Psychic Surgeon:

Psychic Surgery Tom Valentine, 1975 **Psychic Healing** John Weldon, Zola Levitt, 2013-02-13 You might expect this book to ridicule the whole idea of psychic healing surgery without anesthesia instantly closed wounds and other bizarre phenomena relating to this occult science Rather than labeling psychic healing quackery or trickery or cheap magic the authors verify the fact that psychic healing is very real and the ramifications are horrifying Normal people cannot heal psychically Only occultists can In genuine psychic healing demonic energy is employed Eyewitness accounts of weird operations dematerializing flesh and other mind boggling evidences abound in this text More than just one of the strangest and most disturbing books you may ever read this is a carefully researched heavily documented expos of an alarming otherworld practice **The Physics of the Paranormal** Kenneth W. Behrendt, 2003-01-24 The Physics of the Paranormal is one of the few books in existence that actually explores in depth the physical mechanisms that may be in operation when various paranormal events occur In order to provide these revolutionary insights the author applied several concepts derived from his lifelong research into UFO propulsion and secondary effects The application of these new physical principles to the paranormal reveals a fascinating unity in the mechanism in operation behind such apparently diverse phenomena as mental photography psychokinesis the Geller effects bodily transfigurations and miracle cures Based on some of the authors own experiences with telepathy the book also explores this phenomenon as well as its role in the process of reincarnation This book is not a compendium of case histories It focuses on selected cases and seeks to provide the serious student of the subject with a conceptual framework that will guide future paranormal research well into the twenty first century Journal of a Psychic Surgeon Paula Jackson, 2017-10-31 This is my story of an incredible transformation from Office Secretary to my Spiritual awakening as a Psychic Surgeon I share with you some of my most remarkable experiences through my connection with Spirit the Psychic Surgeons Psychic Surgery and a healing path I never knew was open to me I have been on my spiritual path for just six years since 2011 Paula Jackson *Pseudoscience and the Paranormal* Terence Hines, 2010-09-30 Television the movies and computer games fill the minds of their viewers with a daily staple of fantasy from tales of UFO landings haunted houses and communication with the dead to claims of miraculous cures by gifted healers or breakthrough treatments by means of fringe medicine The paranormal is so ubiquitous in one form of entertainment or another that many people easily lose sight of the distinction between the real and the imaginary or they never learn to make the distinction in the first place In this thorough review of pseudoscience and the paranormal in contemporary life psychologist Terence Hines teaches readers how to carefully evaluate all such claims in terms of scientific evidence Hines devotes separate chapters to psychics life after death parapsychology astrology UFOs ancient astronauts cosmic collisions and the Bermuda Triangle faith healing and more New to this second edition are extended sections on psychoanalysis and pseudopsychologies especially recovered memory therapy satanic ritual abuse facilitated communication and other questionable psychotherapies There are

also new chapters on alternative medicine which is now marketed in our drug stores and on environmental pseudoscience with special emphasis on the evidence that certain technologies like cell phones or environmental agents like asbestos cause cancer Finally Hines discusses the psychological causes for belief in the paranormal despite overwhelming evidence to the contrary This valuable highly interesting and completely accessible analysis critiques the whole range of current paranormal claims
