Brown, 2017-01-31 In eighteenth century England the encounter between humans and other animals took a singular turn with the discovery of the great apes and the rise of bourgeois pet keeping These historical changes created a new cultural and intellectual context for the understanding and representation of animal kind and the nonhuman animal has thus played a significant role in imaginative literature from that period to the present day In *Homeless Dogs and Melancholy Apes* Laura Brown shows how the literary works of the eighteenth century use animal kind to bring abstract philosophical ontological and metaphysical questions into the realm of everyday experience affording a uniquely flexible perspective on difference hierarchy intimacy diversity and transcendence Writers of this first age of the rise of the animal in the modern literary imagination used their nonhuman characters from the lapdogs of Alexander Pope and his contemporaries to the ill mannered monkey of Frances Burney's *Evelina* or the ape like Yahoos of Jonathan Swift to explore questions of human identity and self definition human love and the experience of intimacy and human diversity and the boundaries of convention Later literary works continued to use imaginary animals to question human conventions of form and thought Brown pursues this engagement with animal kind into the nineteenth century through works by Mary Shelley Charles Dickens and Elizabeth Barrett Browning and into the twentieth with a concluding account of Paul Auster's dog novel *Timbuktu* Auster's work suggests that today as in the eighteenth century imagining other animals opens up a potential for dissonance that creates distinctive opportunities for human creativity

Darwin's Sacred Cause Adrian Desmond, James Moore, 2014-11-11 An arresting and deeply personal portrait that confronts the touchy subject of Darwin and race head on *The New York Times Book Review* It's difficult to overstate the profound risk Charles Darwin took in publishing his theory of evolution How and why would a quiet respectable gentleman a pillar of his parish produce one of the most radical ideas in the history of human thought Drawing on a wealth of manuscripts family letters diaries and even ships logs Adrian Desmond and James Moore have restored the moral missing link to the story of Charles Darwin's historic achievement Nineteenth century apologists for slavery argued that blacks and whites had originated as separate species with whites created superior Darwin however believed that the races belonged to the same human family Slavery was therefore a sin and abolishing it became Darwin's sacred cause His theory of evolution gave a common ancestor not only to all races but to all biological life This masterful book restores the missing moral core of Darwin's evolutionary universe providing a completely new account of how he came to his shattering theories about human origins *Publishers Weekly* starred review It will revolutionize your view of the great naturalist An illuminating new book *Smithsonian Compelling* Desmond and Moore aptly describe Darwin's interaction with some of the thorniest social and political issues of the day *Wired* This exciting book is sure to create a stir Janet Browne Aramont Professor of the History of Science Harvard
