Turning Points—Actual and Alternate Histories Rodney P. Carlisle, J. Geoffrey Golson, 2006-09-21 This work is a thought provoking look at the original 13 colonies presenting the facts and engaging the reader by using alternate history what if key events had turned out differently to help develop critical thinking skills This entry in ABC CLIO's exciting series Turning Points Actual and Alternate Histories covers the development of the original 13 states from first European contact up to the Revolutionary War Using the fascinating tool of alternate history postulating the course of events had one key fact been different the book engages students imaginations and critical thinking skills This critical period in American history is particularly suited to the alternative history approach The population of the colonies was small so the import of individual actions or of singular events was proportionately large If the English had lost one battle to the Swedes the United States might have been a Swedish colony If James Duke of York had died of the plague in 1654 the U S and French revolutions might not have happened

Gotham Rising Jules Stewart, 2016-10-28 New York is often described as the greatest city in the world Yet much of the iconic architecture and culture which so defines the city as we know it today from the Empire State Building to the Pastrami sandwich only came into being in the 1930s in what was perhaps the most significant decade in the city's 400 year history After the roaring twenties the catastrophic Wall Street Crash and ensuing Depression seemed to spell disaster for the vibrant city Yet in this era New York underwent an architectural economic social and creative renaissance under the leadership of the charismatic mayor Fiorello La Guardia After seizing power he declared war on the mafia mobs running vast swathes of the city attacked political corruption and kick started the economy through a variety of construction and infrastructure projects In culture this was the age of the Harlem Renaissance championed by writers like Langston Hughes the jazz age with the advent of Tin Pan Alley the Cotton Club and immortals such as Duke Ellington making his name in the Big Apple Weaving these stories together Jules Stewart tells the story of an iconic city in a time of change

Before They Were the Bombers Jim Reisler, 2015-09-17 Many histories of the New York Yankees only skim the early years in their rush to pick up with the 1919 season when Babe Ruth joined the team and go on to celebrate the careers of Lou Gehrig Joe DiMaggio Mickey Mantle and Whitey Ford and the team's World Series titles But what about the Yankees before these big names The early Yankees who spent their first 12 years known as the Highlanders and were occasionally known as the Americans and the Invaders get the attention they deserve in this work It tells the story up until the sale of the Yankees in December 1914 beginning with 1903 when the team was formed from the remnants of the Baltimore Orioles Led by future Hall of Famers Wee Willie Keeler Jack Chesbro and Clark Griffith they were the most expensive major league team ever assembled but they are remembered primarily for their terrible failures which included

The Necklace Robin Friedman,2005-12 Former heartbreaker Chip Ackerman is eighteen years old super sexy and in love for the first time But Chip must part with Cassandra Schreiber the girl he loves and the beauty of the Catskills the place he calls home Forced to return to the crowded squalor of the Lower East Side in New York City Chip is tempted by an irreparable betrayal he ll regret forever This evocative sequel to *The Fence* set in the old New York City of the 1930s explores the heartbreak and hardship of a young man conflicted between love and loyalty The Fix Jonathan Tepperman,2016-09-20 We all know the bad news Our economies are stagnant Wages are flat and income inequality keeps rising The Middle East is burning and extremism is spreading Frightened voters are embracing populist outsiders and angry nationalists And no wonder we are living in an age of unprecedented irreversible decline or so we re constantly being told

Jonathan Tepperman's *The Fix* presents a very different picture. It identifies ten pervasive and seemingly impossible challenges including immigration reform, economic stagnation, political gridlock, corruption, and Islamist extremism, and shows that contrary to the general consensus, each has a solution and not merely a hypothetical one. By taking a close look at overlooked success stories from countries as diverse as Canada, Botswana, and Indonesia, Tepperman discovers practical advice for problem solvers of all stripes, making a data-driven case for optimism in a time of crushing pessimism. *Father Mychal Judge* Michael Ford, 2002. A portrait of the Franciscan priest and FDNY chaplain who lost his life in the World Trade Center attacks, recounts his personal story and his experiences in the firehouse, his friary, and his church. **Thank God for Mr. Chaney** Rudy Gray, 2011-09. First-rate work. The writing is excellent throughout; the characters are well drawn, interesting, and sharply differentiated; the dialogue is trenchant and lively; the atmosphere captures the world in which these people live and act; and most of all, the story the narrative is suspenseful and imminently believable. I was with the book all the way. It is a keen portrait of the world it is depicting and exploring. Edwin Wilson, CUNY Grad Center, Yale University, Wall Street Journal. Rudy Gray gives us a black teacher in a Bronx junior high during the gold chain snatching early 1980s. This book is fresh, nuanced, poignant, redemptive. Thank God for Rudy Gray. Jane Mushabac, 2011. Scholar on Campus, NYC College of Technology, CUNY. Co-author of *A Short and Remarkable History of New York City*, selected as a Best of the Best by the American Association of University Presses. Earl Chaney is a successful but burned-out teacher in a challenging junior high school. Continuously haunted by past misdeeds and failures to act, Earl needs an academic achievement to feed his starving ego. Thirteen-year-old Kaseem Abdullah thinks that being cool requires him to control everything around him, including himself. He is a malicious, confused problem student who has a penchant for pilfering necklaces from innocent female victims. But after he acts out in school one time too many, he is confronted by school administrators who graciously decide to give him another undeserved chance to redeem himself. After transferring Kaseem into Earl's already troubled classroom, Kaseem pretends to turn over a new leaf, providing Earl with an unjustified sense of accomplishment. Yet outside of school, Kaseem continues on his path of self-destruction. Earl mistakenly thinks his miscreant student has become a fine citizen. When the truth is finally discovered, Earl must come to terms not only with his student's deception but also with his own personal flaws. **Life on Display** Karen A. Rader, Victoria E.M. Cain, 2014-10-03. Rich with archival detail and compelling characters, *Life on Display* uses the history of biological exhibitions to analyze museums' shifting roles in twentieth-century American science and society. Karen A. Rader and Victoria E.M. Cain chronicle profound changes in these exhibitions and the institutions that housed them between 1910 and 1990, ultimately offering new perspectives on the history of museums, science, and science education. Rader and Cain explain why science and natural history museums began to welcome new audiences between the 1900s and the 1920s and chronicle the turmoil that resulted from the introduction of new kinds of biological displays. They describe how these displays of life changed dramatically once again in the 1930s and 1940s as museums negotiated changing often.

conflicting interests of scientists educators and visitors The authors then reveal how museum staffs facing intense public and scientific scrutiny experimented with wildly different definitions of life science and life science education from the 1950s through the 1980s The book concludes with a discussion of the influence that corporate sponsorship and blockbuster economics wielded over science and natural history museums in the century s last decades A vivid entertaining study of the ways science and natural history museums shaped and were shaped by understandings of science and public education in the twentieth century United States *Life on Display* will appeal to historians sociologists and ethnographers of American science and culture as well as museum practitioners and general readers

Beautiful Shadow Andrew Wilson, 2008-12-07 The life of Patricia Highsmith was as secretive and unusual as that of many of the best known characters who people her peerlessly disturbing thrillers and short stories Yet even as her work has found new popularity in the last few years the life of this famously elusive writer has remained a mystery For *Beautiful Shadow* the first biography of Highsmith British journalist Andrew Wilson mined the vast archive of diaries notebooks and letters she left behind astonishing in their candor and detail He interviewed her closest friends and colleagues as well as some of her many lovers But Wilson also traces Highsmith s literary roots in the work of Poe noir and existentialism locating the influences that helped distinguish Highsmith s writing so startlingly from more ordinary thrillers The result is both a serious critical biography and one that reveals much about a brilliant and contradictory woman one who despite her acclaim and affairs always maintained her solitude
