P. for the Borough of Leeds Sir Edward Baines,1859      *Marx's Critique of Political Economy Volume Two* Allen Oakley,2013-11-05 Volume Two covers the years 1861 1863 when Marx consolidated and refined the arguments of his critique of political economy in his relatively neglected manuscripts Theories of Surplus Value Special attention is paid to the nature scope and limitations of Marx s critique and to the critique of Ricardo s Principles      The Three Reforms of Parliament William Heaton,1885      **You Report to Me** David Bernhardt,2024-10-22 In this firsthand account David Bernhardt 53rd Secretary of the United States Department of the Interior describes how he witnessed firsthand the administrative state s transformation from a collection of departments under the command of the President into a sprawling and unaccountable bureaucracy Resistance to the Trump presidency within the civil service drew media attention but it was only part of a larger problem a federal bureaucracy that often goes its own way contrary to the policies of elected leadership In this insider s account David L Bernhardt reveals how the bureaucratic swamp really operates and how unaccountable power has been concentrated deep within the administrative state resulting in dysfunction Executive agencies were created to implement legislation and presidential directives yet career civil servants use them to advance their own agendas instead Congress often writes laws broadly letting subject matter experts at administrative agencies fill in the details with regulations Then agency employees sometimes substitute their own policy preferences for actual statutory or regulatory language They may also fail to appreciate that their authority is delegated from an official who answers to the president Bernhardt gives examples of federal employees undermining the administration s policies simply by refusing to work on a task slow walking it or doing a subpar job Administrative agencies have further gained power through judicial deference to an agency s own interpretation of a statute when its enforcement action is challenged Courts essentially abdicate their role of interpreting the law leaving citizens with little recourse against penalties or prohibitions Both legislative and judicial powers have thus been shifted to the executive branch where they are exercised without adequate political oversight Drawing on his experiences working under two administrations Bernhardt explains how President Trump s enabling leadership showed a path for reining in the administrative state He calls on political leadership to turn off autopilot and take control of their agencies and on Congress and the judiciary to assert their

constitutional authority before an unaccountable federal bureaucracy destroys the Founders vision of government by consent of the governed      The Fault Lines of Farm Policy Jonathan Coppess,2018-12-01 At the intersection of the growing national conversation about our food system and the long running debate about our government s role in society is the complex farm bill American farm policy built on a political coalition of related interests with competing and conflicting demands has proven incredibly resilient despite development and growth In The Fault Lines of Farm Policy Jonathan Coppess analyzes the legislative and political history of the farm bill including the evolution of congressional politics for farm policy Disputes among the South the Great Plains and the Midwest form the primordial fault line that has defined the debate throughout farm policy s history Because these regions formed the original farm coalition and have played the predominant roles throughout this study concentrates on the three major commodities produced in these regions cotton wheat and corn Coppess examines policy development by the political and congressional interests representing these commodities including basic drivers such as coalition building external and internal pressures on the coalition and its fault lines and the impact of commodity prices This exploration of the political fault lines provides perspectives for future policy discussions and more effective policy outcomes      **The parliamentary remembrancer, conducted by T.
