**The Word is Worth a Thousand Pictures** Gregory Edward Reynolds, 2001-04-20

**Manufacturing Desire** Arthur Asa Berger, 2017-07-12 The average person in America watches four hours of television per day and spends the equivalent of nine years of his or her life in front of the television set If the attention most people devote to popular culture listening to the news watching soap operas reading the comics were added up it would reveal that most people spend an enormous amount of time with popular culture which becomes in large measure their culture Manufacturing Desire is a study of how the mass media broadcast or spread various popular arts further how the media and popular arts play a major role in shaping our everyday lives The television shows we watch the movies we see the radio programs we listen to and all the comic strips we read influence social behavior They give us ideas about what is good and evil about how to solve problems and about how we should relate to others If we understand this says Berger then the way we think about our media influenced culture will be far different than if we see popular culture as mindless

entertainment Berger provides an analysis of the way popular culture and the mass media simultaneously reflect and affect various aspects of American culture and society He examines commercials television shows comics film humor and everyday life in terms of what beliefs and values are found in them what attitudes toward ourselves and our societies are contained in them how they achieve their effects and what they reflect about present day American culture and society This book is analysis of the impact mass media have across America cross culturally and internationally Manufacturing Desire will provide the general reader as well as specialists in communication and information sociology and psychology with a better understanding of the effects of mass media and popular culture on contemporary society      **Re-reading Popular Culture**

Joke Hermes,2008-04-15 Re reading Popular Culture is an entertaining investigation of the meanings and value of popular culture today It explores the theme of cultural citizenship by combining textual analysis and media reception theory to analyze popular culture Includes such contemporary issues as the rewriting of masculinity after the success of feminism and the layers of meaning in semi public and private talk of multiculturalism and ethnicity Traces its topics across a variety of media forms and texts including sports detective fiction and police series and children's television and games Clearly and accessibly written for the student scholar and general reader      **Crossing Over**

Wilkin,1997-04-30

Noam Chomsky is among the most influential contemporary thinkers Peter Wilkin looks in particular at the philosophical basis of his social and political thought especially his ideal about power knowledge and human nature He shows how Chomsky's ideas can help to defend naturalism as in social and political thought Chomsky's critical writings of social inquiry and his normative ideas on libertarian socialism and human emancipation are interpreted as synthesising a number of important ideas and approaches at a time when these ideas have fallen out of favour      *Is Art Good for Us?* Joli Jensen,2002 Are the arts good for us This book questions our taken for granted assumptions about the transformational powers of high culture by critiquing an instrumental American heritage of beliefs about the arts Jensen argues that faith in high culture's unproven ability to transform people and society allows social critics to keep faith with the idea of a democratic society while

deploring popular culture Employing perspectives from Tocqueville and Dewey she argues that the arts are good but they don't do good Instead of expecting the arts to improve things and blaming the media for ruining them we need to recognize that it is up to us not the arts to make the world a better place

**Cracked Coverage** Jimmie Lynn Reeves, Richard Campbell, 1994 Carefully documenting the deceptions and excesses of television news coverage of the so called cocaine epidemic Cracked Coverage stands as a bold indictment of the backlash politics of the Reagan coalition and its implicit racism the mercenary outlook of the drug control establishment and the enterprising reporting of crusading journalism Blending theoretical and empirical analyses Jimmie L Reeves and Richard Campbell explore how TV news not only interprets reality in ways that reflect prevailing ideologies but is in many respects responsible for constructing that reality Their examination of the complexity of television and its role in American social cultural and political conflict is focused specifically on the ways in which American television during the Reagan years helped stage and legitimate the war on drugs one of the great moral panics of the postwar era The authors persuasively argue for example that powder cocaine in the early Reagan years was understood and treated very differently on television and by the state than was crack cocaine which was discovered by the news media in late 1985 In their critical analysis of 270 news stories broadcast between 1981 and 1988 Reeves and Campbell demonstrate a disturbing disparity between the earlier presentation of the middle and upper class white drug offender for whom therapeutic recovery was an available option and

the subsequent news treatment of the inner city black drug delinquent often described as beyond rehabilitation and subject only to intensified strategies of law and order Enlivened by provocative discussions of Nancy Reagan s antidrug activism the dramatic death of basketball star Len Bias and the myth of the crack baby the book argues that Reagan s war on drugs was at heart a political spectacle that advanced the reactionary agenda of the New and Religious Right an agenda that dismissed social problems grounded in economic devastation as individual moral problems that could simply be remedied by just saying no Wide ranging and authoritative Cracked Coverage Television News the Anti Cocaine Crusade and the Reagan Legacy is a truly interdisciplinary work that will attract readers across the humanities and social sciences in addition to students scholars journalists and policy makers interested in the media and drug related issues

Hart, 1999 These feelings have become television s distinctive currency postmodern tokens for a manifestly uncertain world Hart explores the considerable costs of this legacy for governance and urges that it be supplanted by a New Puritanism a set of community based attitudes badly needed in the nation at present
