Nato The Dynamics Of Alliance In The Postwar World:

NATO Edwin H. Fedder,1973-02 **Nato: the Dynamics of Alliance in the Postwar World, by Edwin H. Fedder**
Edwin H. Fedder,1973 **North Atlantic Treaty Organization** Phil Williams,2024-11-01 This volume consists of major books written in the English language on NATO as well as an extensive listing of journal articles that deal with various aspects of the Alliance All the major debates that have taken place over the last forty years are discussed *American Alliance Policy in the Middle East, 1945-1992* John P. Miglietta,2002-01-01 American Alliance Policy in the Middle East provides a stimulating new look at a U S Cold War foreign policy gripped by anticommunist paranoia Through case studies of America s relationships with Iran Israel and Saudi Arabia John P Miglietta reveals how an overriding fear of global communism led to the overcommitment of U S security resources to the region The perceived need to preserve Middle East stability rendered U S policy ineffectual and unresponsive to changing local conditions drastically altering the patron client paradigm to the detriment of American strategic interests This superb analysis of American foreign policymaking illustrates how Cold War anticommunist ideology prevented the evolution of traditional military alliances into broader based relationships and perpetuated authoritarian regimes that mired the Middle East in a cycle of poverty and despotism

Section-by-section Analysis of the Proposed Act Concerning Compensation for Oil Pollution Damage, H.R. 4394 United States. Department of State,1973 *After the Cold War* Arthur I. Cyr,2000-08 The end of the Cold War provides challenges and opportunities for American foreign policy leadership that arguably have been equalled in modern times only by the period in which the Cold War began To Restore Harmony: New Efforts in Transatlantic Cooperation, Washington: 1973 Benjamin S. Rosenthal,Donald MacKay Fraser,1973 **Atlantis Lost** Sebastian Reyn,2010 Summary Contents Part 1 Seperate worlds different visions Chapter One From the Atlantic to the Urals De Gaulle s European Europe and the United States as the ally of ultimate recourse Chapter Two The Atlantic Community in American foreign policy An ambiguous approach to the Cold War alliance Part II Dealing with De Gaulle Chapter Three Organizing the West Eisenhower Kennedy and de Gaulle s Tripartite memorandum proposal 1958 1962 Chapter Four Of Arms and Men Kennedy De Gaulle and military strategic reform 1961 1962 Chapter Five Whose kind of Europe Kennedy s tug of war with de Gaulle about the Common Market 1961 1962 Chapter Six The Clash Kennedy and de Gaulle s Rejection of the Atlantic Partnership 1962 1963 Chapter Seven The demise of the last Atlantic project LBJ and De Gaulle s attack on the multilateral force 1963 1965 Chapter Eight De Gaulle throws down the gauntlet LBJ and the crisis in NATO 1965 1967 Chapter Nine Grand Designs Go Bankrupt Conclusions **To Restore Harmony: New Efforts in Transatlantic Cooperation Washington: 1973** United States. Congress. House Foreign Affairs Committee,1973 **After Bipolarity** Fred Chernoff,2025-10-01 The demise of the Soviet threat has compelled the United States and Europe to reassess how they deal with each other and with the rest of the world For the past forty five years NATO has been the centerpiece of U S European security relations but some analysts now argue

that the alliance can no longer survive Should NATO states continue to rely on the NATO alliance for security Several theories have been advanced to help answer this question Nevertheless After Bipolarity defends the argument that none of them neorealism neoliberal institutionalism or cybernetic theory is an entirely convincing account of past relations among NATO states and proposes a new theory based on disparate elements of these earlier theories The author builds his case on twenty one instances where alliance cooperation was sought from the Suez crisis to Operation Desert Storm representing a variety of issue areas arms deployments arms control out of area operations and alliance doctrine Much of the data for the case studies comes from interviews with government and alliance officials and sheds considerable new light on certain key alliance decisions After Bipolarity makes use of a variety of methods to test the key variables Boolean algebra in particular is used to illuminate the author s theory which contends that there is no unique set of necessary and sufficient conditions for cooperation but that there are alternate sets of conditions that may produce cooperative behavior It is noteworthy that threat perception a variable emphasized in widely accepted realist and neorealist theories does not perform as well as other less popular variables in explaining cooperation Chernoff concludes that without a commonly perceived threat continued trans Atlantic cooperation will be possible but will require a more diligent management of intra alliance relations Fred Chernoff is Associate Professor of Political Science Colgate University

Copyright Office,1975 *1974 Annual Supplement* Joan Schmitz Bergholt,2013-12-21 **The End of Diversity?** Kozo Yamamura,Wolfgang Streeck,2018-05-31 After the devastation of World War II Germany and Japan built national capitalist institutions that were remarkably successful in terms of national reconstruction and international competitiveness Yet both miracles have since faltered allowing U S capital and its institutional forms to establish global dominance National varieties of capitalism are now under intense pressure to converge to the U S model Kozo Yamamura and Wolfgang Streeck have gathered an international group of authors to examine the likelihood of convergence to determine whether the global forces of Anglo American capitalism will give rise to a single homogeneous capitalist system The chapters in this volume approach this question from five directions international integration technological innovation labor relations and production systems financial regimes and corporate governance and domestic politics In their introduction Yamamura and Streeck summarize the crises of performance and confidence that have beset German and Japanese capitalism and revived the question of competitive convergence The editors ask whether the two countries confronted with the political and economic exigencies of technological revolution and economic internationalization must abandon their distinctive institutions and the competitive advantages these have yielded in the past or whether they can adapt and retain such institutions thereby preserving the social cohesion and economic competitiveness of their societies *New Civil-Military Relations* John P. Lovell,2018-04-17 This book provides a conceptual understanding of civil military relations a revised framework which accommodates complex and dynamic features of modern political life focusing on successful adjustments to post Vietnam

realities on the part of the Department of Defense DOD *Small-State Security in the Balkans* Aurel Braun, 1983-06-18

American National Security Cecil V. Crabb (Jr.), Kevin V. Mulcahy, 1991 This book should be of interest to supplementary text in political science courses **Charting a New Diplomatic Course** Cecil V. Crabb, Jr., Leila S. Saredidine, Glenn J. Antizzo, 2001-08-01 America's victory in the Cold War is a milestone in the nation's diplomatic experience The disintegration of the Soviet Union and the defeat of communism have made containment policy the foundation of U S foreign relations for almost a half century obsolete and policymakers and political scientists alike struggle to decide what new strategy should guide the country's involvement on the international stage In this pathbreaking work Cecil V Crabb Jr Leila E Saredidine and Glenn J Antizzo identify and analyze six distinct approaches to America's diplomatic course after the Cold War addressing perhaps the most important question of our time what should U S foreign policy be in the twenty first century First the authors examine the familiar doctrine of American isolationism and consider an alternative approach conservative neo isolationism which encourages policymakers to use careful discrimination but decisive action in assuming commitments abroad Liberal neo isolationism a third possible course resists active interventionist strategies because of the dangers they pose to congressional power and America's democratic system At the opposite end of the spectrum are conservative interventionism the belief that America must maintain a strong military arsenal and engage in preventative diplomacy liberal interventionism the conviction that America has a responsibility to actively promote the cause of democracy and defend human rights beyond its own borders and pragmatic interventionism an approach taken by the Clinton Administration that relies on a cost benefit analysis of policy as problems arise Elegantly written and authoritatively researched *Charting a New Diplomatic Course* provides a much needed frame of reference for anyone interested in America's future in international affairs **Allies in Adversity** Gilbert M. Khadiagala, 1994 Exploring the fundamental issue of how small state alliances can contribute to conflict resolution and structural transformations in their regional neighborhoods this study looks at Africa's Frontline States Angola Botswana Mozambique Tanzania Zambia and Zimbabwe to assess their role in southern African security since the 1970s Annotation copyright by Book News Inc Portland OR *Why NATO Endures* Wallace J. Thies, 2009-06-22 *Why NATO Endures* examines military alliances and their role in international relations developing two themes The first is that the Atlantic Alliance also known as NATO has become something very different from virtually all pre 1939 alliances and many contemporary alliances The members of early alliances frequently feared their allies as much if not more than their enemies viewing them as temporary accomplices and future rivals In contrast NATO members were almost all democracies that encouraged each other to grow stronger The book's second theme is that NATO as an alliance of democracies has developed hidden strengths that have allowed it to endure for roughly 60 years unlike most other alliances which often broke apart within a few years Democracies can and do disagree with one another but they do not fear each other They also need the approval of other democracies as they conduct their foreign policies These traits constitute built in

self healing tendencies which is why NATO endures
