Reflections On History And Historians:

Reflections on History and Historians Theodore S. Hamerow, 1987 History as a field of learning is in a state of crisis. It has lost much of its influence in institutions of higher learning and its place in public esteem. Historians have in large part lost touch with the intelligent lay reader and with the undergraduate college student. History's value to society is being questioned. In this work a distinguished historian views the profession to which he has been devoted for more than thirty years. Theodore S. Hamerow's learned observations will be welcomed by all historians and by those involved in the management of higher education and should be required reading for all graduate students in history. Far from being a sentimental look at the past, Hamerow's work confronts the unpleasant reality of the present. History, he says flatly, is a discipline in retreat. The profession is in serious trouble and there are no signs that its problems will be resolved in the foreseeable future. After identifying the current crisis, Hamerow proceeds to trace the development of the profession over the last hundred years and to examine its characteristics in modern society. In this section of the book he shares some fascinating practical observations on the ways in which the profession operates. Hamerow explains why some historians rise to prominence while others do not. He also examines causes of the dissatisfactions that afflict many historians and their students. Hamerow also examines the way in which academic historians live their lives as he expands on the daily realities that they face. He then explains how those realities have shaped scholarship and led to the new history. The broad use of social science methods, he observes, has had the effect of isolating the new historians from traditional historians, indeed from one another. Couched in the arcane prose of machine-readable languages, says Hamerow, history has become inaccessible to the intelligent lay reader who had once read historical works with interest, understanding, and appreciation. In concluding his examination, Hamerow asks: What is the use of history? It has long been a favorite question asked by historians but seldom one over which they agonized for very long. After considering various arguments for the usefulness of historical investigation, Hamerow offers his own justification. There are times, says Hamerow, when even the most spontaneous or instructive cultural pursuits need to be examined in the light of the purposes they serve and the goals they seek. Now might be a good time for all historians to take a long look at the direction their discipline has taken in the past century, at the functions it has come to perform, and at the serious dilemma it now faces. Hamerow is a steady and helpful guide to any such examination.

Real History Martin Bunzl, 2005-06-20 In *Real History* Martin Bunzl brilliantly succeeds in bringing together two schools of thought at the forefront of the philosophy of history that of realism and objectivity. He shows us how the realism debate is inhabited by philosophers whereas the objectivity argument lies in the hands of historians. In his lucid and direct style Bunzl proposes a synthesis between these two parallel traditions. We see that what historians say they are doing is not necessarily what they are actually doing. Bunzl draws on recent work from the likes of Foucault to Rorty to develop a new model for the philosophy of history, a model which essentially calls for the collapse of the realism/objectivity dichotomy. Martin Bunzl clearly merges the two parallel debates of history and philosophy. He draws on relevant discussions ranging from post-structuralism to the philosophy of science to notions of realism and objectivity to debates about the history of women.

A Sober Desire for History Sean R. Busick, 2005 Widely regarded as the antebellum South's foremost man of letters, William Gilmore Simms (1806-1870) wrote novels and poetry that recently have enjoyed a remarkable resurgence of interest. While scholars have previously considered Simms as primarily a poet, editor, and writer of fiction, Sean R. Busick contends that the author is more fully understood as a historian. In this fresh look at Simms and his contributions, Busick brings to light the lasting impact of the South Carolinian's efforts to comprehend American history and to preserve important pieces of the historical record. In *A Sober Desire for History*, Busick argues that Simms made five significant contributions to American historiography. Simms's achievements include his work as an archivist preserving a wealth of primary source materials that probably would not exist today if not for his efforts as a champion of accessible and well-wrought historical writing and as an advocate for what he considered democratic history: history that recognizes individuals rather than impersonal forces as the impetus for historical events. Loyalists and women traditionally neglected in the telling of American history. Finally, although Busick shows that Simms published historical romances, biographies, and a state history, he also made an important lasting contribution to the writing of American history through his support and encouragement of other historians. Busick addresses among other topics Simms's ideas on the relationship between history and fiction, his work as a biographer, his writing of the text that would be used to teach history to generations of South Carolina schoolchildren, and his controversial 1856 Northern lecture series on South Carolina's role in the American Revolution.

The Historian Behind the History Megan L. Bever, Scott A. Suarez, 2014-11-15 *The Historian Behind the History* is a collection of ten fascinating interviews with southern historians who offer insights into their individual career paths and into the work of professional historians.

Mirrors of Time William M. Whitley, 1992 [From Warm Center to Ragged Edge](#) Jon K. Lauck, 2017-06-01 During the half century after the Civil War, intellectuals and politicians assumed the Midwest to be the font and heart of American culture. Despite the persistence of strong currents of midwestern regionalism during the 1920s and 1930s, the region went into eclipse during the post-World War II era. In the apt language of Minnesota's F. Scott Fitzgerald, the Midwest slid from being the warm center of the republic

to its ragged edge This book explains the factors that triggered the demise of the Midwest's regionalist energies from anti midwestern machinations in the literary world and the inability of midwestern writers to break through the cultural politics of the era to the growing dominance of a coastal urban culture These developments paved the way for the proliferation of images of the Midwest as flyover country the Rust Belt a staid and decaying region Yet Lauck urges readers to recognize persisting and evolving forms of midwestern identity and to resist the forces that squelch the nation's interior voices

The Thinking Historian Eric W. Sager, 2025-01-27 What is history What are historians doing when we create our histories The need for answers is more urgent than ever We live in an era when history is often rejected or ignored and when all teachers of history confront formidable challenges In the culture of screen capitalism and social media historical knowledge is evaded in an expanding present minded consciousness How can history be defended and what is it that we are defending This book argues that history is a mode of thinking a form of imaginative reasoning with its own informal logic In non technical language and using examples from important works of history the book defines core elements in historical thinking These include contingency complexity temporality parts and wholes consilience perspectives analogy and abduction These elements are subsumed into the concept of imaginative reasoning The overall argument echoes the work of hermeneutic philosophers History is a disciplined imagination tempered and empowered by its forms of reasoning It embraces ethical imperatives that the historian has a duty to declare Equipped with such understanding historians may answer the many rejections of history and secure its place in our shared futures
