Headley, Hans J. Hillerbrand, 2017-03-02 Confessionalization in Europe 1555 1700 brings together a closely focused set of essays by leading scholars from the USA UK and Europe in memory of Bodo Nischan They address what historians of the Early Modern period have recently come to define as the pre eminent issue in the history of the Reformation as they turn their emphases from the earlier part of the 16th century to the relatively neglected latter half of the century By the time of his death Bodo Nischan had distinguished himself as a significant contributor to this central problem of confessionalization The concept involves the practice of confession building which in relation to that of social disciplining

promoted interrelated processes contributing decisively to the formation of confessional churches greater social cohesion and the emergence of the Early Modern absolute state Many religious practices earlier considered as adiaphora indifferent matters now became treated as marks of demarcation between the emerging Protestant confessional churches and at the same time politicized as the early modern state sought to impose greater social control Through the analysis of such liturgical ritual and ceremonial practices Nischan helped show the way towards a better understanding of the Reformation s engagement with the people These are the themes treated in this volume A Tapestry of African Histories Nicholas K. Githuku,2021-10-18 In A Tapestry of African Histories With Longer Times and Wider Geopolitics contributors demonstrate that African historians are neither comfortable nor content with studying continental or global geopolitical social and economic events across the superficial divide of time as if they were disparate or disconnected Instead the chapters within the volume reevaluate African history through a geopolitically transcendent lens that brings African countries into conversation with other pertinent histories both within and outside of the continent The collection analyzes the pre and post colonial eras within African countries such as Kenya Malawi and Sudan examining major historical figures and events struggles for independence and stability contemporary urban settlements social and economic development as well as constitutional legal and human rights issues that began in the colonial era and persist to this day **Book of Lemmas** Wim van den Dungen,2016-12-16 The Book of Lemmas presents the outlines of an immanent and transcendent metaphysics The latter is introduced by a survey of epistemology in particular criticism demarcating between valid and invalid propositions and between science and metaphysics Immanent metaphysics does not move beyond the limitations of conceptual reason and is a heuristic of science The ontological principal of the proposed process ontology is the actual occasion defined by its two state vectors material efficiency and scalar finality information and consciousness Shakespeare Survey: Volume 57, Macbeth and Its Afterlife Peter Holland,2008-01-31 Shakespeare Survey is a yearbook of Shakespeare studies and production Since 1948 Survey has published the best international scholarship in English and many of its essays have become classics of Shakespeare criticism Each volume is devoted to a theme or play or group of plays each also contains a section of reviews of that year s textual and critical studies and of the year s major British performances The books are illustrated with a variety of Shakespearean images and production photographs The virtues of accessible scholarship and a keen interest in performance from Shakespeare s time to our own have characterised the journal from the start Most volumes of Survey have long been out of print Backnumbers are gradually being reissued in paperback **The Complete Book of Numbers** Steven Scott Pither,2002 Experience the power and deep meaning inherent in the spiritual science of numbers This breakthrough book will show you that numerology consists of more than just nine numbers It involves our entire mathematical system from arithmetic to modern physics and is rich in psychological insight Combining the mystery of the occult with the objectivity of science this book expands numerology far beyond any current concept of it It explains the little known history of number

symbolism and offers a step by step progression of spiritual development For those interested in the scientific mathematical basis for the occult and numerology Presents a deeper more meaningful level of Pythagorean numerology than anything available elsewhere Teaches how to do numerology and more importantly how to make the interpretations Offers a numerical interpretation of the nature of time *Cultural Encounters in India* Heike Liebau,2017-07-14 The book is an English translation of an award winning German book The history of social and religious encounter in 18th century South India is narrated through fascinating biographies and day to day lives of Indian workers in the Tranquebar Mission 1706 1845 The book challenges the notion that Christianity in colonial India was basically imposed from the outside Liebau maintains that significant contributions were made by the local converts and mission co workers who played an important role in the Tranquebar Mission Strange Parallels: Volume 1, Integration on the Mainland Victor Lieberman,2003-05-26 This ambitious work has two novel goals to overcome the extreme fragmentation of early Southeast Asian historiography and to connect Southeast Asian to world history Combining careful local research with wide ranging theory Lieberman argues that over a thousand years each of mainland Southeast Asia s great lowland corridors experienced a pattern of accelerating integration punctuated by recurrent collapse These trajectories were synchronized not only between corridors but most curiously between the mainland as a whole much of Europe and other sectors of Eurasia He describes in detail the nature of mainland consolidation which was simultaneously territorial religious ethnic and commercial and dissects the mix of endogenous and external factors responsible Here then is a fundamentally original analysis not only of Southeast Asia but of the pre modern world Translation, History and Arts Ji Meng,Atsuko Ukai,2013-07-29 Translation History and Arts New Horizons in Asian Interdisciplinary Humanities Research is a collection of selected research papers originally presented at the Todai Forum in October 2011 in Lyon France under the auspices of the University of Tokyo Japan Papers selected for inclusion in this book stand at the frontier of interdisciplinary humanities research and are concerned with translation and cross cultural studies social and art history and comparative area studies A central theme of the papers is the development of a new discursive narrative of local histories against the backdrop of world history Through case studies of historical and modern socio cultural events occurring in different regions and countries this book strives to advance our understanding of the dynamic and complex interactions among distinct social and cultural systems in world history **A Critical Dictionary of English Literature and British and American Authors** Samuel Austin Allibone,1870 **Athenaeum and Literary Chronicle** ,1859 **In the Balance** Candice Lee Goucher,1998 **Cigar Box Lithographs: Volume V** Charles J. Sino-Japanese Reflections Joshua A. Fogel, Matthew Fraleigh, 2022-05-09 Sino Japanese Reflections offers ten richly detailed case studies that examine various forms of cultural and literary interaction between Japanese and Chinese intellectuals from the late Ming to the early twentieth century. The authors consider efforts by early modern scholars on each side of the Yellow Sea to understand the language and culture of the other, to draw upon received texts and forms and to contribute to shared literary practices. Whereas literary and cultural flow within the Sinosphere is sometimes imagined to be an entirely unidirectional process of textual dissemination from China to the periphery, the contributions to this volume reveal a more complex picture highlighting how literary and cultural engagement was always an opportunity for creative adaptation and negotiation. Examining materials such as Chinese translations of Japanese vernacular poetry, Japanese engagements with Chinese supernatural stories, adaptations of Japanese historical tales into vernacular Chinese Sinitic poetry composed in Japan, and Japanese Sinology, the volume brings together recent work by literary scholars and intellectual historians of multiple generations, all of whom have a strong comparative interest in Sino-Japanese studies.
