Flory, 2006-06-22 When the first edition of David Madden's A Primer of the Novel For Readers and Writers was published more than twenty five years ago there were no other books of its kind available Since then many authors and editors have produced works that attempt the same comprehensive coverage of the genre However these works tend to be either written solely for writers or solely for readers More often than not those written for readers tend to be aimed at advanced students or critics of the novel In this revised edition David Madden Charles Bane and Sean Flory have produced an updated work that is intended for a general readership including writers teachers and students who are just being introduced to the genre This unique handbook provides a definition and history of the novel a description of early narratives and a discussion of critical approaches to this literary form A Primer of the Novel also identifies terms definitions commentary and examples in the form of quotations for almost 50 types of novels and 15 artistic techniques A chronology of narrative in general and of the novel in particular from 850 B C to the present is also included along with indexes to authors titles novel types and techniques as well as a selective bibliography of criticism Although all novel types present in the first edition are still represented many have become more clearly defined This revised edition also cites several types of novels that did not appear in the first edition such as the graphic novel and the novel of Magical Realism As well as keeping all of the original examples from representative texts the authors have added new examples of more recent works While this book was conceived for a general audience it will be a valuable resource for students teachers and libraries It may be used in any English literature courses at any level including graduate and is suited for creative writing courses as well With its clear and immediately accessible features this handbo

Old Masters Worldwide Susanna Avery-Quash, Barbara Pezzini, 2020-10-15 As a result of the Napoleonic wars vast

numbers of Old Master paintings were released on to the market from public and private collections across continental Europe. The knock on effect was the growth of the market for Old Masters from the 1790s up to the early 1930s when the Great Depression put an end to its expansion. This book explores the global movement of Old Master paintings and investigates some of the changes in the art market that took place as a result of this new interest. Arguably the most important phenomenon was the diminishing of the traditional figure of the art agent and the rise of more visible increasingly professional dealerships firms such as Colnaghi and Agnew s in Britain Goupil in France and Knoedler in the USA came into existence. Old Masters Worldwide explores the ways in which the pioneering practices of such businesses contributed to shape a changing market.

Lost Legion Rediscovered Donald O'Reilly, 2014-07-19 In AD383 according to Bishop Eucherius of Lyon flooding caused part of the bank of the River Rhone to collapse revealing a massed grave of thousands of bodies. Eucherius identified these as a legion recruited for the Roman army from the Christians of the Theban district in Egypt whom he claimed had been massacred nearly a century previously near the modern village of St Maurice en Valais in southwestern Switzerland for refusing to obey orders they considered immoral. This incident asserted by Eucherius as matter of fact is unrecorded elsewhere. Even the existence of this Theban legion is unclear.

Genres Rediscovered Anna Maria Wasył, 2011 A reader of the *epyllion* by Dracontius the elegy by Maximianus and the epigram by Luxorius should not expect that these works and these new embodiments of the old genres will be wholly identical with their archetypes. Were it so it would mean that we read but second rate versifiers indeed. We may expect rather that thanks to the reading of Dracontius's *epyllion* Maximianus's elegy and Luxorius's epigram our understanding of these very genres may become fuller and deeper than if it was narrowed only to the study of the classical phase of the Roman literature. Therefore I have decided to employ in the title of my book the expression genres rediscovered. I have found it fair to emphasize that the poets whose works have been studied here merit appreciation for their creativity and indeed courage in reusing and reinterpreting the classical and truly classic literary heritage. In addition I have found it similarly fair to stress that for the students of Latin literature the borderline between the classical and the post classical is and should be flexible. It is not my intention of course to imply that aesthetic and poetological differences should be ignored or blurred. Quite the reverse these differences are profound and multidimensional and as such must be properly understood and explained. The main issue is the fact that studies of Latin literature or rather of literature in general and especially generic studies require a proper i.e. diachronic perspective. A description of a certain genre based merely on its most important or generally known representative representatives will always risk becoming incomplete and limited. In genology one must be utterly prudent in defining the main and the marginal the relevant and the negligible. In this sense an insight into a few genres practiced by some classical and classic Roman poets from the perspective of their post classical followers may be also for a genologist an intriguing rediscovery.

Southern Writers Joseph M. Flora, Amber Vogel, 2006-06-21 This new edition of Southern Writers assumes its distinguished

predecessor's place as the essential reference on literary artists of the American South. Broadly expanded and thoroughly revised, it boasts 604 entries, nearly double the earlier edition's, written by 264 scholars. For every figure, major and minor, from the venerable and canonical to the fresh and innovative, a biographical sketch and chronological list of published works provide comprehensive, concise, up-to-date information. Here, in one convenient source, are the South's novelists and short story writers, poets and dramatists, memoirists and essayists, journalists, scholars, and biographers from the colonial period to the twenty-first century. What constitutes a southern writer is always a matter for debate. Editors Joseph M. Flora and Amber Vogel have used a generous definition that turns on having a significant connection to the region in either a personal or literary sense. New to this volume are younger writers who have emerged in the quarter century since the dictionary's original publication, as well as older talents previously unknown or unacknowledged. For almost every writer found in the previous edition, a new biography has been commissioned. Drawn from the very best minds on southern literature and covering the full spectrum of its practitioners, *Southern Writers* is an indispensable reference book for anyone intrigued by the subject.

Seneca the Elder and His Rediscovered ›Historiae ab initio bellorum civilium‹ Maria Chiara Scappaticcio, 2020-06-08. The refreshed insights into early imperial Roman historiography this book offers are linked to a recent discovery. In the spring of 2014, the binders of the archive of Robert Marichal were dusted off by the ERC-funded project PLATINUM (ERC StG 2014 n. 636983) in response to Tiziano Dorandi's recollections of a series of unpublished notes on Latin texts on papyrus. Among these was an in-progress edition of the Latin rolls from Herculaneum, together with Marichal's intuition that one of them had to be ascribed to a certain Annaeus Seneca. PLATINUM followed the unpublished intuition by Robert Marichal as one path of investigation in its own research and work. Working on the Latin P Herc 1067 led to confirm Marichal's intuitions and to go beyond it. P Herc 1067 is the only extant direct witness to Seneca the Elder's *Historiae*. Bringing a new and important chapter of Latin literature arising out of a charred papyrus is significant. The present volume is made up of two complementary sections, each of which contains seven contributions. They are in close dialogue with each other, as looking at the same literary matter from several points of view yields undeniable advantages and represents an innovative and fruitful step in Latin literary criticism. These two sections express the two different but interlinked axes along which the contributions were developed. On one side, the focus is on the starting point of the debate, namely the discovery of the papyrus roll transmitting the *Historiae* of Seneca the Elder, and how such a discovery can be integrated with prior knowledge about this historiographical work. On the other side, there is a broader view on early imperial Roman historiography to which the new perspectives opened by the rediscovery of Seneca the Elder's *Historiae* greatly contribute.
