Shift The Unfolding Internet Hype Hope And History:

The Internet Leila Green,2010-06-15 Packed with case studies drawn from around the world The internet presents a clear and up to date introduction to the social cultural technological and political worlds this new media form is creating

Events That Formed the Modern World Frank W. Thackeray,John E. Findling,2012-05-31 This comprehensive five volume set contains readable essays that describe and interpret the most important global events since the European Renaissance some accompanied by related document excerpts and primary source materials What were the effects of the Age of Exploration on today s ethnic groups and social structure How did the development of moveable type pave the way for Facebook and Twitter Why is the Reformation so critical for understanding today s religious controversies This set will help readers answer these questions by exploring the most significant historical events of the modern world This five volume set covers times from the Renaissance to the present Each volume focuses on a specific historic period and examines 12 events within those time frames that changed the world Each entry provides an introduction that lays out factual material in a chronological manner an in depth essay interpreting the event s significance and an annotated bibliography of the most important current works on the topic Select entries are followed by primary sources pertaining to the event under consideration such as diary entries Targeted to both general readers as well as entry level university students this book also directly supports high school and undergraduate curricula allowing students to identify and contextualize events in order to think critically about their causes aftermath and legacy

Shift! Edward Burman,2003-04-02 This text offers an interpretation of the Internet in its historical context explaining how and why the confusions and misunderstandings surrounding the Internet and its uses led to the so called bubble and bust

New Media and the Nation in Malaysia Susan Leong,2013-10-08 In the four decades or so since its invention the internet has become pivotal to how many societies function influencing how individual citizens interact with and respond to their governments Within Southeast Asia while most governments subscribe to the belief that new media technological advancement improves their nation s socio economic conditions they also worry about its cultural and political effects This book examines how this set of dynamics operates through its study of new media in contemporary Malaysian society Using the social imaginary framework and adopting a socio historical approach the book explains the varied understandings of new media as a continuing process wherein individuals and their societies operate in tandem to create negotiate and enact the meaning ascribed to concepts and ideas In doing so it also highlights the importance of non users to national technological policies Through its examination of the ideation and development of Malaysia s Multimedia Super Corridor mega project to date and reference to the seminal socio political events of 2007 2012 including the 2008 General Elections Bersih and Hindraf rallies this book provides a clear explanation for new media s prominence in the multi ethnic and majority Islamic society of Malaysia today It is of interest to academics working in the field of Media and Internet Studies and Southeast Asian Politics

The Entertainment Industry is

Cracked. Here is the Patch! Alban Martin,2004 **Telemedicine and E-Health Services, Policies, and Applications: Advancements and Developments** Rodrigues, Joel J. P.
