Understanding Neoliberal Rule in Higher Education Mark Abendroth,Brad J.

Porfilio,2015-06-01 The word fundamentalism usually conjures up images of religions and their most zealous followers Much less often the word appears in connection with political economy The phrase free market gives the connotation that capitalism is freedom Neoliberalism is the rise of global free market fundamentalism It reaches into nearly every aspect of our daily lives as it seeks to dominate and eliminate the last vestiges of public domains through wanton privatization and deregulation It degrades all that is public The good news is that a global community of resistance continues to struggle against neoliberal oppression Formal and informal education entities contribute to these struggles offering visions and strategies for creating a better future The purpose of this volume is twofold Several contributors will highlight how the neoliberal agenda is impacting educational policy formation teaching and learning and relationships between institutions of higher education and communities Other contributors will highlight how the global community has gradually become conscious of the ideological doctrine and how it is responsible for human suffering and misery The volume is needed because the growing body of educational research linked to exploring the impact of neoliberalism on education and society fails to provide conceptual or historical understanding of this ideology It is also an important scholarly intervention because it provides insights as to why educators scholars and other global citizens have challenged the intrusion of market forces over life inside universities and colleges Teaching faculty research faculty and anyone who yearns to understand what is behind the debilitating trend of commercial forces subverting humanizing educational projects would benefit from this volume Activists educators youth and scholars who seek strategies and visions for building democratic higher education and a more democratic society would consider this volume essential reading

Designing Education Policy for Sub-Saharan

African Countries Elizabeth Bifuh-Ambe,2025-01-13 Designing Education Policy for Sub Saharan African Countries is the culmination of five years of extensive research and analysis of global educational systems as they compare with the challenges and opportunities in Sub Saharan Africa with a lens on Southern Cameroons As African youths demonstrate purpose and a desire for sovereignty and self governance quality education remains critical in realizing these aspirations Drawing from over 35 years of experience as an educator on various continents Elizabeth Bifuh Ambe courageously confronts the complex interactions of education with colonialism and other systems that perpetuate inequalities within the continent She highlights the transformative power of education as a source of cultural pride and a conduit for socio economic

development that is essential if Africa must break free from historical patterns of dependency in the ongoing fight for genuine independence Student Success in the Community College Terry U. O'Banion, Marguerite M. Culp, 2020-12-15 For much of the twentieth century the definition of success for most community colleges revolved around student retention and graduation This definition no longer works if it ever did In *Student Success in the Community College What Really Works* respected community college leaders researchers and innovators argue that student success is about redesigning community colleges in a manner that is consistent with each college's mission goals student population and resources Concluding that there is no one size fits all approach to increasing student success chapter authors analyze national state and regional efforts to increase student success identify principles institutions can use to frame student success initiatives and outline specific actions community colleges can take to increase student and institutional success *Student Success in the Community College What Really Works* also provides concrete examples of effective student success initiatives in a variety of community college settings *Redesigning Educational Leadership Preparation for Equity* Michelle D. Young, Ann O'Doherty, Kathleen M.W. Cunningham, 2021-09-28 Delivering equity for PK 12 learners is an essential aim for educational leadership preparation programs This book serves as a resource for equity focused design and redesign thorough innovation improvement and impact Based on direct experience while also drawing from innovative exemplars and unpacking a decade of program improvement practice this book explores how to foster partnerships and pipelines recruit and select candidates map the curriculum develop powerful learning experiences create field experiences design program evaluation and support faculty learning Chapters open with a vignette that presents scenarios in which many faculty members find themselves particularly when programs are in need of improvement Drawing on years of experience facilitating redesign the authors offer both processes and resources to assist faculty including diagnostic tools sample agendas templates guiding questions and suggested protocols Whether facing new accreditation requirements state program approval changes institutional redesign challenges or as part of a grant funded redesign this book is a critical resource for educational leadership faculty and program coordinators looking to garner the appropriate resources ask the right questions and follow reliable processes in program design and continuous improvement toward equity Chapter resources and templates available for download online at <https://www.routledge.com/9780367673543> on the tab that is entitled Support Material Please also join Redesign Improve Innovate an online forum focused on preparation and practice improvement found here www.RedesignImproveInnovate.org

Resources in Education ,2000-10 *Designing the European Model* S. Honkapohja, F. Westermann, 2009-04-30 This book examines existing problems in the European economy focusing on labour markets including labour market reform and outsourcing as well as macroeconomic issues such as macroeconomic stabilization in the Euro area and convergence and divergence in economic growth in the EU *Designs for Science Literacy* American Association for the Advancement of Science, 2001-03-22 The call for science curriculum reform has been made over and over again for much of the twentieth

century Arguments have been made that the content of the curriculum is not appropriate for meeting the individual and social needs of people living in the modern world that the curriculum has become overstuffed with topics and does not serve students especially well and above all that the curriculum does not generate the student learning it is expected to produce The latest volume in a continuing series of publications from the AAAS designed to reform science education Designs for Science Literacy presupposes that curriculum reform must be considerably more extensive and fundamental than the tinkering with individual courses and subjects that has been going on for decades Designs deals with the critical issues involved in assembling sound instructional materials into a new coherent K 12 whole The book pays special attention to the need to link science oriented studies to the arts and humanities and also proposes how to align the curriculum with an established set of learning goals while preserving the American tradition of local responsibility for the curriculum itself If fundamental curriculum reform is ever to occur a new process for creating alternatives will have to be developed Designs for Science Literacy provides the groundwork for such a process
