The Spirit's Tether Mary Ellen Konieczny, 2013-07-01 Cultural conflicts about the family including those surrounding women's social roles abortion same sex marriage and contraception have intensified over the last few decades among Catholics as well as among Americans generally In fact they are the source of much of the political polarization we see But how do individuals in local settings and cultures especially religious ones experience and participate in these conflicts Why are they so resonant By exploring how religion and family life are intertwined in local parish settings Mary Ellen Konieczny seeks to explain how and why Catholics are divided about the family The Spirit's Tether presents a detailed comparative ethnographic analysis of the families and local religious cultures in two Catholic parishes one conservative and one progressive Through an examination of the activities of parish life and the faith stories of parishioners this book reveals how parishes support and shape the ways in which Catholics work out the routines of marriage childrearing and work family balance as well as how they connect these everyday challenges to public politics Local parishes Konieczny argues promote polarization through practices that unintentionally fragment the Catholic tradition **Abortion and Divorce Law in**

Ireland Jennifer E. Spreng, 2015-03-12 In 1991 the people of Ireland elected Mary Robinson a women's rights crusader who supported legalized birth control and divorce as their president The country seemed poised for massive social and legal change but it became apparent that even though Ireland at the dawn of the 21st century would be very different from the Ireland of the past many fundamentals would remain the same This book examines Irish abortion and divorce law in their historical religious and cultural contexts Its main focus is on the well publicized referenda and court cases of the 1980s and 1990s with special attention given to their roots and potential long term effects on the communitarian Irish culture and

opportunities for Irish women The author identifies and discusses three forces that have affected Irish law and mores especially those relating to abortion and divorce economic insecurity a sense of group loyalty and identification particularly within families and churches and Catholic teaching about the common good Transformative Power in Motherwork Marie Porter,2021-02-03 This book explores the experiences of a group of Australian women who became first time mothers between 1950 and 1965 A grounded theory of transformative power in motherwork is presented that has emerged from the analysis of interviews The mothers talked about what they did in their active mothering years The author argues that despite being constrained by the gender bias in the patriarchal context these mothers were agents who developed skills that enabled them to resist or creatively deal with most of the constraints they faced Their emphasis was on their agency and the power to nurture their children into responsible adults Their awareness of the importance of their motherwork acted as a motivator in this development The author further argues that the relationship between each mother and each of her children is a transformative power relationship in which both mother and child are transformed the child into an independent adult and the mother into a skilled self motivated agent through her motherwork Any threat to this process resulted in the mother doing all she could to resist or counteract the constraints she was encountering Transformative power expressed in motherwork can be recognised analytically by several characteristics It empowers both parties in the mother child duality Complexity diversity fluidity and responsiveness to the physical intellectual and emotional aspects of the relationship are all evident in transformative power relationships Federal Register ,2003-06-19 The New No-Pill No-Risk Birth Control Nona Aguilar,2002-06-07 Surveys various forms of birth control tells women how to chart their fertility and discusses the menstrual period conception abstinence and natural family planning **The Routledge Handbook of Sexuality in East Central Europe** Agnieszka Kościńska,Anita Kurimay,Kateřina Liřková,Hadley Z. Pruss,2012-05-15 This important philosophical reflection on love and sexuality from a broadly Christian perspective is aimed at philosophers theologians and educated Christian readers Alexander R Pruss focuses on foundational questions on the nature of romantic love and on controversial questions in sexual ethics on the basis of the fundamental idea that romantic love pursues union of two persons as one body One Body begins with an account inspired by St Thomas Aquinas of the general nature of love as constituted by components of goodwill appreciation and unitiveness Different forms of love such as parental collegial filial friendly fraternal or romantic Pruss argues differ primarily not in terms of goodwill or appreciation but in terms of the kind of union that is sought Pruss examines romantic love as distinguished from other kinds of love by a focus on a particular kind of union a deep union as one body achieved through the joint biological striving of the sort involved in reproduction Taking the account of the union that romantic love seeks as a foundation the book considers the nature of marriage and applies its account to controversial ethical questions such as the connection between love sex and commitment and the moral issues involving contraception same sex activity and reproductive technology With philosophical rigor and sophistication Pruss provides carefully argued answers to controversial questions in Christian sexual ethics *The Global Family Planning Revolution* Warren C. Robinson,John A.

Ross, 2007 The striking upsurge in population growth rates in developing countries at the close of World War II gained force during the next decade From the 1950s to the 1970s scholars and advocacy groups publicized the trend and drew troubling conclusions about its economic and ecological implications Private educational and philanthropic organizations government and international organizations joined in the struggle to reduce fertility Three decades later this movement has seen changes beyond anyone's most optimistic dreams and global demographic stabilization is expected in this century The Global Family Planning Revolution preserves the remarkable record of this success Its editors and authors offer more than a historical record They discuss important lessons for current and future initiatives of the international community Some programs succeeded while others initially failed and the analyses provide valuable guidance for emerging health related policy objectives and responses to global challenges
