Reflexive Language Reported Speech And Metapragmatics:

Reflexive Language John A. Lucy, 1993-03-04 These innovative essays represent a critique of those researchers in the humanities and social sciences who fail to take language seriously

Reflexive Language John A. Lucy, 1993-03-04 This volume examines the nature and significance of the reflexive capacity of natural language its ability to represent its own structure and use through reported speech and explicit statements about language use metapragmatics Included are theoretical overviews case studies of the forms and functioning of reflexive language and explorations of the broad importance of reflexive language for research in the humanities and social sciences These innovative essays many by internationally known researchers effectively critique research in the human disciplines that fails to take language seriously It should elicit widespread attention and debate

The Reflexivity of Language and Linguistic Inquiry Dorthe Duncker, 2018-11-09 This book explores the reflexivity of language both from the perspective of the lay speaker and the linguistic analyst Linguistic inquiry is conditional upon linguistic reflexivity but so is language Without linguistic reflexivity we would not be able to make sense of everyday linguistic communication and the idea of a language would not be conceivable Not even fundamental notions such as words or meaning would exist Linguistic reflexivity is a feature of the communication process and it essentially depends on situated participants and time It is a defining characteristic of the human language but despite its obvious importance it is not very well understood theoretically and it is strangely under researched empirically Throughout history and in modern linguistics it has mostly either been taken for granted misconstrued or ignored Only integrational linguistics fully recognizes its specifically linguistic implications However integrational linguistics does not provide the necessary methodological basis for investigating linguistic phenomena empirically This catch 22 situation means that the goal of the book is twofold one part is to explore the reflexivity of language theoretically and the other part is to propose an applied integrational linguistics and to implement this proposal in practice

Metapragmatics in Use Wolfram Bublitz, Axel Hübler, 2007 This collection of papers fills a gap in current research on both metapragmatics and pragmatics in that it combines data based pragmatic analysis with metapragmatic theory and focuses on the ways in which metadiscourse is actually used The 12 contributions investigate speech acts and verbal as well as non verbal expressions which highlight meta linguistic aspects of ongoing discourse and thus provoke a deviation from the latter s original direction and purpose All case studies discuss ways and means which interactants employ to resolve diverging pragmatic expectations in communication The papers analyze authentic examples from English and other languages and cultures including Thai Chinese and Japanese and center around three principal domains of communication ordinary everyday interaction interaction in educational contexts and in specialized discourse The introductory chapter locates the various contributions within a systematically broader theoretical framework The wide scope of the collection its empirical orientation and the reader friendly form of presentation should appeal to anyone interested in pragmatics whether scholar or

student **Indirect Reports and Pragmatics** Alessandro Capone, Ferenc Kiefer, Franco Lo Piparo, 2015-12-01 This volume offers the reader a singular overview of current thinking on indirect reports. The contributors are eminent researchers from the fields of philosophy of language, theoretical linguistics and communication theory who answer questions on this important issue. This exciting area of controversy has until now mostly been treated from the viewpoint of philosophy. This volume adds the views from semantics, conversation analysis and sociolinguistics. Authors address matters such as the issue of semantic minimalism vs radical contextualism, the attribution of responsibility for the modes of presentation associated with Noun Phrases and how to distinguish the indirect reporter's responsibility from the original speaker's responsibility. They also explore the connection between indirect reporting and direct quoting. Clearly indirect reporting has some bearing on the semantics/pragmatics debate, however there is much controversy on what is said, whether this is a minimal semantic logical form enriched by saturating pronominals or a much richer and fully contextualized logical form. This issue will be discussed from several angles. Many of the authors are contextualists and the discussion brings out the need to take context into account when one deals with indirect reports, both the context of the original utterance and the context of the report. It is interesting to see how rich cues and clues can radically transform the reported message, assigning illocutionary force and how they can be mobilized to distinguish several voices in the utterance. Decoupling the voice of the reporting speaker from that of the reported speaker on the basis of rich contextual clues is an important issue that pragmatic theory has to tackle. Articles on the issue of slurs will bring new light to the issue of decoupling responsibility in indirect reporting while others are theoretically oriented and deal with deep problems in philosophy and epistemology. Metapragmatics of Humor Leonor Ruiz-Gurillo, 2016-11-24 Metapragmatics of Humor Current research trends contribute to a new area in the pragmatics of humor, its conception as a metapragmatic ability. The book collects thirteen chapters organized into three parts: Revisions and applications of General Theory of Verbal Humor (GTVH) in a metapragmatic context; Metapragmatic awareness of humor across textual modes; and Metapragmatic practices within the acquisition of humor. Thus this book provides an up-to-date panorama of this field where metapragmatic abilities are described in adults as well as in children on humorous and non-humorous genres: jokes, cartoons, humorous monologues, parodies, conversation, Twitter and using several approaches such as GTVH, multimodality, conversational analysis, eye tracking methodology etc. The Cambridge Handbook of the Philosophy of Language Piotr Stalmaszczyk, 2021-12-02 A comprehensive guide to contemporary investigations into the relationship between language, philosophy and linguistics. **Perspective and Perspectivation in Discourse** Carl Friedrich Graumann, Werner Kallmeyer, 2002-01-01 Perspective and viewpoint are widely used in everyday talk as well as in the specialist languages of the social, cognitive and literary sciences. Taken from the field of visual perception and representation, these concepts have acquired a general meaning and significance as characteristics of human cognitive processing. Since, however, this field is shared by an increasing body of disciplines, perspective terms have also acquired specific and technical

meanings A striking example is the newly introduced use of perspectivation in discourse analysis This volume on perspective and perspectivation the first of its kind will help to fill the gap between the common understanding of perspective and the specifics of its structure and dynamics as they have been elaborated in the human sciences mainly in psychology and linguistics The focus is on the structure of perspectivity in cognition and language and the dynamics of setting and taking perspectives in social interaction and in the construction and understanding of texts Both topics are presented here in an interdisciplinary way by a group of linguists and psychologists *New Frontiers in Pragmalinguistic Studies* Alessandro Capone, Roberto Graci, Pietro Perconti, 2025-01-29 This book contains a comprehensive view of pragmalinguistic studies and their recent ramifications boasting some of the most advanced recent research in pragmatics Organised into three sections pragmalinguistics social pragmatics and cognitive inferential pragmatics respectively the chapters enable an understanding of the possible applications of linguistic and philosophical theories in practical fields Covering topics such as polysemy across languages and lexical externalism the role of literal meaning in the construction of metaphorical meaning the pragmatics of truth the roles of reflexivity in meaning negotiation argumentation and discourse the pragmatics of taboo linguistic and cognitive aspects of formation of implicates and reflections on neuropragmatics and clinical pragmatics in Autism Spectrum Disorder and Schizophrenia to name but a few exciting areas of exploration this book is of interest to scholars and postgraduate students in the fields of semantics pragmatics and philosophy of language cognitive science and other areas of linguistics *Dialogue Analysis IX: Dialogue in Literature and the Media, Part 1: Literature* Anne Betten, Monika Dannerer, 2011-12-22 These two volumes offer a selection of the papers held at the conference of the International Association for Dialogue Analysis IADA in 2003 Volume I contains 38 articles devoted to dialogue and the phenomenon of dialogicity in literature ranging from antiquity to a large number of modern languages and literatures The conversation analytic approaches drawn upon are notable for their methodological diversity This is also true of the 32 articles in Volume II The main focus here is on present day types of dialogue in the new electronic media and their traditional counterparts press radio television film The examples are taken from various countries and they are discussed in terms of the intercultural semiotic translatorial and general pragmatic issues they pose **Powers of the Secular Modern** David Scott, Charles Hirschkind, 2006 This book presents a set of critical engagements by writers from a variety of disciplines with the work of noted anthropologist Talal Asad *Concise Encyclopedia of Pragmatics* J.L. Mey, 2009-08-07 Concise Encyclopedia of Pragmatics Second Edition COPE is an authoritative single volume reference resource comprehensively describing the discipline of pragmatics an important branch of natural language study dealing with the study of language in its entire user related theoretical and practical complexity As a derivative volume from Encyclopedia of Language and Linguistics Second Edition it comprises contributions from the foremost scholars of semantics in their various specializations and draws on 20 years of development in the parent work in a compact and affordable format Principally intended for tertiary level inquiry

and research this will be invaluable as a reference work for undergraduate and postgraduate students as well as academics inquiring into the study of meaning and meaning relations within languages As pragmatics is a centrally important and inherently cross cutting area within linguistics it will therefore be relevant not just for meaning specialists but for most linguistic audiences Edited by Jacob Mey a leading pragmatics specialist and authored by experts The latest trends in the field authoritatively reviewed and interpreted in context of related disciplines Drawn from the richest most authoritative comprehensive and internationally acclaimed reference resource in the linguistics area Compact and affordable single volume reference format **Disorderly Discourse** Charles L. Briggs,1996 This volume contains eight essays that are at the intersection of two important areas within linguistics conversational analysis and the use of narrative in the creation mediation and resolution of conflict The contributors explore these issues in a variety of cultures and languages

Investigations into the Meta-Communicative Lexicon of English Ulrich Busse,Axel Hübler,2012-05-15 The volume contributes to historical pragmatics an important chapter on what has so far not been paid adequate attention to i e historical metapragmatics More particularly the collected papers apply a meta communicative approach to historical texts by focusing on lexis that either directly or metaphorically identifies or characterizes entire forms of communication or single acts and act sequences or minor units Within the context of their use such lexical expressions in fact provide a key for disclosing historical forms of communication taken out of context they build the meta communicative lexicon The articles follow three principal distinctions in that they investigate the meta communicative profile of genres meta communicative lexical sets and meta communicative ethics and ideologies They cover a broad spectrum of text types that span the entire history of the English language from Anglo Saxon chronicles to computer mediated communication Deuteronomy and the Material

Transmission of Tradition Mark Lester,2024-03-04 Winner of the 2025 Manfred Lautenschlaeger Award for Theological Promise Deuteronomy and the inscribed texts depicted within it are often called books Moreover its treatment of writing has earned it a prominent place in historical accounts of the religion of ancient Israel and Judah Neither Deuteronomy nor its text artifacts however are books in any conventional sense of the term This interdisciplinary study reorients the analysis of Deuteronomistic textuality around the materiality visuality and rhetoric of ancient rather than modern media It argues that the Deuteronomistic composition adapts the media aesthetics of ancient treaty tablets and monumental inscriptions to a story that is itself transformed into an artifact of the past **The Pursuit of Style in Early Modern Drama** Matthew

Hunter,2022-08-25 Matthew Hunter shows how early modern plays modeled diverse styles of talk for audiences inhabiting a newly public world **Folklinguistics and Social Meaning in Australian English** Cara Penry Williams,2019-09-12

Folklinguistics and Social Meaning in Australian English presents an original study of Australian English and via this insights into Australian society Utilising folklinguistic accounts it uncovers everyday understandings of contemporary Australian English through variations across linguistic systems sounds words discourse and grammar Focusing on one variation at time

it explores young speakers language use and their evaluations of the same forms The analysis of talk about talk uncovers ethnic regional and social Others in social types and prevailing ideologies around Australian English essential for understanding Australian identity making processes as well as providing insights and methods relevant beyond this context These discussions demonstrate that while the linguistic variations may occur in other varieties of English they are understood through local conceptualisations and often as uniquely Australian This book harnesses the value and richness of discourse in explorations of the sociocultural life of language The findings show that analysis attending to language ideologies and identities can help discover the micro macro links needed in understanding social meanings The volume explores a wide range of language features but also provides a deep contemplation of Australian English **Issues in Cognitive**

Linguistics Leon de Stadler, Christoph Eyrich, 2011-04-20 No detailed description available for Issues in Cognitive Linguistics **Electronic Discourse** Boyd H. Davis, Jeutonne Brewer, Jeutonne Patten Brewer, 1997-01-01 Investigates the

new world of computer conferencing and details how writers use language when their social interaction is exclusively enacted through text on screens *Masking Terror* Alex Argenti-Pillen, 2013-07-17 In Sri Lanka staggering numbers of young men were killed fighting in the armed forces against Tamil separatists The war became one of attrition year after year waves of young foot soldiers were sent to almost certain death in a war so bloody that the very names of the most famous battle scenes still fill people with horror Alex Argenti Pillen describes the social fabric of a rural community that has become a breeding ground and reservoir of soldiers for the Sri Lankan nation state arguing that this reservoir has been created on the basis of a culture of poverty and terror Focusing on the involvement of the pseudonymous village of Udahenagama in the atrocities of the civil war of the late 1980s and the interethnic war against the Tamil guerrillas *Masking Terror* describes the response of women in the rural slums of southern Sri Lanka to the further spread of violence To reconstruct the violent backgrounds of these soldiers she presents the stories of their mothers sisters wives and grandmothers providing a perspective on the conflict between Sinhalese and Tamil populations not found elsewhere In addition to interpreting the impact of high levels of violence on a small community Argenti Pillen questions the effects of trauma counseling services brought by the international humanitarian community into war torn non Western cultural contexts Her study shows how Euro American methods for dealing with traumatized survivors poses a threat to the culture specific methods local women use to contain violence *Masking Terror* provides a sobering introduction to the difficulties and methodological problems field researchers social scientists human rights activists and mental health workers face in working with victims and perpetrators of ethnic and political violence and large scale civil war The narratives of the women from Udahenagama provide necessary insight into how survivors of wartime atrocities reconstruct their communicative worlds and disrupt the cycle of violence in ways that may be foreign to Euro American professionals
