Cortes, MARRIAGE AND FAMILY LIFE FOR GRADE 10 THE AGE OF AWAKENING The book series is all about education in human sexuality based on the nourishment and cultivation of the natural gift of a person's character. The series is based on the premise that SEXUALITY EDUCATION is basically CHARACTER EDUCATION which in turn is founded on human dignity and encompasses formation in moral standards and human conduct hence covering the key elements of life and love and everything in between. Comprising an introductory volume for parents and teachers, a volume for classroom use of teachers, a volume for parents and eight volumes for Grades 5 to 12 respectively, this current volume is specifically addressed to Grade 6 pupils about 16 to 17 year olds in their late adolescence. It talks about MARRIAGE AND FAMILY LIFE, the crucial need to know oneself little by little but well, what marriage is and is not, what responsible parenthood truly is and the source of genuine fulfillment in family life. Marriage and family life are the end goal of the education of most people except for those who decide to remain single for higher ends. Until the day of the wedding, the script of life has as its happy ending the shaping of a home exuding with love, life and everything in between. The book series is characterized by sound perennial concepts and by teaching and learning tools geared towards the age group being addressed. **Humanae Vitae, 50 Years Later** Theresa Notare, 2019-06-28 In the life of the Catholic Church, the papal encyclical *Humanae vitae* represents a deepening of understanding regarding the nature of married love and the transmission of life. Despite fifty years (1968-2018) since its promulgation, many Catholics have yet to discover the treasure of these rich teachings. This volume therefore seeks to elucidate the encyclical's reaffirmation of the divine plan. It does this in a unique way by providing essays from experts of various disciplines that include history, theology, science, medicine, law and governmental policy. The occasion of the fiftieth anniversary of *Humanae vitae* offers a teaching moment. In this compendium, experts representing a variety of disciplines including history, culture, theology, medicine, law and psychology present their reflections upon God's divine plan as described in *Humanae vitae*. The authors first presented this work in an abbreviated form at a symposium held at The Catholic University of America April 4-6, 2018. Here their presentations are substantively developed and hopefully will encourage further scholarly work. Ultimately, their purpose is to help the reader arrive at a more positive understanding of the teachings found in *Humanae vitae*. Although designed for the educated reader, the essays presume that when the teachings of *Humanae vitae* are embraced by men and women, they can contribute to the healing of the wounds of a world broken by sin but redeemed by Christ. *The Naturally Frugal Baby* Peggy Wilson, 2011-03-01 These are tough economic times and having a baby seems like an unaffordable luxury to many people. But it doesn't have to be. This book provides a crash course in superfrugal baby care, starting before conception and continuing through the baby's first year. You can make birth house feed, diaper, clothe, entertain and transport a baby for a mere fraction of what the experts say it all will cost, save thousands of dollars and have fun at the same time. I wrote this book to be the reference that I wish I'd had before I started having children. It starts with basic financial planning for aspiring parents and straightforward how-to instructions for frugal baby

care and keeps right on going into black belt frugality topics and some of the more controversial issues of modern parenting I've read the studies and done the math and in this book I tell you what I've learned At the end there is a long list of helpful print and online references for further reading
