Reflections On Philosophy And Religion:

Reflections on Philosophy and Religion Alan Donagan, 1999-02-25 This book contains the collected papers of Alan Donagan on topics in the philosophy of religion Donagan was respected as a leading figure in American moral philosophy His untimely death in 1991 prevented him from collecting his philosophical reflections on religion particularly Christianity and its relation to ethics and other concerns This collection therefore constitutes the fullest expression of Donagan's thought on Christianity and ethics in which it is possible to discern the outlines of a coherent overarching theory Editor Anthony Perovich has supplied a useful introduction which brings Donagan's work into focus and brings out the unifying themes in the essays

Truth and Religious Belief Curtis L. Hancock, Brendan Sweetman, Randolph Feezell, 2016-09-16 This book contains a thorough and balanced series of dialogues introducing key topics in philosophy of religion such as the existence and nature of God the problem of evil religious pluralism the nature of religious experience immortality and the meaning of life A realistic cast of characters in a natural setting engages in a series of thought provoking conversations the dialogue format of these conversations captures typical student attitudes and questions concerning religious belief allows comparison of important themes throughout the dialogues encourages the interjection of insights observations questions and objections and introduces related points when they would naturally arise instead of relegating them to a later chapter As well as presenting a detailed and probing discussion each dialogue includes a list of key terms a set of study questions and a bibliography all of which make this an excellent text for courses in philosophy of religion and introductory philosophy classes

Reflections in Practical Philosophy and the Philosophy of Religion Peter Loptson, 2020-01-21 This book is the result of an extended series of musings analysis and theorizing over a period of several years Its central focus is normative philosophical topics chiefly related to ethics metaethics social and political philosophy and the philosophy of religion Although it has affinities to naturalist and Epicurean traditions it offers several distinctive and original lines of thought and argument addressing both theory and practical life In some contexts the text adopts a personal or Joycean perspective

The Christian Philosophy of Life Tilmann Pesch, 2015-07-12 Excerpt from The Christian Philosophy of Life Reflections on the Truths of Religion The author of The Christian Philosophy of Life has reached the close of his earthly pilgrimage Finita sunt omnia In nomine Patris et Filii et Spiritus Sancti Amen Such were his last words On October 18 1899 death came to end his sharp prolonged sufferings It found him an exile at Valkenburg a small town in the Netherlands and his mortal remains have been laid to rest in foreign soil but we trust that his soul is at home once more in the land where light and peace reign eternally Tilmann Pesch was born in Cologne on February 1 1836 and entered the novitiate of the Society of Jesus at Munster on October 15 1852 He was consecrated to the priesthood in January 1866 by that splendid champion of the liberty of the Church Wilhelm Emmanuel von Ketteler in the chapel of the episcopal palace at Munich and made his solemn vows at Aix la Chapelle on February 2 1871 For the space of many years he filled the post of lecturer on

philosophy first at Maria Laach and subsequently at Blijenbeck in Holland The numerous works for which we are indebted to his pen form no mean contribution to Catholic letters and attest alike his intellectual gifts and industry whilst through the medium of his spiritual writings sermons and conferences he has brought counsel and comfort to many souls Wide learning in his case was accompanied by a childlike humility and his gentle benignant spirit knew neither fear nor compromise wherever principles were at stake About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Christian Philosophy of Life Tilmann Pesch, 1909 **Reflections on the Study of Religion** Jacques Waardenburg, 2011-12-01 Since its founding by Jacques Waardenburg in 1971 Religion and Reason has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline

Hume's Reflection on Religion Miguel A. Badía Cabrera, 2012-12-06 This book presents a comprehensive interpretation of Hume's serious reflection on religion from the perspective afforded by his philosophical project and its Enlightened ends I relate his account of the origin development and significant effects of religious beliefs to his own historical works and conversely take the former as the leading thread into the disclosure of a Humean philosophy of history I also critically analyze his views about the eminently irrational and feigned character of most religious faith and its inevitable negative effect on morality Finally I examine Hume's attack on the validity of the conclusions of rational theology Reasonable support is provided for the claim that the belief in God as an intelligent author of the universe is a natural and reasonable belief This work may interest both scholars and general readers who are intrigued or troubled by religion and the issues of the utmost importance which it raises

Reflections in the Mirror of Religion Ninian Smart, 1997 The essays selected for this volume represent Professor Ninian Smart's most contemporary reflections on major issues in the field of religious studies Beginning with the investigations into the possibility of a science of religion Professor Smart then goes on to consider how sociology of religious knowledge can be developed

Coleridge, Philosophy and Religion Douglas Hedley, 2000-06-22 Coleridge's relation to his German contemporaries constitutes the toughest problem in assessing his standing as a thinker For the last half century this relationship has been described ultimately as parasitic As a result Coleridge's contribution to religious thought has been seen primarily in terms of his poetic genius This book revives and

deepens the evaluation of Coleridge as a philosophical theologian in his own right Coleridge had a critical and creative relation to and kinship with German Idealism Moreover the principal impulse behind his engagement with that philosophy is traced to the more immediate context of English Unitarian Trinitarian controversy of the eighteenth and nineteenth centuries The book re establishes Coleridge as a philosopher of religion and as a vital source for contemporary theological reflection

Philosophy and the Study of Religions Kevin Schilbrack, 2014-03-03 Philosophy and the Study of Religions A Manifesto advocates a radical transformation of the discipline from its current narrow focus on questions of God to a fully global form of critical reflection on religions in all their variety and dimensions Opens the discipline of philosophy of religion to the religious diversity that characterizes the world today Builds bridges between philosophy of religion and the other interpretative and explanatory approaches in the field of religious studies Provides a manifesto for a global approach to the subject that is a practice centred rather than a belief centred activity Gives attention to reflexive critical studies of religion as socially constructed and historically located

Reflections on God and the Death of God Richard White, 2021-10-31 What is God What does it mean to believe in God What happens to God after the death of God This book examines the death of God from a philosophical standpoint It focuses on monotheism polytheism and nature and it discusses the renewed importance of spirituality and the spiritual but not religious in response to the death of God In recent years religious belief has been in decline but secularism cannot satisfy our spiritual needs We are now living in a post secular age in which the relationship between philosophy spirituality and religion must be re examined As an exploratory essay this book engages the reader at a profound level and considers a variety of modern thinkers including Nietzsche Hegel Freud Levinas Assmann and Buber It offers a sustained meditation on the origin of God the death of God and the future of God as a guiding ideal

CHRISTIAN PHILOSOPHY OF LIFE TILMANN. PESCH, 2018 **Abrahamic Reflections on Randomness and Providence** Kelly James Clark, Jeffrey Koperski, 2021-09-27 This open access book addresses the question of how God can providentially govern apparently ungovernable randomness Medieval theologians confidently held that God is provident that is God is the ultimate cause of or is responsible for everything that happens However scientific advances since the 19th century pose serious challenges to traditional views of providence From Darwinian evolution to quantum mechanics randomness has become an essential part of the scientific worldview An interdisciplinary team of Muslim Christian and Jewish scholars biologists physicists philosophers and theologians addresses questions of randomness and providence

Religions and the Truth Hendrik M Vroom, 1990

Immediacy and Reflection in Kierkegaard's Thought Paul Cruysberghs, Johan Taels, Karl Verstryng, 2003 We live in a reflective age That is Soren Kierkegaard's overall conclusion when evaluating the time he lives in But his appraisal contains both approval and criticism On the one hand reflection is a necessary category to deal with the dynamics and the qualities of the modern age on the other hand it bears a great danger It is Kierkegaard's firm conviction that reflection should always relate to a kind of immediacy that safeguards it from becoming hollow and detached from our existential reality Throughout the voluminous and complex work of Kierkegaard the notions of immediacy and reflection play a crucial role They appear in such an early work as From the Papers of One Still Living as well as in the late Anti Climacus writings and indeed their significance or influence can be felt in all philosophical texts published in between That is not to say that the meaning of the notions is unequivocal After all Kierkegaard not only uses the terms in very divergent contexts but his own understanding of them appears to evolve quite strongly in the course of his oeuvre Moreover in spite of their clearly philosophical character the two notions play an unmistakable role in Kierkegaard's understanding of religion They appear frequently in the religious discourses indeed In short Kierkegaard's use of the notions of immediacy and reflection covers a broad array of meanings and interpretations The dialectics of immediacy and reflection of reflection killing immediacy and raising the question of the possibility of a new immediacy is the main theme of Immediacy and Reflection in Kierkegaard's Thought The book contains contributions authored by a number of well known Kierkegaard scholars Kierkegaard's theory of the existence spheres of life provides a first viewpoint on the interplay of immediacy and reflection Here the philosophical and pseudonymous writings are the main subject of research If on the other hand one pays a closer look at the significance of a second immediacy for a religious attitude to life The religious discourses come into play when the possibility of a second immediacy is taken into consideration In conclusion the theme of immediacy and reflection is connected to some important trends in the modern and contemporary

era On the one hand it is linked to the philosophical influences Kierkegaard underwent e g from Hegel on the other hand Kierkegaard is confronted with later thinkers Heidegger in particular

Theological Reflection and the Pursuit of Ideals Dale Wright, Maria Antonaccio, 2016-02-17 Contemporary thought is marked by heated debates about the character purpose and form of religious thinking and its relation to a range of ideals spiritual moral aesthetic political and ecological to name the obvious This book addresses the interrelation between theological thinking and the complex and diverse realms of human ideals What are the ideals appropriate to our moment in human history and how do these ideals derive from or relate to theological reflection in our time In *Theological Reflection and the Pursuit of Ideals* internationally renowned scholars from a range of disciplines physics art literary studies ethics comparative religion history of ideas and theology engage with these crucial questions with the intention of articulating a new and historically appropriate vision of theological reflection and the pursuit of ideals for our global times
