## **Reform In Great Britain And Germany 1750 185:**

Materials of the Mind James Poskett, 2019-05-10 This is not only the first global history of nineteenth century science but the first global history of phrenology Phrenology was the most popular mental science of the Victorian age From American senators to Indian social reformers this new mental science found supporters around the globe Materials of the Mind tells the story of how phrenology changed the world and how the world changed phrenology This is a story of skulls from the Arctic plaster casts from Haiti books from Bengal and letters from the Pacific Drawing on far flung museum and archival collections and addressing sources in six different languages Materials of the Mind is an impressively innovative account of science in the nineteenth century as part of global history It shows how the circulation of material culture underpinned the emergence of a new materialist philosophy of the mind while also demonstrating how a global approach to history can help us reassess issues such as race technology and politics today

Becoming a Physician Thomas Neville Bonner, 2000 Focusing on the social intellectual and political context in which medical education took place Thomas Neville Bonner offers a detailed analysis of transformations in medical instruction in the United Kingdom France Germany and the United States between the Enlightenment and World War II From a unique comparative perspective this study considers how divergent approaches to medical instruction in these countries mirrored as well as impacted their particular cultural contexts The book opens with an examination of key developments in medical education during the late eighteenth century and continues by tracing the evolution of clinical teaching practices in the early 1800s It then charts the rise of laboratory based teaching in the nineteenth century and the progression toward the establishment of university standards for medical education during the early twentieth century Throughout the author identifies changes in medical student populations and student life including the opportunities available for women and minorities

*The Age of Cultural Revolutions* Colin Jones, Dror Wahrman, 2002-01-08 This superb collection of essays brings together the most exciting new work in cultural and literary history Although the authors focus on the various cultural revolutions of the late 18th and early 19th centuries the significance of their investigations extends far beyond that moment They show how the major categories of modern social life took root in this era but they emphasize the surprising and often paradoxical ways those developments took place Nothing about the experience of class gender race nation sentiment or even death was pre ordained These essays will enable readers to take a fresh new look at the origins of modernity Lynn Hunt editor of *The New Cultural History* and coeditor of *Beyond the Cultural Turn* This is a valuable and provocative set of essays Differing markedly in subject matter they are linked by their intelligence and concern to reassess early modern English and French histories and the differences conventionally drawn between them in the light of current work on language class race and gender Linda Colley author of *Britons Forging the Nation 1707 1837*

A History of Modern Germany Hajo Holborn, 1982 A three volume reassessment of the last five centuries of German history

The Cambridge Social History of Britain, 1750-1950 F. M. L. Thompson, 1990 Whilst in

certain quarters it may be fashionable to suppose that there is no such thing as society historians they have had no difficulty in finding their subject The difficulty rather is that an outpouring of research and writing is hard for anyone but the specialist to keep up with the literature or grasp the overall picture In these three volumes as is the tradition in Cambridge Histories a team of specialists has assembled the jigsaw of topical monographic research and presented an interpretation of the development of modern British society since 1750 from three perspectives those of regional communities the working and living environment and social institutions Each volume is self contained and each contribution thematically defined contains its own chronology of the period under review Taken as a whole they offer an authoritative and comprehensive view of the manner and method of the shaping of society in the two centuries of unprecedented demographic and economic change

**Modern Britain, 1750 to the Present** James Vernon, 2017-04-20 An introductory textbook charting a global history of modern Britain from 1750 to the present Peaceful and Violent Origins of Voting Rights Toke S. Aidt, Raphaël Franck, 2025 The Great Reform Act of 1832 was a pivotal moment in British political development that opened the door of democratic reform entailing a slow and gradual journey to universal suffrage secret ballot and competitive elections But it could have failed In Peaceful and Violent Origins of Voting Rights Toke S Aidt and Raphaël Franck articulate a new process based perspective on the study of democratization through a detailed analysis of the Great Reform Act of 1832 Instead of using the historical narrative to provide evidence of a particular theory the authors use microdata generated by the reform to test competing theories Aidt and Franck apply their approach to the Reform Bill through econometric analyses that draw on rich micro political data to show why the reform succeeded despite significant opposition at three different stages in both the House of Commons and the House of Lords as well as winning popular support in a general election While fears of revolution were critical in generating popular support for the Reform Bill in the 1831 General Election they argue that it was mainly extra parliamentary agitation from reform societies that helped the bill obtain its one vote majority in the House of Commons By viewing democratic reform as a process rather than as a single event the authors provide more nuanced answers to what caused the West to extend the franchise Further the book presents new insights into the underlying forces of democratisation processes **The Human Tradition in Modern Europe, 1750 to the Present** Cora Ann Granata, Cheryl A. Koos, 2008

This engaging and humanizing text traces the development of Europe since the mid eighteenth century through the lives of people of the time Capturing key moments themes and events in the continent's turbulent modern past the book explores how ordinary Europeans both shaped their societies and were affected by larger historical processes By focusing on the lives of individual actors both famous and obscure students can gain a sense for how the well known revolutions wars and social transformations of the modern era were experienced in private homes work places political forums and on battlefields throughout the region Fittingly the book opens with the French Revolution and concludes with the fall of the Berlin Wall and the collapse of Eastern European communism Throughout the contributors use compelling biographies to examine many of

the major events and developments in European history including the age of reaction and revolutions in the early nineteenth century industrialization Victorianism new imperialism fin de siècle culture the first and second World Wars the Russian Revolution Italian fascism Nazism the Holocaust and decolonization Americanization and the 1968 youth revolts Contributions by Karin Breuer Helen Harden Chenut John Cox Stephen P Frank Cora Granata Maura E Hametz Michael Kilburn Cheryl A Koos Robert A McLain Karen Petrone Paolo Scrivano Alyssa Goldstein Sepinwall Matthew G Stanard Michele M Strong and Patricia Tilburg

**Reform in Great Britain and Germany, 1750-1850** T. C. W. Blanning, Peter Wende, 1999 In the study of late eighteenth century Europe the concept of reform has been neglected compared to the attention lavished on its more glamorous relation revolution Yet it was reform not revolution which characterized the experience of both Great Britain and Germany from 1750 to 1850 This volume takes a comparative approach to shed new light on old problems

**Lunatic Hospitals in Georgian England, 1750-1830** Leonard Smith, 2013-10-18 Lunatic Hospitals in Georgian England 1750 1830 constitutes the first comprehensive study of the philanthropic asylum system in Georgian England Using original research and drawing upon a wide range of expertise on the history of mental health this book demonstrates the crucial role of the lunatic hospitals in the early development of a national system of psychiatric institutions These hospitals were to form an essential historical link in the emergence of a national system of institutional provision for mentally disordered people They provided important prototypes for the subsequent development of a network of state sponsored lunatic asylums during the nineteenth century This is an impressive volume which covers various areas including the provincial lunatic hospitals managing the hospital managing the insane This book will interest specialist historians as well as mental health professionals and people interested in local and regional studies

**Cold, hard steel** Agnes Arnold-Forster, 2023-06-27 Brilliant volatile and invariably male the surgeon stereotype is a widespread and instantly recognisable part of western culture Setting out to anatomise this stereotype Cold hard steel offers an exciting new history of modern and contemporary British surgery The book draws on archival materials and original interviews with surgeons analysing them alongside a range of fictional depictions from the Doctor in the House novels to Mills Boon romances and the pioneering soap opera Emergency Ward 10 Presenting a unique social cultural and emotional history it sheds light on the development and maintenance of the surgical stereotype and explains why it has proved so enduring At the same time the book explores the more candid and compassionate image of the surgeon that has begun to emerge in recent years revealing how a series of high profile memoirs both challenge the surgical stereotype and simultaneously confirm it

**Germany and Austria 1814-2000** Mark Allinson, Professor School of Modern Languages Mark Allinson, 2002 Written for German majors taking courses in German history this book offers a straightforward narrative history with an emphasis on understanding major developments their causes and the relationships between them It includes extracts from historical documents timelines and an annotated further

reading list     From Jack Tar to Union Jack Mary A. Conley, 2017-03-01 Jack Tar to Union Jack examines the intersection between empire navy and manhood in British society from 1870 to 1918 Through analysis of sources that include courts martial cases sailors own writings and the HMS Pinafore Conley charts new depictions of naval manhood during the Age of Empire a period which witnessed the radical transformation of the navy the intensification of imperial competition the democratisation of British society and the advent of mass culture Jack Tar to Union Jack argues that popular representations of naval men increasingly reflected and informed imperial masculine ideals in Victorian and Edwardian Britain Conley shows how the British Bluejacket as both patriotic defender and dutiful husband and father stood in sharp contrast to the stereotypic image of the brave but bawdy tar of the Georgian navy This book will be essential reading for students of British imperial history naval and military history and gender studies     **Pauper Voices, Public Opinion and Workhouse Reform in Mid-Victorian England** Peter Jones, Steven King, 2020-08-08 This book represents the first attempt to identify and describe a workhouse reform movement in mid to late nineteenth century England beyond the obvious candidates of the Workhouse Visiting Society and the voices of popular critics such as Charles Dickens and Florence Nightingale It is a subject on which the existing workhouse literature is largely silent and this book therefore fills a considerable gap in our understanding of contemporary attitudes towards institutional welfare Although many scholars have touched on the more obvious strands of workhouse criticism noted above few have gone beyond these to explore the possibility that a concerted movement existed that sought to place pressure on those with responsibility for workhouse administration and to influence the trajectory of workhouse policy     The Parliamentary Debates (official Report). Great Britain. Parliament. House of Commons, 1909     Conservative Parties and the Birth of Democracy Daniel Ziblatt, 2017-04-17 How do democracies form and what makes them die Daniel Ziblatt revisits this timely and classic question in a wide ranging historical narrative that traces the evolution of modern political democracy in Europe from its modest beginnings in 1830s Britain to Adolf Hitler s 1933 seizure of power in Weimar Germany Based on rich historical and quantitative evidence the book offers a major reinterpretation of European history and the question of how stable political democracy is achieved The barriers to inclusive political rule Ziblatt finds were not inevitably overcome by unstoppable tides of socioeconomic change a simple triumph of a growing middle class or even by working class collective action Instead political democracy s fate surprisingly hinged on how conservative political parties the historical defenders of power wealth and privilege recast themselves and coped with the rise of their own radical right With striking modern parallels the book has vital implications for today s new and old democracies under siege     **Modernity and Bourgeois Life** Jerrold Seigel, 2012-04-12 To be modern may mean many different things but for nineteenth century Europeans modernity suggested a new form of life in which bourgeois activities people attitudes and values all played key roles Jerrold Seigel s panoramic new history offers a magisterial and highly original account of the ties between modernity and bourgeois life arguing that they can be best understood not in terms of

the rise and fall of social classes but as features of a common participation in expanding and thickening networks of means that linked together distant energies and resources across economic political and cultural life Exploring the different configurations of these networks in England France and Germany he shows how their patterns gave rise to distinctive forms of modernity in each country and shaped the rhythm and nature of change across spheres as diverse as politics money and finance gender relations morality and literary artistic and musical life

**Agrarian Capitalism and Poor Relief in England, 1500-1860** Larry Patriquin, 2007-10-11 This book examines the evolution of public assistance for the poor in England from the late medieval era to the Industrial Revolution Placing poor relief in the context of the unique class relations of agrarian capitalism it considers how and why relief in England in the early modern period was distinct

*Urban Liberalism in Imperial Germany* Jan Palmowski, 1999-05-13 Debates about Liberalism in imperial Germany have focused almost exclusively on the national level This book investigates liberal politics in local government the only sphere in which liberals had direct access to power throughout Germany Through the study of one of Germany's most progressive cities Frankfurt am Main Jan Palmowski examines more generally the processes of politicization and policy formulation at the local level He argues that in Frankfurt as elsewhere local affairs had become politicized not around 1900 as is generally assumed but by the 1870s Once in power the liberals concern for religion social policy and education as well as their skilful use of fiscal policy shows that liberals in Germany were as sophisticated as liberals in Britain or France Even in the face of an authoritarian state structure German liberals received and made use of freedom for renewal and reform German liberalism was not inherently weak Instead the crucial problem lay in the country's complicated federal structure which made it impossible to transfer innovations from the local level to the state and national levels
