Redrawing The Lines Analytic Philosophy Deconstruction And Literary Theory:

Redrawing the Lines, 1989 Jacques Derrida (Routledge Revivals) William Schultz, Lewis L.B. Fried, 2016-06-17 First published in 1992 this book represents the first major attempt to compile a bibliography of Derrida's work and scholarship about his work. It attempts to be comprehensive rather than selective, listing primary and secondary works from the year of Derrida's Master's thesis in 1954 up until 1991 and is extensively annotated. It arranges under article type a huge number of works from scholars across numerous fields, reflecting the interdisciplinary and controversial nature of Deconstruction. The substantial introduction and annotations also make this bibliography in part a critical guide and as such will make a highly useful reference tool for those studying his philosophy. **Jacques Derrida: Live Theory** James KA Smith, 2005-10-20

Jacques Derrida *Live Theory* is a new introduction to the work of this most influential of contemporary philosophers. It covers Derrida's corpus in its entirety from his earliest work in phenomenology and the philosophy of language to his most recent work in ethics, politics, and religion. It investigates Derrida's contribution to and impact upon such disciplines as philosophy, literary theory, cultural studies, aesthetics, and theology. Throughout, the key concepts that underpin Derrida's thought are thoroughly examined; in particular, the notion of the Other or alterity is employed to indicate a fundamental continuity from Derrida's earliest to his latest work. The text emphasizes the importance of understanding Derrida's philosophical heritage as the key to understanding the interdisciplinary impact of his project. In the wake of Derrida's death, the book includes an interview that interrogates the very notion of live theory as a way into the core themes of deconstruction. **Derrida,**

Kristeva, and the Dividing Line Juliana De Nooy, 2013-08-21 Both Jacques Derrida and Julia Kristeva have made an enormous impact throughout the humanities with their work on signification, identity, and difference, and yet the nature of the relation between their theories seems oddly indeterminate: they have sometimes been regarded as more or less indistinguishable and sometimes as incompatible. This book aims at establishing precisely how Kristeva's and Derrida's writings may be articulated, tracing intersections and divergences, parallels and discontinuities between them. But how do you compare two theories of the production of difference? What conception of difference do you use to go about it? Any search for a dividing line between Derrida and Kristeva already engages with their preoccupations. Should the juxtaposition of these practices be conceived as a face-to-face confrontation or rather a gap, a hiatus? Could it be a dialectic or a difference? Should it be thought of in terms of Kristeva's work or Derrida's? Accessible and lively, this book studies the theories on their own terms, in terms of one another, and with regard to the literary text, a privileged object of their attention. It demonstrates that the articulation of the theories shifts under different discursive conditions such that a Derridean reading of the relation is unlikely to coincide with a Kristevan interpretation. It shows why there is no single answer to the question of how the two fit together. And it investigates what is at stake in the strategic uses to which their work is put, whether separately or together.

Challenging Theory: Discipline After Deconstruction Catherine Burgass, 2019-01-04 First published in 1999, this volume

perceives that English literature is under threat as an academic discipline. In *Challenging Theory*, Catherine Burgess warns against the recent trend towards the conflation of literature teaching with cultural studies in British and American universities. Focusing on theory of deconstruction as developed by Jacques Derrida in the 1960s, the book redresses some common misinterpretations of Derrida's work relating to the status of metaphysical oppositions. Part One discusses textual differences and the ways in which these may dissolve and reform according to different cultural contexts. The practical issues associated with teaching literature and literary theory in universities are examined in Part Two, while Part Three highlights some of the more invidious claims of literary theorists and questions the value of metaphysical analysis as a tool for political critique. *Challenging Theory* tackles an important debate that lies at the heart of humanities teaching. It illuminates the impact on academia of the work of critical theorists over the last thirty years and provides a platform for future reassessment of the relationships between literature, philosophy and theory.

Richard Rorty Richard Rumana, 2021-12-13 Demonstrating Richard Rorty's breadth of scholarship and his influence on diverse issues across the social sciences and humanities, this comprehensive bibliography contains 1,165 citations. Theology and Difference Walter Lowe, 1993-07-22 provocative and rewarding Religious Studies Review. A tour de force Theological Studies. Theology and Difference reconceives the options confronting modern theology and investigates the disputed questions that underlie it. Pressing beyond the ready-made enlightenment offered by the subject-object framework, Walter Lowe uncovers a number of remarkable convergences between the contemporary philosopher Jacques Derrida and the early twentieth-century theologian Karl Barth.

Academe Degree Zero Jeffrey R. Di Leo, 2015-12-03 *Academe Degree Zero* brings together ten essays that identify and critically examine the key issues facing professionals in higher education today. These include the nature and limits of anonymity in academic discourse, the ways in which affiliation and prestige temper academic judgement, and the role of collegiality in academic life. Through numerous essays, edited books, and journal issues, Jeffrey R. Di Leo's cross-disciplinary work has consistently been at the edge of current thinking and critical efforts to lay bare the reality of contemporary academic life. *Academe Degree Zero* provides a snapshot of academic identity and relations in a time of major technological and economic transformation and in the context of growing corporatisation of higher education.

Composition Theory for the Postmodern Classroom Gary A. Olson, Sidney I. Dobrin, 1994-01-01 *Composition Theory for the Postmodern Classroom* is a collection of the most outstanding articles published in the *Journal of Advanced Composition* over the last decade. Together, these essays represent the breadth and strength of composition scholarship that has fruitfully engaged with critical theory in its many manifestations. In drawing on the critical discourses of philosophers, feminists, literary theorists, African Americanists, cultural theorists, and others, these compositionists have enriched discourse in the field, broadened

intellectual conceptions of the multiple roles and functions of discourse and opened up an infinite number of questions and new possibilities for composition theory and pedagogy *Derrida on Being as Presence* David A. White, 2017-04-24 Jacques Derrida's extensive early writings devoted considerable attention to being as presence the reality underlying the history of metaphysics In *Derrida on Being as Presence* Questions and Quests David A White develops the intricate conceptual structure of this notion by close exegetical readings drawn from these writings White discusses cardinal concepts in Derrida's revamping of theoretical considerations pertaining to language signification context negation iterability as these considerations depend on the structure of being as presence and also as they ground deconstructive reading White's appraisal raises questions invoking a range of problems He deploys these questions in conjunction with thematically related quests that arise given Derrida's conviction that the history of metaphysics as variations on being as presence has concealed and skewed vital elements of reality White inflects this critical apparatus concerning being as presence with texts drawn from that history e.g. by Plato Aristotle Bacon Hume Kant Whitehead The essay concludes with a speculative ensemble of provisional categories or zones of specificity Implementing these categories will ground the possibility that philosophy in general and metaphysics in particular can be pursued in ways which acknowledge the relevance of Derrida's thought when integrated with the philosophical enterprise as traditionally understood **Take Care of Freedom and Truth Will Take Care of Itself** Richard Rorty, Eduardo Mendieta, 2006 This volume collects a number of important and revealing interviews with Richard Rorty spanning more than two decades of his public intellectual commentary engagement and criticism In colloquial language Rorty discusses the relevance and nonrelevance of philosophy to American political and public life The collection also provides a candid set of insights into Rorty's political beliefs and his commitment to the labor and union traditions in this country Finally the interviews reveal Rorty to be a deeply engaged social thinker and observer The Promise of Pragmatism John P. Diggins, 1994-05-02 For much of our century pragmatism has enjoyed a charmed life holding the dominant point of view in American politics law education and social thought in general After suffering a brief eclipse in the post World War II period pragmatism has enjoyed a revival especially in literary theory and such areas as poststructuralism and deconstruction In this sweeping critique of pragmatism and neopragmatism one of our leading intellectual historians traces the attempts of thinkers from William James to Richard Rorty to find a response to the crisis of modernism John Patrick Diggins analyzes the limitations of pragmatism from a historical perspective and dares to ask whether America's one original contribution to the world of philosophy has actually fulfilled its promise In the late nineteenth century intellectuals felt themselves in the grips of a spiritual crisis This confrontation with the acids of modernity eroded older faiths and led to a sense that life would continue in the awareness of absences knowledge without truth power without authority society without spirit self without identity politics without virtue existence without purpose history without meaning In Europe Friedrich Nietzsche and Max Weber faced a world in which God was dead and society was succumbing to

structures of power and domination In America Henry Adams resigned from Harvard when he realized there were no truths to be taught and when he could only conclude Experience ceases to educate To the American philosophers of pragmatism it was experience that provided the basis on which new methods of knowing could replace older ideas of truth Diggins examines how in different ways William James Charles Peirce John Dewey George H Mead and Oliver Wendell Holmes Jr demonstrated that modernism posed no obstacle in fields such as science education religion law politics and diplomacy Diggins also examines the work of the neopragmatists Jurgen Habermas and Richard Rorty and their attempt to resolve the crisis of postmodernism Using one author to interrogate another Diggins brilliantly allows the ideas to speak to our conditions as well as theirs Did the older philosophers succeed in fulfilling the promises of pragmatism Can the neopragmatists write their way out of what they have thought themselves into And does America need philosophers to tell us that we do not need foundational truths when the Founders already told us that the Constitution would be a machine that would depend more upon the counterpoise of power than on the claims of knowledge Diggins addresses these and other essential questions in this magisterial account of twentieth century intellectual life It should be read by everyone concerned about the roots of postmodernism and its links to pragmatism and about the forms of thought and action available for confronting a world after postmodernism

The Cambridge Companion to Rorty David Rondel, 2021-04 Offers a comprehensive introduction to one of the most interesting and controversial philosophers of recent times *The Ways We Think* Emma Williams, 2016-02-16 The Ways We Think critiques predominant approaches to the development of thinking in education and seeks to offer a new account of thought informed by phenomenology post structuralism and the ordinary language philosophical traditions Presents an original account of thinking for education and explores how this alternative conception of thought might be translated into the classroom Explores connections between phenomenology post structuralism and ordinary language philosophical traditions Examines the relevance of language in accounts of how we think Investigates the philosophical accounts of Gilbert Ryle Martin Heidegger John Austin and Jacques Derrida Draws upon experience of own teaching practice as philosopher in residence *Anarchism and the Crisis of Representation* Jesse S. Cohn, 2006-09 Anarchism and the Crisis of Representation is intended to provide readers of literary criticism art history political philosophy and the social sciences with a fresh perspective from which to revisit dead end theoretical debates over concepts such as agency essentialism and realism and at the same time to offer a new take on anarchism itself challenging conventional readings of the tradition The anarchism that emerges from this reinterpretation is neither a musty rationalism nor a millenarian irrationalism but a living body of thought that points beyond the sterile antinomies of post modern and Marxist theory

BOOK JACKET Art and Intention Paisley Livingston, 2005-02-17 Do the artist s intentions have anything to do with the making and appreciation of works of art In Art and Intention Paisley Livingston develops a broad and balanced perspective on perennial disputes between intentionalists and anti intentionalists in philosophical aesthetics and critical

theory He surveys and assesses a wide range of rival assumptions about the nature of intentions and the status of intentionalist psychology With detailed reference to examples from diverse media art forms and traditions he demonstrates that insights into the multiple functions of intentions have important implications for our understanding of artistic creation and authorship the ontology of art conceptions of texts works and versions basic issues pertaining to the nature of fiction and fictional truth and the theory of art interpretation and appreciation Livingston argues that neither the inspirationist nor rationalistic conceptions can capture the blending of deliberate and intentional spontaneous and unintentional processes in the creation of art Texts works and artistic structures and performances cannot be adequately individuated in the absence of a recognition of the relevant makers intentions The distinction between complete and incomplete works receives an action theoretic analysis that makes possible an elucidation of several different senses of fragment in critical discourse Livingston develops an account of authorship contending that the recognition of intentions is in fact crucial to our understanding of diverse forms of collective art making An artist s short term intentions and long term plans and policies interact in complex ways in the emergence of an artistic oeuvre and our uptake of such attitudes makes an important difference to our appreciation of the relations between items belonging to a single life work The intentionalism Livingston advocates is however a partial one and accomodates a number of important anti intentionalist contentions Intentions are fallible and works of art like other artefacts can be put to a bewildering diversity of uses Yet some important aspects of art s meaning and value are linked to the artist s aims and activities

Between Horror and Hope Sorin Sabou, 2007-01-01 *Between Horror and Hope* is a study of Paul s metaphorical language of death in Romans 6 1 11 The scholarly debate focuses on two main issues the origin of the commentatio mortis tradition and its development Dr Sabou argues that the origin of this terminology is original to Paul that it was the apostle s own insight into the meaning of Christ s death a death to sin and his understanding of the identity of Christ in his death as the anointed davidic king which guided him to create this metaphor of dying to sin as a way of describing the relationship of the believer with sin On the development of this language of death the author argues that this language conveys two aspects horror and hope The first is discussed in the context of crucifixion in which Paul explains the believer s death to sin by presenting Christ s death as the death of the anointed davidic king who won the victory over sin and death by rising from the dead Paul affirms that believers are coalesced with what was proclaimed about Christ s death and resurrection thereby allowing him to assert that the releasing of the body from the power of sin is a result of crucifixion This crucifixion is the condemnation inflicted on our past lives in the age inaugurated by Adam s sin and this is such a horrible event that believers have to stay away from sin since sin leads to such punishment In contrast hope is presented in the context of burial The believers burial with Christ points to the fact that they are part of Christ s family and this is accomplished by the overwhelming action of God by which he pushes us toward the event of Christ s death an act pictured in baptism It is this burial with Christ that allows believers to share with Christ in newness of life
