AIDS and Adolescents Lorraine Sherr, 2022-12-29 Originally published in 1997 Aids and Adolescents provided an insight into a wide range of adolescent issues which were rarely compiled in one volume at the time Much of the HIV epidemic response had been at the individual level in the hope that this narrow focus would provide the key to containment and resolution of spread However over the ten years since the epidemic had taken hold it was clear that paradigms were limited input was uncritical and large cohorts were overlooked In this text a series of contributions have been compiled to explore adolescent issues ranging from sexual behaviour and health education campaigns to HIV prevention and HIV AIDS care The chapters begin by giving an overview of adolescent problems such as homelessness pregnancy and gender and explore why these problems are so often overlooked We then move on to an examination of the facts and fictions associated with adolescent risk challenging some of the basic current notions underpinning approaches to the subject at the time Also included are particular focused studies of Australian adolescents beliefs about HIV and STDs and also the American adolescents perceptions of drug injection Finally the volume gives a focused view of those with HIV infection with a review of findings of the time neuropsychological and psychological factors This overview provided some comments on merging issues and future directions Today it can be read in its historical context

Mothers, Warriors, Guardians of the Soul Geraldine Theresa Horan, 2012-08-09 This study shows that women involved in National Socialism in the years 1924 1934 developed and shaped a recognizable discourse which communicated and reflected their position and status within the NS movement The analysis is based on a variety of text types produced by members of NS women s organisations and includes official correspondence circulars reports pamphlets monographs and articles from NS women s journals It draws upon several areas of linguistic theory including feminist linguistics semantics pragmatics and discourse analysis and the salient features identified in the female discourse are placed within a sociolinguistic framework While previous research into the language of the NS system has largely ignored the possibility of a cohesive female discourse the study supports the idea

that this discourse was dynamic and at times heterogeneous whilst also displaying many self defining and self referential features It is characterised by its ambiguities and apparent contradictions which expresses separateness and difference yet also solidarity with the NSDAP *White Men Aren't* Thomas DiPiero,2002-09-09 A critical psychoanalytic account of white masculinity which argues that it is incorrect to naturalize the power of masculinity and offers an alternative account

Seidler,2013-04-16 Analysing the events surrounding the death of Diana Princess of Wales in 1997 Vic Seidler considers the public outpourings of grief and displays of emotion which prompted new kinds of identification and belonging in which communities came together regardless of race class gender and sexuality Recreating Sexual Politics (Routledge Revivals)

Victor Seidler,2009-12-15 This thought provoking book first published in 1991 examines sexual politics in a world which is being radically changed by the challenges of feminism Seidler explores how men have responded to feminism and the contradictory feelings men have towards dominant forms of masculinity Seidler s stimulating and original analysis of social and political theory connects personally to everyday issues in people s lives It reflects the growing importance of sexual and personal politics within contemporary politics and culture and demonstrates clearly the challenge that feminism brings to our inherited forms of morality politics and sexuality Language, Sexualities and Desires Sakis Kyratzis,2006-12-14 Sexualities are perceived constructed and represented in different ways in various languages and cultures This volume addresses how people use various linguistic features to construct their sexual identities and relationships and how membership of specific social groups based on sexual and lifestyle choices may be signalled through language *Sex and Religion* ,2023-07-31

Male Joanna Bourke,1996-05-15 Some historians contend that femininity was disrupted constructed and reconstructed during World War I but what happened to masculinity Using the evidence of letters diaries and oral histories of members of the military and of civilians as well as contemporary photographs and government propoganda *Dismembering the Male* explores the impact of the First World War on the male body Each chapter explores a different facet of the war and masculinity in depth Joanna Bourke discovers that those who were dismembered and disabled by the war were not viewed as

passive or weak like their civilian counterparts but were the focus of much government and public sentiment Those suffering from disease were viewed differently often finding themselves accused of malingering Joanna Bourke argues convincingly that military experiences led to a greater sharing of gender identities between men of different classes and ages

Dismembering the Male concludes that ultimately attempts to reconstruct a new type of masculinity failed as the threat of another war and with it the sacrifice of a new generation of men intensified **Redeeming Men** Stephen Blake Boyd,W. Merle Longwood,Mark William Muesse,1996-01-01 Contributors to this book historians biblical specialists theologians ethicists and scholars of comparative religions examine the relationship between religious tradition and manhood The essays cover a broad range of topics from the dynamics of power in shaping masculine identity to the role religion plays in shaping masculine identity to the experience of myth ritual spiritual discipline and community in the lives of men **Dangerous Sexualities** Frank Mort,2000 With Dangerous Sexualities Frank Mort takes a look at how our ideas of health and disease are linked to moral and immoral notions of sex *The Making of Heterosexualities* Vulca Fidolini,2022-11-10 Drawing on an ethnographic study on young Moroccan immigrants in Europe France and Italy this book analyses the hegemonic power of heteronormativity and its plural expressions It tries to give an answer to the following main questions How the normative power of heterosexuality is socially constructed among men How and why heterosexuality is interpreted as the socially appropriate norm to be recognised as a true man by other men Attention is focused on those people who use heteronormativity in order to produce and reproduce heterosexual identifications through performing hegemonic masculinities The objective is to deconstruct the normality of heterosexuality and the ways through which it is commonly used as a normative reference to talk about sexual life as well as to build masculinities especially within homosocial relationships An enlightening book consisting of a rich empirical material and theoretical analysis this volume will appeal to undergraduate and postgraduate students as well as postdoctoral researchers who are interested in fields such as Sociology Anthropology and Gender Studies **AIDS: Setting A Feminist Agenda** Lesley Doyal,Jennie Naidoo,Tamsin Wilton,2018-12-07 AIDS Setting a Feminist Agenda presents an overview of the important issues raised for feminist theory and practice by the HIV AIDS epidemic and outlines the direction in which feminist debates about the subject are developing It makes essential links between feminism and HIV AIDS work and not only demonstrates that AIDS is a feminist issue but also suggests areas where feminism is long overdue The essays discuss medical issues the specific social and political impact of HIV AIDS on the lives of women of colour lesbians injecting drug users and prostitute women And Current Health Educational And Health Promotional Practice As It relates to women The volume is theoretical and practical suggesting theoretical models for understanding and challenging the social factors which are conducive to the spread of HIV among women and among men as well as offering models of good practice for working with and for women Transforming Masculinities Vic Seidler,2006-03-20 Critically exploring the ways in which men and masculinities are commonly theorized

this multidisciplinary text opens up a discussion around such relationships and shows that as with feminisms there is a diversity of theoretical traditions It draws on a variety of examples and explores new directions in the complexities of diverse male identities and emotional lives across different histories cultures and traditions This book considers the experiences of different generations explores connections between masculinity and drugs investigates men and masculinities in a post 9 11 world considers new ways of thinking about male violence recognizes the importance of culture and provides spaces to explore different class race and ethnic masculinities Written in a practical versatile manner by an established author in this field it points to new directions in thinking and makes essential reading for advanced undergraduates postgraduates and researchers in the fields of sociology gender studies politics philosophy and psychology Urban Fears and Global Terrors Victor Jeleniewski Seidler, 2007-10-18 First published in 2007 Routledge is an imprint of Taylor Francis an informa company

Ways of Being Male John Stephens, 2013-10-18 Given the substantial impact of feminism on children s literature and culture during the last quarter century it comes as no surprise that gender studies have focused predominantly on issues of female representation The question of how the same patriarchal ideology structured representations of male bodies and behaviors was until very recently a marginal discussion Now that masculinity has emerged as an overt theme in children s literature and film critical consideration of the subject is timely if not long overdue *Ways of Being Male* addresses this new concern in an unprecedented collection of essays examining how contemporary debates about masculinity are reflected in fiction and film for young adults An outstanding team of scholars elucidates the ways in which different versions of male identity are constructed and presented to young audiences The contributors drawn from a variety of academic disciplines employ international discourses in literary criticism feminism social sciences film theory psychoanalytic criticism and queer theory in their wide ranging exploration of male representation With its illuminating array of perspectives this pioneering survey brings a long neglected subject into sharp focus
