Pregnant Moments:

Our Daily Moments Nancy Kuykendall, 2018-02-28 *Our Daily Moments* is about daily moments and experiences that occur and how they affect us. A short but poignant experience can happen very quickly. These experiences can change us in an instant. We humans are emotional beings. Even the most stable and disciplined among us can be knocked off balance. Our emotions and attitudes can be altered in just seconds. We are all susceptible to the many life experiences that enter our day. We are affected consciously or subconsciously. Every moment of time is part of our life. All that we call good or bad can be used by God to teach us and to know him more. God wastes nothing.

Pregnant Bodies from Shakespeare to Ford Katarzyna Burzyńska, 2022-03-24 This book explores how the pregnant body is portrayed, perceived and enacted in Shakespeare's and his contemporaries' drama by means of a phenomenological analysis and a recourse to early modern popular medical discourse on reproduction. Phenomenology of pregnancy is a fairly new and radical body of philosophy that questions the post-Cartesian chasm of an almost autonomous reason and an enclosed and self-sufficient male body as foundations of identity. Early modern drama, as is argued, was written and staged at the backdrop of revolutionary changes in medicine and science where old and new theories on the embodied self clashed. In this world where more and more men were expected to steadily grow isolated from their bodies, the pregnant body constituted an embattled contradiction. Indebted to the theories of embodiment, this book offers a meticulous and detailed investigation of a plethora of pregnant characters and their pregnant embodiment in the pre-modern works by Shakespeare, Middleton, Webster and Ford. The analysis in each chapter argues for an indivisible link between an intensely embodied experience of pregnancy as enacted in space and identity-shaping processes resulting in a more acute sense of selfhood and agency. Despite seemingly disparate experiences of the selected heroines and the repeated attempts at containment of their unruly bodies, the ever-transforming and spatial pregnant identities remain loci of embodied selfhood and agency. This book provocatively argues that fictional characters' experience reflects tangible realities of early modern women while often deflecting the scientific consensus on reproduction in the period.

A Philosophy of Luxury Lambert Wiesing, 2019-06-14 In this thought-provoking book, Lambert Wiesing asks simply: What is luxury? Drawing on a fascinating range of examples, he argues that luxury is an aesthetic experience. Unlike experience gained via the senses such as seeing, hearing or tasting, he argues that luxury is achieved by possessing something, an aspect of philosophy that has been largely neglected. As such, luxury becomes a gesture of individual defiance and a refusal to conform to social expectations of restraint. An increasingly rational and goal-oriented ethos in society makes the appeal of luxury grow even stronger. Drawing on the ideas of philosophers such as Immanuel Kant, Friedrich Schiller, Martin Heidegger and the novelist Ernst Jünger, as well as sociologists such as Thorstein Veblen and Theodor Adorno, *A Philosophy of Luxury* will be of great interest to those in philosophy, art, cultural studies and literature as well as sociology.

A textbook for a pregnant woman. Everything you need to know when carrying a child. O. Nashchubskiy, There is nothing more magical in this

world than the moment when life begins its new story This is the moment when a small miracle awakens in the arms of mother and father and the whole world reveals its miracles in new colors Like the pages of a magic book the life of a pregnant woman is filled with mysteries and surprises Every moment is a chapter every movement is an art and the beating of a small heart is a magic that cannot be described in words This book is the key to this magical book of life She invites you on a journey full of mystery and wonder into a world where the smallest touches become the most important This is a journey into the world of motherhood and fatherhood where every day is a new chapter every minute is an encounter with magic Here you will find stories about how dreams and hopes are born about how love and happiness are born This book is a colorful picture of life where every color every note is part of this magical symphony Let's open the first page of this magical book together and go on an incredible journey where every moment is filled with the magic of a New Life In this world where every step leads to a new beginning and every beginning carries with it the eternal circle of life conceiving a child is one of the most magical and mysterious moments It is like a quiet whisper of nature a promise of new life gently emerging in the secret depths of existence This act of creating new life is the moment when love transcends the visible and becomes a force that can change the world Conceiving a child is not just a biological process it is an act of love and hope This is the moment when two hearts work together to create a miracle giving the world a new soul This is the beginning of a journey full of excitement joy sometimes fear and uncertainty but always full of love And then comes the moment of birth a solemn and magical event when new life meets the light for the first time This is the moment when time stops and the entire universe seems concentrated in this small creature that lies so helplessly in the arms of its mother The birth of a child is the fulfillment of the meaning of life the embodiment of love and hope that were inherent at the moment of conception With this event comes a new responsibility responsibility for a new life for this little miracle which now depends on its parents This is a responsibility not only for the physical well being of the child but also for his emotional and spiritual development Parents become the first teachers the first mentors and the first support in this world for their child And of course with the birth of a child comes incredible love love that knows no boundaries knows no fatigue and knows no fear This is love that is stronger than anything in the world love that is capable of the greatest sacrifices and deeds This is love that stays with parents for life grows and develops with the child Conceiving and giving birth to a child are not just natural stages of life they are sacred acts full of deep meaning and grandeur They remind us of the miracle of life the power of love and how important it is to cherish every moment spent with our children This is a journey that changes us makes us better wiser and happier In a world where every breath and every step carries the invisible magic of the beginning the psychological education of a child starting from the moment of conception and especially in the first year of life is one of the most significant and subtle threads with which we adults weave the fabric of the future From the moment of conception when new life barely begins to pulsate in the womb it already absorbs the essence of the surrounding world through the senses of the mother The emotional state

thoughts sensations of the mother become the first colors with which she perhaps unknown paints the first images in the mind of her child Love calm and harmony surrounding the mother become the basis for the development of a sense of security in the child When a baby is born his psychological development takes on a new round Every touch every look every word of the parents is imprinted in the child s tender memory forming his ideas about the world about himself and about those who surround him In the first year of life when the baby cannot yet speak he actively learns to understand the world through emotions and tactile sensations This is the time when the foundation of trust in the world is laid through the warmth of hands the tenderness of hugs and the confidence that parents are always there Mom s smile dad s gentle voice their calmness and confidence are transmitted to the baby giving him a feeling of security and anticipation of good things The importance of psychological education during this period cannot be overestimated This is the time when the foundations of self esteem adaptability and first social skills are laid Parents are the first teachers and mentors through whom the child learns to understand himself and others learns to feel and express his emotions The love and attention respect and understanding that a child receives in the first year of his life become the cornerstone of his psychological health and well being for the rest of his life This is the foundation on which all his future relationships his self confidence and his ability to face difficulties will be built Thus psychological education begins long before the first word the first step it begins with the first heartbeat in the womb and continues with every moment of the first year of life It is a mysterious and majestic task to fill this world with love raising a new soul that will one day make it a better place

 If you like this book write a review *Reframing Todd Haynes* Theresa L. Geller, Julia Leyda, 2022-02-07
 For three decades award winning independent filmmaker Todd Haynes who emerged in the early 1990s as a foundational figure in New Queer Cinema has gained critical recognition for his outsider perspective
 Today Haynes is widely known for bringing women's stories to the screen
 Analyzing Haynes's films including *Safe* 1995 *Velvet Goldmine* 1998 *Far from Heaven* 2002 and *Carol* 2015 as well as his unauthorized Karen Carpenter biopic *Superstar* 1987 and the television miniseries *Mildred Pierce* 2011 the contributors to *Reframing Todd Haynes* reassess his work in light of his long standing feminist commitments and his exceptional career as a director of women's films
 They present multiple perspectives on Haynes's film and television work and on his role as an artist activist who draws on academic theorizations of gender and cinema
 The volume illustrates the influence of feminist theory on Haynes's aesthetic vision most evident in his persistent interest in the political and formal possibilities afforded by the genre of the woman's film
 The contributors contend that no consideration of Haynes's work can afford to ignore the crucial place of feminism within it
 Contributors Danielle Bouchard Nick Davis Jigna Desai Mary R Desjardins Patrick Flanery Theresa L Geller Rebecca M Gordon Jess Issacharoff Lynne Joyrich Bridget Kies Julia Leyda David E Maynard Noah A Tsika Patricia White Sharon Willis *The Original Age of Anxiety* Lasse Horne Kjaeldgaard, 2021-09-27
 Why was anxiety such a major issue for Søren Kierkegaard and his contemporaries
 This book revisits the original age of anxiety the time and place where Kierkegaard's ground breaking thoughts on anxiety were formed
 The pseudonym used by Kierkegaard in *The Concept of Anxiety* 1844 Vigilius Haufniensis is Latin for the watchman of Copenhagen
 A guiding question is what the vigilant Haufniensis might have observed in his city and especially in the literary culture of his time and day
 Exploring freedom in many forms Kierkegaard and his contemporaries found combinations of fear and desire that have later been considered symptomatic of modernity *Marginalized Reproduction* Lorraine Culley, Nicky Hudson, Floor van Rooij, 2012
 This groundbreaking volume is the first to highlight the ways in which diverse ethnic cultural and religious identities affect understanding of technological solutions for infertility and associated treatment experiences
 The collection begins with a consideration of some of the key methodological challenges for social research on ethnicity and infertility
 The book introduces and examines concepts of infertility such as the bio medical definition and discusses the companion concept of ethnicity analyzing the shortcomings of simple assessments of ethnicity common in the health literature
 It also discusses the relationship between the ethnic identity of both researcher and the researched and outlines some of the major issues which

can arise in engaging minority ethnic populations in research studies on sensitive topics Making Sense Ralf Hertel, 2021-07-26 Fiction is fascinating All it provides us with is black letters on white pages yet while we read we do not have the impression that we are merely perceiving abstract characters Instead we see the protagonists before our inner eye and hear their voices Descriptions of sumptuous meals make our mouths water we feel physically repelled by depictions of violence or are aroused by the erotic details of sexual conquests We submerge ourselves in the fictional world that no longer stays on the paper but comes to life in our imagination Reading turns into an out of the body experience or rather an in another body experience for we perceive the portrayed world not only through the protagonist s eyes but also through his ears nose tongue and skin In other words we move through the literary text as if through a virtual reality How does literature achieve this trick How does it turn mere letters into vividly experienced worlds This study argues that techniques of sensuous writing contribute decisively to bringing the text to life in the reader s imagination In detailed interpretations of British novels of the 1980s and 1990s by writers such as John Berger John Banville Salman Rushdie Jeanette Winterson or J M Coetzee it uncovers literary strategies for turning the sensuous experience into words and for conveying it to the reader demonstrating how we make sense in and of literature Both readers interested in the contemporary novel and in the sensuousness of the reading experience will profit from this innovative study that not only analyses the interest of contemporary authors in the senses but also pin points literary entry points for the sensuous force of reading **No Power**

Without an Image Libby Saxton, 2020-09-25 The first detailed study of what filmic images can tell us about iconic photographs No Power Without an Image reveals the multifaceted connections between seven celebrated photographs of political struggles taken between 1936 and 1968 and cinema in all its forms Moving from the paper cinema of magazines via newsreels and film journals to documentary fiction and experimental films this fascinating book draws on original archival research and multidisciplinary icon theory to explore new ways of thinking about the confluence of still and moving images

The Biopolitics of Gesture in the Cinema of Yorgos Lanthimos Carlo Comanducci, 2024-12-03 This book establishes a dialogue between Yorgos Lanthimos and Giorgio Agamben as a way of interpreting the weird roles rules and rituals that define and discipline lives in Lanthimos s early works from *Kinetta* to *The Killing of a Sacred Deer* By exploring the resonance between Lanthimos s cinema and Agamben s understanding of gesture this work wants to contribute to a theory of performative power under biopolitical and spectacular modalities of government focussing in particular on Agamben s ideas of operativity and inoperativity and on the construction and deconstruction of the white bourgeois normative and consensual formality of life In turn the role gestures play in Lanthimos s critique of patriarchy and of neoliberal forms of vulnerabilisation is used to question Agamben s unspoken affinities with contemporary radical feminism and queer theory

Towards a Film Theory from Below Jiri Anger,2024-05-30 Operating between film theory media philosophy archival practice and audiovisual research Jiri Anger focuses on the relationship between figuration and materiality in early films experimental found footage cinema and video essays Would it be possible to do film theory from below through the perspective of moving image objects of their multifarious details and facets however marginal unintentional or aleatory they might be Could we treat scratches stains and shakes in archival footage as speculatively and aesthetically generative features Do these material actors have the capacity to create weird shapes within the figurative image that decenter distort and transform the existing conceptual and methodological frameworks Building on his theoretical as well as practical experience with the recently digitized corpus of the first Czech films created by Jan Kr eneck between 1898 and 1911 the author demonstrates how technological defects and accidents in archival films shape their aesthetic function and our understanding of the materiality of film in the digital age The specific clashes between the figurative and material spheres are understood through the concept of a crack up This term developed by Francis Scott Fitzgerald and theoretically reimagined by Gilles Deleuze allows us to capture the convoluted relationship between figuration and
