The Psychological Anthropology of Wayne Edward Oates Samuel E.

Stephens, 2020-07-24 Theological education has historically placed a strong emphasis on Scripture as the source of principle and practice for ministry. However, when it comes to the arena of counseling, this has largely not been the case. Focusing on the significant influence of Wayne Edward Oates (1917-1999), the author seeks to explore how and why the American Protestant church arrived at the place where psychological counseling has become the norm and biblical counseling is treated as novel. A detailed study of Oates' anthropology, which served as the heart of his counseling theory and practice, demonstrates that it was shaped and informed by secular concepts, values, and principles instead of what God has to say about who we are as people, what plagues our souls, and where we find our true hope and healing. This subtle shift from the theological to the therapeutic has contributed to a much broader view from many in the church that counseling is more of a clinical and professional service rather than a personal or pastoral ministry of the Scriptures. Through these unsettling warnings and implications, the author hopes that the church will see the importance of once again engaging with the God glorifying Christ, honoring and Spirit-empowering ministry of counseling.

Metaphors of Ministry David W.

Bennett, 2004-01-28 Down through the centuries, church leaders have studied the Gospels to discover patterns of leadership development that can be applied to their own context. Yet the word leader does not appear in the Gospels. Could it be that leadership has more to do with learning to follow than learning to command, supervise, or manage? On right attitudes than on mastery of certain skills? Many of the insights we need are embedded in the images which Jesus used to describe his followers. So David W. Bennett introduces his stimulating and scholarly study, previously published under the title *Biblical Images for Leaders and Followers*. He examines the many images and metaphors in the Gospels relating to how disciples follow Jesus and in turn influence others. Then he moves on to survey much of the evidence to be found in the images of the rest of the New Testament. Finally, he draws some judicious conclusions for an understanding of Christian leadership in our own day. The author has considerable cross-cultural experience, having taught church leaders in Japan, India, the Philippines, Papua New Guinea, Malaysia, India, Nepal, Tanzania, and Kenya, in addition to pastoring churches in California, Oregon, and Massachusetts. He has also traveled and done research among church leaders in Malawi, South Africa, Brazil, Argentina, Cambodia, Vietnam, China, Korea, Thailand, Russia, and the Czech Republic. His aim is to stimulate thought on these questions in churches all over the world, not just in the West.

The Liturgy of Creation Michael

LeFebvre, 2019-08-06 How were holidays chosen and taught in biblical Israel, and what did they have to do with the creation narrative? Michael LeFebvre considers the calendars of the Pentateuch, arguing that dates were added to Old Testament narratives not as journalistic details but to teach sacred rhythms of labor and worship. LeFebvre then applies this insight to the creation week, finding that the days of creation also serve a liturgical purpose.
