Religious Dimension In Hegels Thought:

The Religious Dimension in Hegel's Thought Emil L. Fackenheim, 1968 The Religious Dimension in Hegel's Thought Daniel James Crampton, 1975 *The Philosopher as Witness* Michael L. Morgan, Benjamin Pollock, 2009-01-01 Emil Fackenheim 1916 2003 one of the most important Jewish philosophers of the twentieth century called on the world at large not only to bear witness to the Holocaust as an unprecedented assault on Judaism and on humanity but also to recognize that the question of what it means to philosophize indeed what it means to be human must be raised anew in its wake *The Philosopher as Witness* begins with two recent essays written by Fackenheim himself and includes responses to the questions that Fackenheim posed to philosophy Judaism and humanity after the Holocaust The contributors to this book dare to extend that questioning through a critical examination of Fackenheim's own thought and through an exploration of some of the ramifications of his work for fields of study and realms of religious life that transcend his own Alain Badiou and the Book of Revelation Bruce Worthington, 2024-05-29 Using many key philosophical concepts based on the work of Alain Badiou this book outlines the relationship between an event and the emergence of a truth which serves as a helpful organizing principle from which to study the origins of Christianity Alain Badiou and the Book of Revelation argues that despite what postmodern philosophy says truths still appear and their immanent character can be known in the world through a militant subject one who is willing to declare the consequences of an event that has happened The second half of the book applies Badiou's theory of the event to the book of Revelation a book that draws out radical even terrifying consequences from an event the victory of the Lamb particularly in the logic of a new world and a political body that is to come Based on several new insights following the completion of Badiou's *The Immanence of Truths* the book is a full length treatment of Badiou's philosophy to the study of Christian origins and the book of Revelation **Hegel's Hermeneutics** Paul Redding, 1996 An advance on recent revisionist thinking about Hegelian philosophy this book interprets Hegel's achievement as part of a revolutionary modernization of ancient philosophical thought initiated by Kant **Metaphysics to Metafictions** Paul S. Miklowitz, 1998-08-06 Examines the key role played by Nietzsche in the undoing of the Hegelian system of totality **Recognition** Robert R. Williams, 1992-03-04 Relationality and the Concept of God Henry Jansen, 2025-02-10 Classical theism the dominant tradition in Christian theology has stressed the metaphysical concept of God i.e. God's ontological transcendence and independence from the world In this century however this concept of God has increasingly met with criticism On the basis of the Bible and new philosophical considerations it is argued that a relational concept of God better answers the fundamental concerns of the Christian faith In this book the author investigates the questions of whether one can conceive of God apart from the metaphysical attributes and whether reflection on the biblical depiction of God leads necessarily to a relational concept of God The author explores the questions by examining the relational concepts of God found in two contemporary German theologians Jürgen Moltmann and Wolfhart Pannenberg and uses the divine attribute of immutability as a focus for

the discussion He argues that the relational concept of God presupposes another metaphysical conception of God which raises problems as serious as those in classical theism and that the Bible itself because of its nature as a narrative text is ambiguous in many respects as far as God is concerned A truly Christian doctrine of God must take both the metaphysical and relational aspects of God into account

Social Domains of Truth Lambert Zuidervaat, 2023-03-10 Truth is in trouble In response this book presents a new conception of truth It recognizes that prominent philosophers have questioned whether the idea of truth is important Some have asked why we even need it Their questions reinforce broader trends in Western society where many wonder whether or why we should pursue truth Indeed some pundits say we have become a post truth society Yet there are good reasons not to embrace the cultural Zeitgeist or go with the philosophical flow reasons to regard truth as a substantive and socially significant idea This book explains why First it argues that propositional truth is only one kind of truth an important kind but not all important Then it shows how propositional truth belongs to the more comprehensive process of truth as a whole This process is a dynamic correlation between human fidelity to societal principles and a life giving disclosure of society The correlation comes to expression in distinct social domains of truth where either propositional or nonpropositional truth is primary The final chapters lay out five such domains science politics art religion and philosophy Anyone who cares about the future of truth in society will want to read this pathbreaking book

Reason and Revelation before Historicism Sharon Jo Portnoff, 2012-01-30 Can contemporary religion and particularly Judaism exist without being informed by history This question was debated in 1940s New York by two German refugees who later rose to prominence Leo Strauss one of the twentieth century s most significant political philosophers and Emil L Fackenheim an important post Holocaust Jewish theologian There has been little consensus however on the definitive meaning of their work Reason and Revelation before Historicism the first full length comparison of Strauss and Fackenheim places the informal teacher and student in conversation alongside sections of their analyses of notable thinkers Sharon Portnoff suggests that both saw historicism as the nexus of the intersection and tension between philosophy and religion and raised the possibility of the persistence of the permanent in the modern world Portnoff illuminates our understanding of Strauss s relationship with Judaism Fackenheim s oft overshadowed great philosophical depth and the function and character of Jewish thought in a secular post Holocaust world

Eclipse of Grace Nicholas Adams,2013-02-19 Eclipse of Grace offers original insights into the roots of modern theology by introducing systematic theologians and Christian ethicists to Hegel through a focus on three of his seminal texts Phenomenology of Spirit Science of Logic and Lectures on the Philosophy of Religion Presents brilliant and original insights into Hegel s significance for modern theology Argues that theologically Hegel has been misconstrued and that much more can be gained by focusing on the logic that he develops out of an engagement with Christian doctrines Features an original structure organized as a set of commentaries on individual Hegel texts and not just presenting overviews of his entire corpus Offers detailed engagement with Hegel s texts rather than relying on generalizations about Hegelian philosophy Provides an illuminating accessible and lucid account of the thinking of the major figures in modern German philosophy and theology

German Philosophers Roger Scruton,2001 German Philosophers contains studies of four of the most important German theorists Kant arguably the most influential modern philosopher Hegel whose philosophy inspired an enduring vision of a communist society Schopenhauer renowned for his pessimistic preference for non existence and Nietzsche who has been appropriated as an icon by an astonishingly diverse spectrum of people **Christology of Hegel** James Yerkes,1983-06-30

James Yerkes undertakes a systematic exploration of the full range of Hegel s works to discover what philosophical religious and historical significance Hegel attributed to the Christian witness that Jesus of Nazareth was the Christ **Philosophy**

without Foundations William Maker,1994-10-11 **Stations on the Journey of Inquiry** Mary Budde Ragan,2017-03-23

In this collection Stations on the Journey of Inquiry David Burrell launches a revolutionary reinterpretation of how any inquiry proceeds boldly critiquing presumptuous theories of knowledge language and ethics While his later publications Analogy and Philosophical Language 1973 and Aquinas God and Action 1979 elucidate Aquinas s linguistic theology these early writings show what often escapes articulation how one comes to understanding and takes a judgment Although Aquinas

serves as an axial figure for Burrell's expansive corpus of scholarship spanning more than fifty years this selection of essays presents other positions and counterpositions to whom his own philosophical theology is beholden Plato Aristotle Cajetan Kant Peirce Moore Wittgenstein Sellars Weiss Ross McNerny and Lonergan With renewed interest in philosophy of language by postmodern thinkers as well as in the wake of Mulhall's Stanton Lectures on Wittgenstein and Grammatical Thomism the publication of these formative writings proves timely for the academy at large Burrell invites us to reconsider not only the way in which we conduct an inquiry but what it is we take language to be and how we take responsibility for what we say
