Cultural Factors Define Implementation Strategies Stanley Remple, 2025-07-03 Strong business leadership built on a value based foundation has the power to drive profit while improving the lives of business leaders employees and even those in the community But a business leadership model must also reflect cultural context which is why author Stanley Remple argues that a cookie cutter individualistic Western approach doesn't serve the needs of Chinese business leaders Enter Leadership Wisdom for Businesses in China a powerful four book series that examines value based business leadership specifically within the Chinese cultural and social environment and offers a framework to promote individual and collective potential while creating a successful and competitive business In Book Four Cultural Factors Define Implementation Strategies Remple delves deeper into the historic and cultural influences that led to the Western business leadership model

why China's unique historic and cultural influences have created a need for its own business leadership strategy and how this can be further developed. Factors explored include how the influence of Confucius, Daoism, and Buddhism, Sun Yat-sen, and the Communist Party have impacted business leadership practice in China to prioritize collective interests and the opportunities this presents. The book concludes with culturally supportable strategies for value-based leadership to ensure business success. Much more than a theoretical overview of business leadership, this series offers a roadmap and solid tools for developing both self-leadership and business leadership within a whole company. Supported by a Chinese project team consisting of researchers, educators, writers, and editors, business leaders, and other stakeholders, this culturally relevant series has been written for both new and experienced business leaders and entrepreneurs, leadership consultants and trainers, and post-secondary leadership programs in China. However, stakeholders in the West will also find great value in this comprehensive exploration of value-based leadership. The other volumes in the Leadership Wisdom for Businesses in China series are Book One: I Confronting the Business Leadership Crisis, Book Two: Developing a Value-Based Business, Book Three: Values Guide Decision Making for Results. A Mandarin version will soon be available from a Chinese Publisher. Also available in Mandarin.

Remorse Michael Proeve, Steven Tudor, 2016-04-08 Remorse is a powerful important and yet academically neglected emotion This book one of the very few extended examinations of remorse draws on psychology law and philosophy to present a unique interdisciplinary study of this intriguing emotion The psychological chapters examine the fundamental nature of remorse its interpersonal effects and its relationship with regret guilt and shame A practical focus is also provided in an examination of the place of remorse in psychotherapeutic interventions with criminal offenders The book s jurisprudential chapters explore the problem of how offender remorse is proved in court and the contentious issues concerning the effect that remorse and its absence should have on sentencing criminal offenders The legal and psychological perspectives are then interwoven in a discussion of the role of remorse in restorative justice In *Remorse Psychological and Jurisprudential Perspectives* Proeve and Tudor bring together insights of neighbouring disciplines to advance our understanding of remorse It will be of interest to theoreticians in psychology law and philosophy and will be of benefit to practising psychologists and lawyers

Serene Urbanism Phillip James Tabb,2016-09-13 Serenity is becoming alarmingly absent from our daily existence especially within the urban context Time is dense and space is tumultuous The idea of the serene has gained currency in postmodern discussions and when combined with urbanism conjures questions even contradictions as the two ideas seem improbable yet their correspondence seems so inherently desirable Integrated these two constructs present design challenges as they manifest in differing ways across the rural urban transect In response Part I of this book establishes the theoretical framework through different contemporary perspectives and concludes with a clear explanation of a theory of serene urbanism The positive characteristics of urbanism and beneficial qualities of the serene are explored and related to sustainability biophilia placemaking and environmental design Both principles and examples are presented as compelling portraits for the proposal of these new urban landscapes Part II of the work is an in depth exploration and analysis of serene urban ideas related to the intentional community being created outside of Atlanta Georgia USA Serenbe is the name given to this place to commemorate the value and nuance between the serene

and urban Society and Medicine Renée Claire Fox, Carla M. Messikomer, Judith Pound Swazey, Allen Glicksman, 2003
 The essays in this volume pay tribute to the achievements of Rene C Fox in the fields of medicine and sociology. Many of the contributors are Fox's colleagues and former students from medicine, sociology, nursing, and bioethics. The title *Society and Medicine* reflects the leitmotif in Fox's work: her studies of and teaching about the nature of medicine and medical research, the training and work of their practitioners, the interrelationships between medicine and the societies and cultures of which it is a part, and above all, the moral and spiritual dimensions of the healing arts.

The Fiction of Ruth Rendell Barbara Fass Leavy, 2012-08-31
 A study of the role of family in ancient Greek narratives and the psychological theories of Freud and Jung in the mystery novels of Ruth Rendell. Aside from Ruth Rendell's brilliance as a fiction writer and her appeal to mystery lovers, her books portray a compelling universal experience that her readers can immediately relate to: the intra-familial stresses generated by the nuclear family. Even those who experience the joys as well as pains of family life will find in Rendell the conflicts that beset all who must navigate their way through the conflicts that beset members of the closest families. Barbara Fass Leavy analyzes the multi-leveled treatment of these themes that contributes to Rendell's standing as a major contemporary novelist. Rendell, who also writes as Barbara Vine, draws on ancient Greek narratives and on the psychological theories of Sigmund Freud and Carl Jung, derived from them, to portray the disturbed family relationships found throughout her work. Leavy's analysis considers what distinguishes mysteries as popular entertainment from crime fiction as literary art. The potential for rereading even when the reader remembers whodunit will be the basis for this distinction. Leavy also looks closely at the Oedipus and Electra complexes and how they illuminate Rendell's portrayals of the different pairings within the nuclear family, for example, mother and daughter, and considers the importance of gender differences. In addition, Leavy corrects a widespread error that Freud formulated the Electra complex when in fact the formulation was Jung's, as he challenged Freud's emphasis on the Oedipus story as the essential paradigm for human psychological development.
