

The DK logo is located in the top left corner of the book cover. It consists of the letters 'DK' in a stylized, bold font, enclosed within a small rectangular border.The Maritime logo is located in the top right corner. It features the word 'MARITIME' in a serif font, with 'A HISTORY OF' in smaller text above it.The background of the book cover is a photograph of a large, dark-hulled ship, likely a battleship, being moved by two tugboats. The ship is tilted slightly, and its massive size is emphasized by the smaller tugboats. The sky is overcast, and the water is dark. The title 'SHIP' is superimposed over the ship's hull in large, gold-colored letters.

Lambert, 2011 Mariners made a major but neglected contribution to England s warfare in the middle ages Here their role is examined anew showing their importance During the fourteenth century England was scarred by famine plague and warfare Through such disasters however emerged great feats of human endurance Not only did the English population recover from starvation and disease but thousands of the kingdom s subjects went on to defeat the Scots and the French in several notable battles Victories such as Halidon Hill Neville s Cross Cr cy and Poitiers not only helped to recover the pride of the English chivalrous class but also secured the reputation of Edward III and the Black Prince Yet what has been underemphasized in this historical narrative is the role played by men of more humble origins none more so than the

medievalmariner This is unfortunate because during the fourteenth century the manpower and ships provided by the English merchant fleet underpinned every military expedition The aim of this book is to address this gap Its fresh approach to the sources allows the enormous contribution of the English merchant fleet to the wars conducted by Edward II and Edward III to be revealed the author also explores the complex administrative process of raising a fleet and provides career profiles for many mariners examining the familial relationships that existed in port communities and the shipping resources of English ports Craig L Lambert is Research Assistant at the University of Hull **A Maritime History of New York**, 2004 Originally compiled in 1941 this republication retains its cast of colorful characters ranging from pirates and smugglers to merchants and public officials and includes new historical information and updated material Tracing Your Shipbuilding Ancestors Anthony Burton, 2010-06-15 Anthony Burton's concise and informative guide to British shipbuilding will be absorbing reading for anyone who wants to learn about its history or find out about the life of a shipbuilder and his family In a clear and accessible way he traces its development from the medieval period to its peak in the nineteenth and early twentieth centuries and on into the present day He describes how at the height of its powers it was of immense importance It employed tens of thousands of workers so a large proportion of the population today has some connection with it And this great industry was also so widespread that wherever you move around the coast of Britain you will never be far from a former shipbuilding center This practical handbook will be an invaluable guide for family and local historians and for readers with a more general interest in shipbuilding It introduces the variety of national and local records that are available for genealogical research and considers the many other resources that can yield fascinating information about the industry and those who worked in it

Portland ships over 13 million tons of cargo every year and is the biggest shipper of wheat in the United States The city displays this maritime history along its beautiful rivers

New Directions in Norwegian Maritime History Lewis R.

Fischer, Even Lange, 2017-10-18 This book is a wide reaching study of Norwegian maritime history and developments within the discipline It brings together the research efforts of a University of Oslo project aiming to further understand Norwegian shipping history between 1814 and 2014 and the work of a new generation of maritime historians Structured into three sections global integration political issues and success and failure the volume covers a broad range of maritime topics that have influenced both Norwegian economic development and Norwegian cultural identity Through analysis it discovers that in the last few decades Norwegian shipping has been plagued by multiple troubles whilst simultaneously becoming less crucial to the Norwegian economy in favour of offshore petroleum production However it reiterates the historical importance of shipping to the economic development of Norway and asserts that historians have begun to treat it as the centre from which other industries grew

The Mobilities of Ships Anyaa Anim-Addo, William Hasty, Kimberley Peters, 2017-10-02 We live in a world that is ever on the move as is increasingly recognised within research on mobilities Yet studies of mobility have failed to go to sea with the same enthusiasm as mobilities ashore When we consider mobility we most often examine those movements that evidently form part of our everyday lives We forget to look outwards to the sea Yet ships have played and continue to play a significant role in shaping socio cultural political and economic life This book turns our attention to the manifold mobilities that occur at sea through an exploration of the mobilities of ships themselves as well as the movements of objects subjects and ideas that are mobilised by ships The Mobilities of Ships brings together seven chapters that tack through unexplored waters and move between diverse case studies including pirate ships naval vessels and luxury yachts In so doing The Mobilities of Ships offers a rich insight into the world of shipping mobilities past and present This book was published as a special issue of Mobilities

The Maritime History of Russia, 1848-1948 Mairin Mitchell, 1949 *A Maritime History of Bath, Maine and the Kennebec River Region* William A. Baker, 1973

Living History Ana Lucia Araujo, 2009-05-05 This book focusses on the several forms of reconstructing the slave past in the present The recent emergence of the memory of slavery allows those who are or who claim to be descendents of slaves to legitimize their demand for recognition and for reparations for past wrongs Some reparation claims encompass financial compensation but very often they express the need for memorialization through public commemoration museums and monuments In some contexts presentification of the slave past has helped governments and the descendants of former masters and slave merchants to formulate public apologies For some expressing repentance is not only a means to erase guilt but also a way to gain political prestige The authors analyse different aspects of the recent phenomenon of memorializing slavery especially the practices employed to stage the slave past in both public and private spaces The essays present memory and oblivion as part of the same process they discuss reconstructions of the past in the present at different public and private levels through

historiography photography exhibitions monuments memorials collective and individual discourses cyberspace religion and performance By offering a comparative perspective on the United States and West Africa as well as on Western Europe South America and the Caribbean the chapters offer new possibilities to explore the resurgence of the memory of slavery as a transnational movement in our contemporary world [The Maritime History of Massachusetts, 1783-1860](#) Samuel Eliot Morison,1921 [Sea, Ship & Seafaring](#) M.
