between the sciences of representation and the strategy of landscape valorisation The topic is connected to the theme of the
image of the city which is extended to the territory scale and applied to case studies in Italy's Umbria region where the goal
is to strike a dynamic balance between cultural heritage and nature The studies demonstrate how landscape represents an
interpretive process of finding meaning a product of the relationships between mankind and the places in which it lives The
work proceeds from the assumption that it is possible to describe these connections between environment territory and
landscape by applying the Vitruvian triad composed of Firmitas solidity Utilitas utility and Venustas beauty The environment
the sum of the conditions that influence all life represents the place's solidity because it guarantees its survival In turn
territory is connected to utility and through its etymological meaning is linked to possession to a domain while landscape as
an area perceived by people expresses the search for beauty in a given place the process of critically interpreting a vision

L'opportunità dell'innovazione Claudia Cassatella, Enrica Dall'Ara, Maristella Storti, 2007 Da non molti anni il dibattito sui
temi paesistici ha imboccato una svolta dalle preoccupazioni conservative e vincolistiche alla ricerca di metodologie d
intervento e norme attive che consentano lo sviluppo del territorio compatibile con il mutare delle esigenze collettive Ci
basato sul riconoscimento della natura intrinsecamente dinamica del paesaggio inteso nella sua materialità ma anche nel suo
essere al tempo stesso un costrutto sociale La svolta sancita dalla Convenzione Europea del Paesaggio che ammette tra gli
obiettivi delle politiche del paesaggio anche la creazione di nuovi paesaggi per soddisfare le aspirazioni della popolazione
interessata Questo volume si concentra sull'indagine delle condizioni del contesto che rendono più o meno opportuna l
innovazione Essa valutata in quanto atteggiamento progettuale non si fa quindi distinzione tra azione progettuale e azione
pianificatoria nei confronti delle regole date dall'esistente il riconoscimento sociale del loro valore detta il grado di libertà dell
intervento Talvolta la regola l'oggetto stesso del progetto ossia l'intervento richiesto proprio per conservare valorizzare un
paesaggio considerato di eccezionale valore il caso ad esempio dei paesaggi protetti In altri casi si tratta di realizzare
progetti con obiettivi di natura diversa ma rispettando le regole del contesto paesistico frequente che il paesaggio non
presenti un solo univoco e leggibile sistema di regole ma una stratificazione talvolta incompleta frammentaria o conflittuale il
progetto può allora tentare una ricucitura e da questo meccanismo far scaturire il suo valore aggiunto Esistono anche casi in
cui la regola troppo debole per sostenere una ripresa o banale insomma la si giudica sacrificabile di fronte all'introduzione di
un nuovo sistema di valori Nel complesso i saggi raccolti esplorano occasioni di progetto di paesaggio dalla pianificazione all
arte dei giardini individuando l'opportunità dell'innovazione tra la consapevolezza delle regole e l'intenzionale affermazione ed

Il pensiero critico fra geografia e scienza del territorio Roberta Cevasco, Carlo Alberto Gemignani, Daniela Poli, Luisa Rossi, 2021 Massimo Quaini 1941 2017 stato uno dei protagonisti della geografia Un gruppo di studiosi gli dedica questo libro per continuare a dipanare nel labirinto del mondo il filo delle sue riflessioni che hanno collocato la geografia tra le scienze del territorio per farne oggetto di impegno civile Il suo pensiero critico transdisciplinare non ha mai riconosciuto confini ma solo feconde differenze di prospettiva la sua pi alta eredit sta forse in questo impulso a integrare competenze diverse di storici poeti archeologi ecologi pianificatori per rimettere in valore i luoghi del mondo Questo non quindi il classico libro in memoria sui temi di Quaini ma oseremmo dire un libro con Quaini Managing Natural and Cultural Heritage for a Durable Tourism Anna Trono, Valentina

Castronuovo, Petros Kosmas, 2024-04-28 This contributed volume offers a wealth of cases that explore the factors and conditions required for heritage tourism to be economically and socially beneficial to local communities without impairing the natural environment cultural heritage preservation or sustainability for future generations The studies presented here comprise an examination of measures which have been and can be implemented to ensure sustainable use of natural and cultural systems leading to a new concept of tourism that incorporates science and community practices together to create a favorable environment where tourists and locals can experience meaningful interactions and experiences The book focuses on the role of stakeholders in the development of a new policy regarding the sustainable management of cultural tourism and the possibility of their involvement in the processes governing policy making Emphasis is placed on the role and commitment of local and international authorities including UNESCO in preserving the world s endangered cultural and natural heritage as well as the responsibilities of Member States and public and private actors with respect to future conservation challenges
