Reintroduction of Top-Order Predators Matt W. Hayward, Michael Somers, 2009-04-13 Large predators are among the most threatened species on the planet and ways of conserving them in the face of increasing human populations and associated resource requirements are becoming critical This book draws upon the experiences of some of the world's foremost large carnivore specialists to discuss the numerous issues associated reintroducing large predators back into their natural habitats Reviews of internationally renowned reintroduction programs for wolves European lynx and African wild dog reveal the successes and failures of these actions Experts on tigers snow leopards and jaguars contend that there are other conservation options of higher priority that will ensure their security in the long term Other experts discuss more theoretical aspects such as whether we know enough about these species to be able to predict their behavioural or ecological response to the reintroduction process Social economic political and genetic considerations are also addressed Entomology and Pest Management Larry P. Pedigo, Marlin E. Rice, 2014-12-22 Pedigo and Rice expertly combine basic and applied entomology in this reader friendly pedagogically rich text Assuming only a background in elementary biology the authors present the

major elements of general entomology before moving on to concepts in insect biology and ecology necessary for understanding insect pest management Both theory and practice are emphasized as readers explore pertinent topics The authors discuss pest management issues both preventive and curative as aspects of applied ecology with solutions considering environmental quality profitability and durability Insect diagnostic boxes with detailed information on distribution importance appearance and life cycles of particular species and groups appear throughout the text Readers will come away with a comprehensive introduction to applied sustainable pest management appropriate for whatever commodities they must handle Agricultural Libraries Information Notes ,1986 *Longman Companion to the First World War* Colin Nicolson,2014-07-15 This new Companion covers one of the most devastating conflicts in modern history The Great War traumatised a generation and shaped the whole of the twentieth century Speaking as loudly as any first hand account the facts and figures laid out in this volume reveal the sheer massive destruction caused by the war Covering all aspects of the conflict from its origins and course to the peace settlements and the crises they generated Colin Nicolson unravels historical controversies and also considers the social cultural and economic consequences of the war for the whole of Europe Containing all the essential facts and figures this Companion will be greatly welcomed by teachers academics and students alike **The Publishers' Circular and Booksellers' Record** ,1928 **Enemies of Mankind** Walter Rech,2013-06-27 In *Enemies of Mankind* Walter Rech offers a contextual history of the collective security doctrine articulated by Swiss international lawyer Emer de Vattel 1714 67 in the authoritative treatise *Droit des gens* of 1758 With reference to Vattel s writings and to early modern international history and legal thought more generally Rech explores the meanings and functions of the enemy of mankind concept and its ramifications for collective security This account complicates the canonical portrayal of Vattel as an advocate of state sovereignty and a critic of law enforcement in the international society thus reappraising his place in the history of international law First [-Second] Report from the Committee of Secrecy, to Whom the Several Papers Referred to in His Majesty's Message of the 12th of May, 1794 ...
