Redistribution Or Recognition? Nancy Fraser, Axel Honneth, 2003 A debate between two philosophers who hold different views on the relation of redistribution to recognition **Justice of Marxism** Zhang Xiaomeng, 2023-10-11 This book analyzes Marxian theories of justice within the context of contemporary political philosophy and intellectual history Transcending perspectives from classical Marxism the author analyzes how Western Marxism has engaged with critically and responded to the theories of justice especially since the 1970s The nine chapters cover major intellectual movements and multi dimensional frameworks of thought that critique and understand anew the idea of justice including anglophone debates on Marxism and justice global distributive justice and viewpoints from analytical Marxism radical egalitarianism the Frankfurt School Marxian feminism and ecological Marxism The second part of the book returns to the classical texts of Marxism with a focus on historical materialism and a critique of capitalism to reinterpret basic tenets of justice in Marxism and to reconstruct Marxian theory of justice This title will be of value to scholars and students interested in theories of justice Marxian philosophy and political philosophy **Constructing Marxist Ethics** , 2015-02-04 Does Marxism possess an ethical impulse Is there a moral foundation that underpins the Marxist critique of capitalism and the vision for social progress The essays collected in Constructing Marxist Ethics Critique Normativity Praxis argue that there is such an ethical grounding for Marxist theory The essays each from different vantage points construct what a Marxian ethics should look like what kind of values should be at the heart of the Marxian enterprise Contributors are Dan Albanese Paul Blackledge Bob Cannon Tony Burns Ian Fraser Ruth Groff Wadood Hamad Christoph Henning Peter Hudis Lauren Langman George E McCarthy Sean Sayers Michael J Thompson and Lawrence Wilde The Politics of Misrecognition Majid Yar, 2016-02-24 The past several decades have seen the emergence of a vigorous ongoing debate about the politics of recognition The initial impetus was provided by the reflections of Charles Taylor and others about the rights to cultural recognition of historically marginalized groups in Western societies Since then the parameters of the debate have considerably broadened However while debates about the politics of recognition have yielded significant theoretical insights into recognition its logical and necessary counterpart misrecognition has been relatively neglected The Politics of Misrecognition is the most meticulous reflection to date on the importance of misrecognition for the understandings of our political and personal experience A team of leading experts from a range of disciplines including philosophy political theory sociology psychoanalysis history moral economy and criminology present different theoretical frameworks in which the politics of misrecognition may be understood They apply these frameworks to a wide variety of contexts including those of class identity disability slavery criminal victimization and domestic abuse In this way the book provides an essential resource for anyone interested in the dynamics of misrecognition and their implications for the development of political and social theory *The Oxford Handbook of Political Theory* John S Dryzek, Bonnie Honig, Anne Phillips, 2008-06-12 Oxford Handbooks of Political Science are the

essential guide to the state of political science today With engaging contributions from 51 major international scholars the Oxford Handbook of Political Theory provides the key point of reference for anyone working in political theory and beyond

Pinay on the Prairies Glenda Tibe Bonifacio,2013-11-15 For many Filipinos one word kumusta how are you is all it takes to forge a connection with a stranger anywhere in the world In Canada s Prairie provinces this connection has inspired community building and created both national and transnational identities for the women who identify as Pinay This book is the first to look beyond traditional metropolitan hubs of settlement to explore the migration of Filipino women in Alberta Manitoba and Saskatchewan Based on interviews with first generation immigrant Filipino women and temporary foreign workers this book explores how the shared experience of migration forms the basis for new identities communities transnational ties and multiple levels of belonging in Canada A groundbreaking look at the experience of Filipino women in Canada Bonifacio s work is simultaneously an investigation of

feminism migration diaspora and the rubric of multiculturalism in a global era Environmental Justice in Developing Countries Rhuks Ako,2013-08-15 The evolving environmental justice paradigm is conceptualized differently based on political economic and historical factors In developed countries emphasis is placed on the role of individuals in environmental decision making and the protection of their access to the prerequisite environmental information and capacity to challenge environmental decisions is the main focus However in developing countries access to land and natural resources are considered integral elements of environmental justice paradigm This book focuses on the conceptualization recognition and protection of environmental justice in developing countries It explores the situation by engaging an analytical discourse of relevant legal provisions in four case study countries including Nigeria South Africa India and Papua New Guinea The comparative analysis of environmental justice in these countries present a framework within which to appreciate the conceptualization of the environmental justice paradigm Perfecting Justice in Rawls, Habermas and Honneth Miriam Bankovsky,2012-02-23 In this exciting new work Miriam Bankovsky shows how the pursuit of justice requires two orientations The first is a practical commitment to the possibility of justice which is the clear starting point for the broadly constructive theories of Rawls Habermas and Honneth Indeed if justice were not possible it would be difficult to see why it is worthwhile for human beings to live on this earth However a second orientation qualifies the first It can be expressed as a deconstructive attentiveness to the impossibility of determining justice s content This impossibility results from the tension between the appeal for individual consideration and the appeal for impartiality demands that Derrida believes our historical concept of justice includes Framed by these two orientations this ambitious book explores the promise and shortcomings of the constructive theories Attentive to concrete experiences of injustice that these thinkers tend to overlook Bankovsky provocatively challenges Rawls account of civil disobedience Habermas defence of rational consensus and Honneth s ideal of mutual recognition providing new insights into deconstruction s relevance for contemporary theories of justice The Skillful Self John Stopford,2009-03-16 The Skillful Self Liberalism Culture and the Politics of Skill presents a political liberal theory of cultural participation and the goals of cultural policy in contemporary pluralistic democracies The ideal of cultural participation which many regard as central to the self conception of modern constitutional democracies is often subject to the distorting influences of state perfectionism paternalism consumerism and ideology These distortions and the problems they raise are intensified by the forces of social cultural and economic globalization Using the tools of contemporary liberal theory The Skillful Self develops an approach to the politics of culture that focuses on the concept of skill and its place in a liberal conception of the self Support for this approach is derived from the work of Nussbaum and Sen who make a conception of human capability basic to their views of public policy and the design of political institutions But the politics of skill modifies the capability approach by characterizing the central human functional capabilities as functions of the skillful self The final chapters of the book describe the competences of the skillful self elaborating a new typology of skills and explaining why

basic institutions are obliged to promote them To make the role of skill in the central capabilities explicit in this way is not to invoke the perfectionist ideal of a culture of skill but rather to focus on the structural role of skill in a nonperfectionist conception of truly human functioning and on the social conditions of individual capability viewed as a function of skill

Fortunes of Feminism Nancy Fraser,2013-10-01 Nancy Fraser s major new book traces the feminist movement s evolution since the 1970s and anticipates a new radical and egalitarian phase of feminist thought and action During the ferment of the New Left Second Wave feminism emerged as a struggle for women s liberation and took its place alongside other radical movements that were questioning core features of capitalist society But feminism s subsequent immersion in identity politics coincided with a decline in its utopian energies and the rise of neoliberalism Now foreseeing a revival in the movement Fraser argues for a reinvigorated feminist radicalism able to address the global economic crisis Feminism can be a force working in concert with other egalitarian movements in the struggle to bring the economy under democratic control while building on the visionary potential of the earlier waves of women s liberation This powerful new account is set to become a landmark of feminist thought

Undoing Work, Rethinking Community James A. Chamberlain, 2018-02-15 This revolutionary book presents a new conception of community and the struggle against capitalism In Undoing Work Rethinking Community James A Chamberlain argues that paid work and the civic duty to perform it substantially undermines freedom and justice Chamberlain believes that to seize back our time and transform our society we must abandon the deep seated view that community is constructed by work whether paid or not Chamberlain focuses on the regimes of flexibility and the unconditional basic income arguing that while both offer prospects for greater freedom and justice they also incur the risk of shoring up the work society rather than challenging it To transform the work society he shows that we must also reconfigure the place of paid work in our lives and rethink the meaning of community at a deeper level Throughout he speaks to a broad readership and his focus on freedom and social justice will interest scholars

and activists alike Chamberlain offers a range of strategies that will allow us to uncouple our deepest human values from the notion that worth is generated only through labor **Democracy and Authenticity** Howard H. Schweber, 2011-10-31 In *Democracy and Authenticity* Professor Howard Schweber examines a basic problem for liberal democracies When a political entity is characterized by a multitude of identities and values certain constraints apply to reasons for citizens and public officials to justify coercive political actions The author argues that justifications based on particular religious doctrines are not a proper basis for government actions that affect everyone He then develops a concept of public justification intended to guide citizens in a liberal democracy through the work of creating policies that satisfy their responsibilities to one another

Adding Insult to Injury Nancy Fraser, 2020-05-05 The collapse of communism the rise of identity politics and struggles over global governance have combined to create new challenges for the Left How to do justice to legitimate claims for multiculturalism and democratization without abandoning the Left's historic and still indispensable commitment to economic equality How to broaden the understanding of injustice by adding cultural and political insult to economic injury *Adding Insult to Injury* tracks the debate sparked by Nancy Fraser's controversial effort to combine redistribution recognition and representation in a new understanding of social justice The volume showcases Fraser's critical exchanges with leading thinkers including Judith Butler Richard Rorty Iris Marion Young Anne Phillips and Rainer Frost The result is a wide ranging and at times contentious exploration of varied approaches to rebuilding the Left
