A Short History of France Mary Duclaux, 2018-05-03 Excerpt from A Short History of France From Caesar's Invasion to the Battle of Waterloo Of course my little book is far from complete partly on purpose I have some qualms about a chapter on philippe le bel which I deliberately sacrificed because he seemed to me too prominent a personage to stand so far back I have tried above all for unity and to give a complete impression the distance left in mass while the figures nearer our own times stand out in fuller relief So far as it goes I hope it is accurate The picture might be better yet the painter has taken great pains out of love and infinite respect for her two countries the two great countries of Europe About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
