Sherlock Holmes and the Hammerford Will John Hall,2001 Holmes is engaged by a personal friend of King Edward VII to investigate a very curious will written by an eccentric millionaire It contains a series of puzzles that Holmes needs to solve before rivals get their hands on the fortune 
Astronomy, Cosmology and Fundamental Physics Michele Caffo,Roberto Fanti,Giorgio Giacomelli,Alvio Renzini,2012-12-06 In the development of Fundamental Physics on one side and of Astronomy Cosmology on the other side periods of parallell relatively independent progress seem to alternate with others of intense interaction and mutual influence To this latter case belong the very beginnings of Modern Physics with Galileo and Newton There is now a widespread feeling that another of such flourishing periods may have started some ten years ago with the advent of Unified Theories and the introduction of Inflationary Cosmologies The interaction between the two disciplines has become tighter ever since spurring studies of e g astronomical and particle Dark Matter candidates Superstrings and Cosmic Strings phase transitions in the Early Universe etc etc Then the recent birth of Neutrino Astronomy has added further flavor to this splendid conjunction It was indeed with the clear perception of this trend that six years ago CERN and ESO decided to jointly organize a series of symposia focusing on the interactions between Astronomy Cosmology and Fundamental Physics to be held about every two years The aim of these meetings is to bring together astronomers cosmologists and particle physicists to exchange information to discuss scientific issues of common interest and to take note

of the latest devolopments in each discipline that are relevant to the other The First ESO CERN Symposium was held at CERN Geneva on November 21 25 1983 Then for its Second edition the ESO CERN Symposium moved to Garching bei Miinchen where ESO headquarters are located and took place on March 17 21 1986
