states with a population of some fifty million people quickly became a major focus of interest and influence for competing poles of power The eminent contributors to this volume offer a four part analysis of the region's new importance in world

affairs Rajan Menon examines the place of Central Asia in a global perspective Eugene Rumer considers the perspective of the post 9 11 United States Dimitri Trenin looks at the region from the standpoint of traditional hegemon Russia Huasheng Zhao provides the view from economic superpower in the making China

**Going Global Or Going Nowhere?** Jennifer Medcalf, 2008 This book examines the changing nature and location of NATO's operations concentrating on the development of its extra European interventions The objectives of the book are twofold The first is to provide a historical overview of the importance of the out of area issue to NATO The book takes a chronological approach to this and maps the evolution of the debates that took place about NATO's appropriate response to threats beyond the North Atlantic area from NATO's founding in 1949 until the present day The second objective is to assess how successfully NATO has made the transition from being a security actor with regional responsibilities to one that responds to global security threats The author considers the argument that emerged post 9 11 that the key to ensuring NATO's future vitality was to expand its geographic area of responsibility to encompass threats occurring both within and beyond the Euro Atlantic area This book therefore provides the first detailed examination of the evolution of NATO's global role and the success with which NATO has adapted to its new responsibilities

*Understanding Ethnopolitical Conflict* E. Souleimanov, 2013-07-08 This book critically evaluates the growing body of theoretical literature on ethnic conflict and civil war using empirical data from three major South Caucasian conflicts evaluating the relative strengths and weaknesses of the available methodological approaches

**The United States and Europe: Policy Imperatives in a Globalizing World** Howard M. Hensel, 2017-11-22 This title was first published in 2002 This provocative volume explores key aspects of the contemporary relationship between the United States and the European powers as they attempt to address common issues as the international community enters a new millennium Representing diverse perspectives opinions analyses and recommendations regarding the regional and global problems and opportunities confronted by both the United States and the Europeans the book is particularly suitable for scholars and policy makers alike who contribute to ongoing discussions concerning this critical relationship

**Global Security in the Twenty-first Century** Sean Kay, 2011-08-16 This thoroughly updated edition of *Global Security in the Twenty first Century* offers a balanced introduction to contemporary security dilemmas in the world Sean Kay assesses the impact of the global economic crisis on international security and considers how the range of thinking about power and peace has evolved in relation to major flashpoints including in the Middle East Asia and Eurasia Kay focuses especially on the implications of the election of Barack Obama and the changing role of the United States in global security He builds on the first edition's emphasis on the role of trade and technology the militarization of space the privatization of security the use of sanctions ethnic conflict and transnational crime This edition goes even farther to incorporate traditional thinking about national security in the context of human rights democracy population health environment energy and especially education Writing in an engaging style Kay integrates traditional and emerging challenges in one easily accessible study that gives readers the

tools they need to develop a thoughtful and nuanced understanding of global security

**Russia's Security and the War on Terror** Mikhail Tsypkin, 2007-09-26 This book discusses and provides examples of Russia's need to reshape its security and military policies in order to meet the global challenges of fighting terrorism and counterinsurgency. It addresses some of the problems facing Russia's national security and military power including military reform, US-Russian relations, the political economy of Russian security policy, Russian policy regarding the proliferation of weapons of mass destruction, the chances for US-Russian cooperation in ballistic missile defence, and Russia's Security and the War on Terror. This book provides an insight into Russian military policies and its changing relationship with NATO throughout the 1990s. This book was previously published as a special issue of *The Journal of Slavic Military Studies*.

**Limiting institutions?** James Sperling, Sean Kay, Victor Papacosma, 2018-07-30 This electronic version has been made available under a Creative Commons BY-NC-ND open access license. Eurasian security governance has received increasing attention since 1989. The North Atlantic Treaty Organisation, the institution that best served the security interests of the West in its competition with the Soviet Union, is now relatively ill-equipped to resolve the threats emanating from Eurasia to the Atlantic system of security governance. This book investigates the important role played by identity politics in the shaping of the Eurasian security environment. It investigates both the state in post-Soviet Eurasia as the primary site of institutionalisation and the state's concerted international action in the sphere of security. This investigation requires a major caveat: state-centric approaches to security impose analytical costs by obscuring substate and transnational actors and processes. The terrorist attacks on the World Trade Center and the Pentagon marked the maturation of what had been described as the new terrorism. Jervis has argued that the western system of security governance produced a security community that was contingent upon five necessary and sufficient conditions. The United States has made an effort to integrate China and Russia into the Atlantic security system via the Partnership for Peace (PfP) programme and the Euro-Atlantic Partnership Council. The Black Sea Economic Cooperation has become engaged in disseminating security concerns in fields such as environment, energy, and economy. If the end of the Cold War left America triumphant, Russia's new geopolitical hand seemed a terrible demotion. Successfully rebalancing the West and building a collaborative system with Russia, China, Europe, and America probably requires more wisdom and skill from the world's leaders.

**Tug of War** Mikhail Troitskiy, Fen Olser Hampson, 2017-12-15 Conflicts in Eurasia have been receiving significant attention in the last few years from political scientists and international relations scholars. The geographic area of Eurasia lies at the intersection of global and regional conflicts and coordination games. On the one hand, regional controversies in Eurasia often affect relations among the great powers on a global scale. For instance, Russia believes it is engaged in a clash with the United States and its allies in post-Soviet Eurasia and that by obstructing EU and US policies in its neighbourhood, Moscow not only protects its security interests but also precipitates the demise of the US-centric world order. On the other hand, global rivalries can either exacerbate tensions or facilitate negotiated solutions across Eurasia, mostly as a result of

competitive behaviour among major powers in conflict mediation Few scholars have focused on the negotiation process or brought together the whole variety of seemingly disparate yet comparable cases This volume edited by two global security experts one from Canada and one from Russia examines negotiations that continue after the hot phase of a conflict has ended and the focus becomes the search for lasting security solutions Tug of War brings together conflict and security experts from Russia Eurasia and the West to tackle the overarching question how useful has the process of negotiation been in resolving or mitigating different conflicts and coordination problems in Eurasia compared to attempts at exploiting or achieving a decisive advantage over one's opponents

**Oil** Toby Shelley, 2013-04-04 Access to oil and natural gas and their prices are hugely important axes of geo political strategy and global economic prospects and have been for a century This book written by a Financial Times journalist who has long covered the energy sector provides readers with the essential information they need for understanding the shifting structure of the global oil and gas economy where the reserves lie who produces what trade patterns consumption trends prices The book highlights political and social issues in the global energy sector the domestic inequality civil conflict and widespread poverty that dependence on oil exports inflicts on developing countries and the strategies of wealthy countries especially the United States to control oil rich regions Energy demand is on a strong upward trend The reality of the environmental damage caused by fossil fuels cannot be doubted What are likely to be the human consequences changing disease vectors unprecedented flooding mass migration And what is to be done both in the wealthy countries where consumerism drives increasing growth in demand and in developing countries aiming to grow their economies faster Are alternative energy sources a panacea Or will the much vaunted hydrogen economy still be based on oil natural gas and coal Here is a book that addresses what is perhaps the most pervasive and destabilizing of the issues facing humanity

**The Hidden History of 9/11** Paul Zarembka, 2011-01-04 How much insider trading occurred in the days leading up to 9 11 How compromised is the evidence against alleged hijackers Why were there no military interceptions To what extent does the testimony of more than five hundred firefighters differ from official reports of what happened at the World Trade Center buildings that day How inseparably connected are Western covert operations to al Qaeda How is Islamophobia used to sustain US imperialism What was the 9 11 Commission With contributions from Nafeez Mosaddeq Ahmed Four Arrows David Ray Griffin Jay Kolar David MacGregor Diana Ralph Kevin Ryan and Bryan Sacks this path breaking work examines 9 11 and its background showing how much remains unknown and where further investigation and debate is needed

Central Asia's Second Chance Martha Brill Olcott, 2010-03-01 A leading authority on Central Asia offers a sweeping review of the region's path from independence to the post 9 11 world The first decade of Central Asian independence was disappointing for those who envisioned a straightforward transition from Soviet republics to independent states with market economies and democratic political systems Leaders excused political failures by pointing to security risks including the presence of terrorist training camps in Afghanistan The situation changed dramatically after 9 11 when the

camps were largely destroyed and the United States introduced a military presence More importantly the international community engaged with these states to give them a second chance to address social and economic problems But neither the aid givers nor the recipients were willing to approach problems in new ways Now terrorists groups are once again making their presence felt and some states may be becoming global security risks This book explores how the region squandered its second chance and what might happen next **Daring and Caution in Turkish Strategic Culture** M. Mufti, 2009-10-23

Mufti argues that Turkey's security policy is dominated by an insular and risk averse Republican strategic culture paradigm that this paradigm has fallen into crisis bringing some of its core elements in conflict with others and that this crisis has permitted the reassertion of a more cosmopolitan and risk taking Imperial counter paradigm Rand Review, 1998

Strategic Developments in Eurasia After 11 September Shireen Hunter, 2004-02-19 Presenting the views of leading experts on strategic considerations in Eurasia this volume shows that the 11 September attacks and subsequent developments have affected the way in which international relations are evaluated In addition these developments have turned the concept of asymmetric threats including large scale international terrorist
