**NATO's Anxious Birth** André de Staercke, Nicholas Sherwen, 1985 , **The U.s.-canada Security Relationship** David G Haglund, Joel J Sokolsky, 2019-07-09 This book focuses on the critical issues shaping the bilateral defense relationship of the U S and Canada including the future of ballistic missile defense the increased deployment of air and sea launched cruise missiles and the growing debate within Canada over security relations with the US **A Companion to Dwight D. Eisenhower** Chester J. Pach, 2017-04-07 A Companion to Dwight D Eisenhower brings new depth to the historiography of this significant and complex figure providing a comprehensive and up to date depiction of both the man and era Thoughtfully incorporates new and significant literature on Dwight D Eisenhower Thoroughly examines both the Eisenhower era and the man himself broadening the historical scope by which Eisenhower is understood and interpreted Presents a complete picture of Eisenhower s many roles in historical context the individual general president politician and citizen This Companion is the ideal starting point for anyone researching America during the Eisenhower years and an invaluable guide for graduate students and advanced undergraduates in history political science and policy studies Meticulously edited by a leading authority on the Eisenhower presidency with chapters by international experts on political international social and cultural history *The Romance of History* Scott L. Bills, E. Timothy Smith, 1997 A collection of articles and essays reflecting the varied professional interests of diplomatic historian Lawrence Kaplan Drawn largely from Kaplan s former students now scholars in their own right there are also contributions from senior colleagues **Pursuing the National Interest** Karl K. Schonberg, 2003-10-30 The history of twentieth century American foreign policy presents an indictment of classical and structural realism and systemic theories of international relations more generally Examining five crucial movements of transition in American foreign policy making before and after each of the world wars and the end of the Cold War Shonberg argues that the national interest resides mostly in the eye of the beholder and that the idiosyncratic perceptions beliefs and values of individuals are of vital importance in the policy process Thus America s recent experiences in global politics interpreted through the lens of national ideology has defined and created the ultimate shape of a new foreign policy *The North Atlantic Treaty Organization, 1948-1957* John C. Milloy, 2006-03-22 Milloy challenges the view that creating greater alliance unity has usually been only a Canadian preoccupation other members notably the United States and Britain displayed a sincere interest as well and further suggests that Canadian actions sometimes acted as an impediment He argues that the idea failed partly because the lack of an agreed upon definition for NATO s non military potential hampered focused discussion With NATO facing a post 9 11 relevancy crisis Milloy shows that there are parallels to the inter alliance struggles of the 1950s and that many of the early frustrations and obstacles are still present *Revolutionary Movements in Latin America* Cynthia McClintock, 1998 Why were El Salvador s FMLN and Peru s Shining Path able to mount such serious revolutionary challenges in the 1980s and early 1990s And why were they able to do so

despite the fact that their countries elected governments were widely considered democratic These two guerrilla groups were very different but both came close to success To explain why the author examines the complex interplay among political and economic factors the nature of the revolutionary organization and international actors McClintock emphasizes that the end of the Cold War does not mean the end of revolutionary groups and that the United States can play an important role in determining the outcome of future confrontations The book concludes with practical policy options for the U S government as it looks to foster peace and democracy in the western hemisphere

**NATO 1948** Lawrence S. Kaplan, 2007 This compelling history brings to life the watershed year of 1948 when the United States reversed its long standing position of political and military isolation from Europe and agreed to an entangling alliance with ten European nations Not since 1800 when the United States ended its alliance with France had the nation made such a commitment The historic North Atlantic Treaty was signed on April 4 1949 but the often contentious negotiations stretched throughout the preceding year Lawrence S Kaplan the leading historian of NATO traces the tortuous and dramatic process which struggled to reconcile the conflicting concerns on the part of the future partners Although the allies could agree on the need to cope with the threat of Soviet led Communism and on the vital importance of an American association with a unified Europe they differed over the means of achieving these ends The United States had to contend with domestic isolationist suspicions of Old World intentions the military's worries about over extension of the nation's resources and the apparent incompatibility of the projected treaty with the UN charter For their part Europeans had to be convinced that American demands to abandon their traditions would provide the sense of security that economic and political recovery from World War II required Kaplan brings to life the colorful diplomats and politicians arrayed on both sides of the debate The end result was a remarkably durable treaty and alliance that has linked the fortunes of America and Europe for over fifty years Despite differences that have persisted and occasionally flared over the past fifty years NATO continues to bind America and Europe in the twenty first century Kaplan's detailed and lively account draws on a wealth of primary sources newspapers memoirs and diplomatic documents to illuminate how the United States came to assume international obligations it had scrupulously avoided for the previous 150 years

**Escott Reid** Greg Donaghy, Stéphane Roussel, 2004-11-16 With contributions from some of Canada's leading historians and political scientists Escott Reid Diplomat and Scholar offers a fresh perspective on the life and career of one of the most important public intellectuals and diplomats in twentieth century Canada critically exploring the tensions between Reid's progressive idealism and the world in which he lived Jack Granatstein introduces Reid and the forces that shaped his progressive idealism in the 1920s and 1930s Hector Mackenzie assesses Reid's contribution to the creation of the United Nations in the mid 1940s while David Haglund and Stéphane Roussel examine Reid's crucial role in the negotiations to establish the North Atlantic Treaty Organization Greg Donaghy Bruce Muirhead and Alyson King write respectively about Reid as high commissioner to India as an important influence on World Bank policy in the early 1960s and finally as founding

principal of York University's Glendon College The authors challenge critics who dismiss Reid as an impractical and ineffectual idealist demonstrating that his approach to policy making was sophisticated and his idealism tempered by an astute grasp of the competing interests of a range of national and bureaucratic powers Reid's reflections on Canada's place in the world remain as relevant and provocative today as when he wrote them **Turkey - Anglo-American Security**

**Interests, 1945-1952** Ekavi Athanassopoulou, 2013-02-01 This book aims to enhance our understanding of how American presence came to become consolidated through NATO in the eastern Mediterranean in the early cold war period by examining how American and British security considerations toward the region evolved between 1947 and 1952 and the impact Turkey's pressure had on American and British security thinking Great Power Peace and American Primacy J. Baron, 2014-01-21 This book explains the period of great power peace in the last fifty years and outlines the path to perpetuating it Drawing on the Realist tradition and challenging conventional wisdom about the causes of American primacy Baron explores contributions to peace made by the balance of power nuclear weapons democracy and globalization

*Oliver Franks and the Truman Administration* Michael F. Hopkins, 2004-11-23 Sir Oliver Franks served as British Ambassador to the US between 1948 and 1952 This analysis reveals a great deal about the condition of relations between Britain and America the mechanics of co operation and the impact of a singular individual on international relations

*Arguing about Alliances* Paul Poast, 2019-11-15 Why do some attempts to conclude alliance treaties end in failure From the inability of European powers to form an alliance that would stop Hitler in the 1930s to the present inability of Ukraine to join NATO states frequently attempt but fail to form alliance treaties In *Arguing about Alliances* Paul Poast sheds new light on the purpose of alliance treaties by recognizing that such treaties come from negotiations and that negotiations can end in failure In a book that bridges Stephen Walt's *Origins of Alliance* and Glenn Snyder's *Alliance Politics* two classic works on alliances Poast identifies two conditions that result in non agreement major incompatibilities in the internal war plans of the participants and attractive alternatives to a negotiated agreement for various parties to the negotiations As a result *Arguing about Alliances* focuses on a group of states largely ignored by scholars states that have attempted to form alliance treaties but failed Poast suggests that to explain the outcomes of negotiations specifically how they can end without agreement we must pay particular attention to the wartime planning and coordinating functions of alliance treaties Through his exploration of the outcomes of negotiations from European alliance negotiations between 1815 and 1945 Poast offers a typology of alliance treaty negotiations and establishes what conditions are most likely to stymie the attempt to formalize recognition of common national interests *Britain, Italy and the Origins of the Cold War* E. Pedaliu, 2003-10-23 Effie G H Pedaliu analyzes the British Labour government's contribution to the postwar reconstruction of Italy The book focuses on five areas the punishment of war criminality the reconstruction of the Italian armed forces the Italian elections of April 1948 and Italy's institutional role in western security arrangements and on European integrative bodies It reveals that British policy towards

Italy was underpinned not only by power politics but also by moral and ideological considerations NATO's Anxious Birth André de Staercke, 1985 16 essays om NATO's oprettelse **Churchill, Eden and Indo-China, 1951-1955** Nông Văn Dân, 2010-06-15 Churchill Eden and Indo China 1951 1955 offers a systematic approach to pertinent international politics providing a historiography and assessing the impact of events such as the Cold War and the Second World War within the context of the governments of Churchill and Eden Revisiting Churchill's wartime helmsmanship in order to shed further light on his post war administration Nông Văn Dân provides a greater historical awareness of the broad international context of decolonized Indo China and South East Asia **British Military Planning for the Defence of Germany 1945-50** Paul Cornish, 1996-03-14 Using recently released archive material British Military Planning for the Defence of Germany 1945 50 reassesses Britain's strategy for the defence of Germany up to the outbreak of the Korean War Convinced of the capabilities of strategic air power with atomic weapons and convinced that the defence of the Middle East should be the first call on British planning Britain's military chiefs made a series of token gestures designed to boost French morale and consistently refused to make a genuine continental commitment of operational troops *Churchill, Eden and Indo-China, 1951-1955* Nông Văn Dân, 2011-10 Churchill Eden and Indo China 1951 1955 offers a systematic approach to pertinent international politics providing a historiography and assessing the impact of events such as the Cold War and the Second World War within the context of the governments of Churchill and Eden Revisiting Churchill's wartime helmsmanship in order to shed further light on his post war administration Nông Văn Dân provides a greater historical awareness of the broad international context of decolonized Indo China and South East Asia **Churchill Cold War Warrior** Anthony Tucker-Jones, 2024-09-30 In Churchill Cold War Warrior renowned military historian Anthony Tucker Jones reassesses Winston Churchill's neglected postwar career He explains how in an unguarded moment Winston inadvertently sowed the seeds for the Cold War by granting Stalin control of Eastern Europe Famously Churchill at Fulton then warned of the growing danger created by this partition of the continent Winston after the Second World War wanted to prove a point Shunned by the electorate in 1945 instead of retiring he was determined to be Prime Minister for a second time Biding his time he watched in dismay as Britain scuttled from India and Palestine and weathered the East West confrontation over Berlin He finally got his way in 1951 and took the reins of a country with drastically waning powers Churchill was confronted by a world in turmoil with an escalating Cold War that had gone hot in Korea and an unraveling British Empire Communism and nationalism proved a heady cocktail that fanned the flames of widespread conflict He had to contain rebellions in Kenya and Malaya while clinging on in Egypt Desperately he also sought to avoid a Third World War and the use of nuclear weapons by reuniting the Big Three
