Shakespeares God:

Shakespeare's God Ivor Morris, 2005 First published in 1972 Shakespeare's God investigates whether a religious interpretation of Shakespeare's tragedies is possible The study places Christianity's commentary on the human condition side by side with what tragedy reveals about it This pattern is identified using the writings of Christian thinkers from Augustine to the present day The pattern in the chief phenomena of literary tragedy is also traced **Crime and God's Judgment in**

Shakespeare Robert Rentoul Reed Jr., 2021-10-21 Divine retribution Robert Reed argues is a principal driving force in Shakespeare's English history plays and three of his major tragedies Reed finds evidence of the playwright's growing ingenuity and maturing skill in his treatment of the crime of political homicide its impact on events and God's judgment on the criminal Reed's analysis focuses upon Tudor concepts that he shows were familiar to all Elizabethans the biblical principle of inherited guilt the doctrine that God is the fountainhead of retribution with man merely His instrument and the view that conscience serves a fundamentally divine function and he urges us to look at Shakespeare within the context of his time avoiding the too frequent tendency of twentieth century critics to force a modern world view on the plays Heaven's power of vengeance provides an essential unifying theme to the plays of the two historical tetralogies Julius Caesar Hamlet and Macbeth By analyzing these plays in the light of values held by Shakespeare's contemporaries Reed has made a substantial contribution toward clarifying our understanding of the plays and of Elizabethan England **Latin American**

The Jungian Persona in Shakespeare's works](#) Aleksandra Vujovic, 2022-01-28 Document from the year 2021 in the subject English Language and Literature Studies Literature grade A language English abstract This work deals with various characters from Shakespeare's works and analyses them according to the Jungian Art In the individuation process Shakespeare sides with Jung related to the role and importance of the concept of free will None of Shakespeare's heroes follow their fate as an externally imposed inevitable chain of events which lead to their doom Rather it is their lack of self knowledge and self control as a sign of their failed individuation that causes their tragic ends These characters embody a soul which is in many ways great and noble but which has a fatal flaw which plays the role of fate In Jungian terms fate can be interpreted as unrecognized psychological processes or archetypes that are not dealt with which therefore influence or lead the actions of the ego conscience Shakespeare explores in depth these flaws to which

the tragic hero after an inner conflict fails to attempt to deal with the archetypal psychic forces The result is that the tragic hero loses his soul the link to the archetype of Self as both the motivator and the goal of the individuation process In that regard when we examine for example Othello it is obvious that the cause of his crisis and ruin is psychological and that his intellectual confusion is not the cause but rather the result of the chaos in his psyche In Jungian terms Othello as the ego consciousness struggles and fails to understand and establish a functioning relationship with both Iago and Desdemona respectively seen as his shadow and anima The importance of dealing with these archetypes as a means of reaching psychic balance as one of the indicators of a successfully ongoing individuation process is described from a Jungian point of view
