Pharaoh's Boat ,2009 With poetic language and striking illustrations Weitzman tells the story of how one of the greatest boats of ancient Egypt came to be built and built again In the shadow of the Great Pyramid at Giza the most skilled shipwrights in all of Egypt are building an enormous vessel that will transport Cheops the mighty pharaoh across the winding waterway and into a new world Pharaoh s boat will be a wonder to behold and well prepared for the voyage ahead But no one not even the Egyptian king himself could have imagined just where the journey of Pharaoh s boat would ultimately lead s s

Boats Dilwyn Jones,1995-01-01 Drawing on archaeological and literary evidence Dilwyn Jones examines the importance of the boat in Egyptian ritual and belief as well as in everyday life The sun god was thought to travel across the sky in a solar boat and Egyptians believed that the deserving might join the god Osiris in his divine bark after death Boats played an important part in funerary ritual models were often placed in tombs to provide the deceased with safe passage through the Winding Waterway in the underworld Also boats are frequently depicted in tomb paintings The Nile has always been a vital transport artery for Egypt and boats the principal means of travel Early papyrus skiffs gradually gave way to wooden craft of increasing size and sophistication ranging from fishing boats and barges to seagoing warships splendid ships of state and enormous obelisk barges used to transport stone to temples and monuments Dilwyn Jones traces the development of the different types of boats and the techniques of their construction through the Old Middle and New Kingdom periods The book is illustrated with photographs of boat models and paintings and with line drawings Out of the House of Life Chelsea Quinn Yarbro,1994-11-15 Three thousand years ago amidst the tombs and temples of ancient Egypt they called him Demon Today he is known as the Count Saint Germain a man of great power and greater mystery For over 15 years readers and critics have praised Yarbro s novels of Saint Germain Now the secrets of his mysterious past and distant nights along the shores of the Nile are revealed **Papyrus** John Gaudet,2014-06-15 From ancient Pharaohs to 21st Century water wars

papyrus is a unique plant that is now the fastest growing plant species on earth. It produces its own soil, a peaty matrix that floats on water and inspired the fluted columns of the ancient Greeks. In ancient Egypt, the papyrus bounty from the Nile delta provided not just paper for record keeping instrumental to the development of civilization but food, fuel, and boats. Disastrous weather in the 6th Century caused famines and plagues that almost wiped out civilization in the west, but it was papyrus to the rescue. Today it is not just a curious relic of our ancient past but a rescuing force for modern ecological and societal blight. In an ironic twist, Egypt is faced with enormous pollution loads that forces them to import food supplies, and yet papyrus is one of the most effective and efficient natural pollution filters known to man. Papyrus was the key in stemming the devastation to the Sea of Galilee and Jordan River from raging peat fires that last for years, and the papyrus laden shores of Lake Victoria, which provides water to more than 30 million people, will be crucial as the global drying of the climate continues.
