Sherrington Physiologist Philosopher P:

Minds behind the Brain : A History of the Pioneers and Their Discoveries Department of Psychology Washington University Stanley Finger Professor, 2000-03-02 Attractively illustrated with over a hundred halftones and drawings this volume presents a series of vibrant profiles that trace the evolution of our knowledge about the brain Beginning almost 5000 years ago with the ancient Egyptian study of the marrow of the skull Stanley Finger takes us on a fascinating journey from the classical world of Hippocrates to the time of Descartes and the era of Broca and Ramon y Cajal to modern researchers such as Sperry Here is a truly remarkable cast of characters We meet Galen a man of titanic ego and abrasive disposition whose teachings dominated medicine for a thousand years Vesalius a contemporary of Copernicus who pushed our understanding of human anatomy to new heights Otto Loewi pioneer in neurotransmitters who gave the Nazis his Nobel prize money and fled Austria for England and Rita Levi Montalcini discoverer of nerve growth factor who in war torn Italy was forced to do her research in her bedroom For each individual Finger examines the philosophy the tools the books and the ideas that brought new insights Finger also looks at broader topics how dependent are researchers on the work of others What makes the time ripe for discovery And what role does chance or serendipity play And he includes many fascinating background figures as well from Leonardo da Vinci and Emanuel Swedenborg to Karl August Weinhold who claimed to have reanimated a dead cat by filling its skull with silver and zinc and Mary Shelley whose Frankenstein was inspired by such experiments Wide ranging in scope imbued with an infectious spirit of adventure here are vivid portraits of giants in the field of neuroscience remarkable individuals who found new ways to think about the machinery of the mind *Minds Behind the Brain* Stanley Finger, 2004-12-30 Traces the study of the brain from the ancient Egyptians through the classical world of Hippocrates the time of Descartes and the era of Broca to modern researchers such as Sperry and examines their sources and tools Kinaesthesia in the Psychology, Philosophy and Culture of Human Experience Roger Smith, 2023-03-23 This accessible book explores the nature and importance of kinaesthesia considering how action agency and movement intertwine and are fundamental in feeling embodied in the world Bringing together psychological philosophical and cultural perspectives the book examines the subjective feeling of movement in a cross disciplinary manner It discusses kinaesthesia through the framework of embodied cognition and outlines how contemporary discussion in psychology and phenomenology can inform our understanding of everyday experience The book also sketches a framework for full appreciation of the sense of movement in performance and cultural life discussing how a sense of movement is central to one's agency It is composed in four movements aiming to achieve a connected and original argument for why movement matters an argument exemplified in dance The first movement explains the science of kinaesthesia and the history of the concept to a discussion of current thought informed by phenomenology and embodied cognition the second quiet movement reflects on the psychological and philosophical dimensions of the sense of movement the third movement turns to the culture of movement in dance and

walking and the fourth rests with the pleasures of movement and emphasizes the social dimensions of movement in gesture and agency This wide ranging book is a must read for all those interested in the psychology of movement embodied cognition performance studies and the interaction between psychology and dance It will also be of interest to students and practitioners of embodied movement and dance practice therapies

On the Physiology of the Semicircular Canals and Their Relation to Seasickness Joseph Grandson Byrne,1912

A History of the University of Cambridge: Volume 4, 1870-1990 Christopher Brooke,Christopher N. L. Brooke,Damian Riehl Leader,Victor Morgan,Peter Searby,1988 This is the fourth volume of A History of the University of Cambridge and explores the extraordinary growth in size and academic stature of the University between 1870 and 1990 Though the University has made great advances since the 1870s when it was viewed as a provincial seminary it is also the home of tradition a federation of colleges one over 700 years old one of the 1970s This book seeks to penetrate the nature of the colleges and of the federation and to show the way in which university faculties and departments have come to vie with the colleges for this predominant role It attempts to unravel a fascinating institutional story of the society of the University and its place in the world It explores in depth the themes of religion and learning and of the entry of women into a once male environment There are portraits of seminal and characteristic figures of the Cambridge scene and there is a sketch inevitably selective but wide ranging of many disciplines an extensive study in intellectual and academic history
